Washington, D.C. 20515

Re: Summons dated 4-26-78 -
W. T. Ondrus, Personnel Director,
Chrysler Michoud Defense-Space Division,
New Orleans, LA.
Re: Personnel Records of Dante Marochini (former employee)

Dear Sir:

This letter is to confirm our conversation of 4-28-78, at the time you served the above captioned summons, wherein you advised me that notwithstanding the order of the summons, the only necessary action on my part, on behalf of Chrysler Corporation, would be to provide you with copies of the personnel records of Dante Marochini, including notes, memoranda, payroll slips, credit checks, references and all materials concerning Dante Marochini.

Attached to this letter please find a package of eighty-four (84) Xerox pages, which are copies of every and all personnel documents, notes, memoranda, payroll information, employment reference checks, and all materials concerning Mr. Dante Marochini's employment with Chrysler Corporation.

It is my understanding that it will not be necessary to appear before the Subcommittee on the Assassination of John F. Kennedy of the Select Committee on Assassinations in Washington, D.C. on May 12, 1978. Please confirm this understanding.

If there are any questions concerning this matter, please feel free to contact me at any time. Telephone number (504) 255-2362 or (504) 255-2360.

Sincerely,

W. T. Ondrus
Personnel Director

BY AUTHORITY OF THE HOUSE OF REPRESENTATIVES OF THE CONGRESS OF THE
UNITED STATES OF AMERICA

To G. Robert Blakey, or an assistant designated by him:

You are hereby commanded to summon William T. Ondrus, Personnel Director, Chrysler Michoud Defense Space Division,

Michoud, Louisiana

Subcommittee on the Assassination of John F. Kennedy to be and appear before the of the Select Committee on Assassinations Committee of the House of Representatives of the United States, of which the Hon. Richardson Preyer is chairman, and to bring with you the records of Dante Marachini (Maraccini) in your possession or control for his employment with the Chrysler Michoud Defense Space Division, including but not limited to, all personnel records, notes, memoranda, payroll slips, credit checks, references, and any and all materials concerning Dante Marachini (Maraccini)

in their chamber in the city of Washington, on May 12, 1978

at the hour of 10:00 a.m.,

then and there to testify touching matters of inquiry committed to said Committee; and he is not to depart without leave of said Committee.

Herein fail not, and make return of this summons.

Witness my hand and the seal of the House of Representatives of the United States, at the city of Washington, this 20th day of April, 1978

LOUIS STOKES Chairman,
Select Committee on Assassinations

Attest:
Clerk.
Previously separated as Permanent Layoff - No Work Available, effective 3-1-68.

Change to Permanent Separation - Lost Corporate Service while on Layoff, effective 9-5-72.

I certify that the above worker whose name and number are entered above has been separated from work and that the information entered above is true and correct. I further certify that the worker whose name and number appear above has been handed or mailed a copy of this report.

E. E. BERNARD
Personnel Procurement Manager

PERSONNEL REINSTATEMENT OR CHANGE NOTICE

IN THE SPACE BELOW DESCRIBE THE REASONS FOR THIS PERSONNEL CHANGE. SUPPORT REASONS WITH EXAMPLES AND ILLUSTRATIONS WHEREVER POSSIBLE.

[Handwritten text]

Marzolin has been a valuable employee over the years. His work ethic and attention to detail have contributed significantly to our success. He has been a reliable team member and has always been prompt and professional. His attention to detail and ability to handle multiple tasks simultaneously have been instrumental in his success.

Mr. Marzolin is an excellent candidate for a promotion. His dedication to the company and his willingness to go above and beyond have not gone unnoticed. He has consistently exceeded expectations and has been a positive influence on his team.

Mr. Marzolin holds a degree in languages and appears to be a very versatile individual. He has demonstrated his ability to adapt to new situations and has been successful in a variety of roles.

This promotion is in the best interest of the company and will benefit all involved.

Mr. Marzolin is worthy of this promotion.

INSTRUCTIONS REGARDING PAYMENT OF FINAL SALARY OR WAGES DUE UPON TERMINATION OF EMPLOYMENT

IT IS THE PRACTICE OF CHRYSLER CORPORATION TO MAIL CHECKS TO TERMINATING EMPLOYEES ON THE NORMAL PAYDAYS FOR THE PAY PERIODS IN WHICH THE WORK WAS PERFORMED. THIS ALLOWS THE CHRYSLER PAYROLL DEPARTMENT IN DETROIT TO CORRECTLY COMPUTE DEDUCTIONS AND TO INCLUDE ALL TERMINATING BENEFITS IN THE CHECK WHICH REPRESENTS THE LAST PAY PERIOD IN WHICH YOU WORKED.

IF THIS ARRANGEMENT IS SATISFACTORY TO YOU PLEASE INDICATE THE ADDRESS TO WHICH YOU WISH THE CHECKS MAILED AND SIGN BELOW.

4951 MUSIC STREET, NEW ORLEANS, LA. 70122,
NUMBER AND NAME OF STREET   CITY   STATE   ZIP CODE

* * * * * * *

PLEASE INDICATE BELOW THE ADDRESS YOU WISH THE CORPORATION TO USE FOR MAILING THE FEDERAL TAX REPORTING FORM (W-2 STATEMENT) AND AS A PERMANENT ADDRESS ON OUR RECORDS.

☐ USE SAME ADDRESS AS NOTED ABOVE FOR MAILING FINAL EARNINGS.
☐ USE ADDRESS PRESENTLY ON MY PERSONNEL RECORD.
☐ USE ADDRESS INDICATED BELOW.

**Date**

[Date]
Description of Work: The Production Control Planner works with schedules, Manufacturing Engineering data, Quality Control information and related input from other groups such as Purchasing, Follow-Up, Industrial Engineering and Material Control. He is responsible for the smooth flow of the manufacturing effort; and must have the ability to anticipate and prevent production bottlenecks. Among his primary functions are the direction of manufacturing, flow inspection, and material in such a manner that the schedule shall not slip. In the course of these duties he will maintain daily contact, and amiable relations, with manufacturing and quality control supervision, and NASA representatives.

He must be capable of analyzing and defining production problems; plus recommending alternate courses of remedial action. In the course of breaking production bottlenecks, he will be expected to contact both supervisory and management representative from all departments involved. He will push all departments involved for the rapid solution of problems and maintenance of the schedule.

Reason For Addition

RETURN REQUISITION TO SAL. ADV. FOR CODE 113-000
QUALIFIED CANDIDATE IS FOUND TO FILL OPENING.

**WHAT WERE YOUR RESPONSIBILITIES ON THIS JOB?**

Originates and maintains historical material specifications records showing vehicle application and usages by individual part numbers. Record engineering changes to the part and initiate documents required to notify suppliers and/or plant departments affected by such changes. Establish effective points for incorporation of engineering changes. Initiate purchase requisitions to procure material in accordance with the current drawing & specification documentation as furnished with the procurement package. Correspond with vendors relative to material specifications and engineering change documentation. Control procurement of material to effectively cover legitimate requirements.

**OTHER COURSES COMPLETED**

Real Estate, Insurance, Comm. Law - 1 yr. - Broker; 3 sem. years Mech. Eng. Certificates and credits received from Delgado College, as of this date, toward the associate degree in Mechanical Engineering:

1) Safety Engineering = 45 hours certificate
2) Physics I & II = Completion of course - Credits
3) Engineering Drawing = Completion of course - Credits
4) Mathematics and Calculus - Math I & II & Calculus I completed - Credits
   Calculus II presently under studies

English, social science, industrial relations, property of material being considered for part of credits from previous educational background.

Has held a great number of jobs unrelated to requisition requirements.

A sample for R. Taylor.

6/3/7 notified that he was not selected for the EDPA '80 position in Section 2722.

R. Taylor
These additional informations regarding my experience in the production control field and allied fields with:

1) Curtiss-Wright Aeronautical Division, Plant #1, Hackensack, N.J.
2) Van Vlanderen Machine Co., Paterson, N.J.
3) WITCO Chemical Company, Chicago, Ill., I deem most important to describe.

1) Curtiss-Wright: I was assigned to the lower recovery wheels and its rework department. Here operation sheets were assembled and work parts needed were assigned to machinery. Expediting of these machine operations and the account of parts, their splitting, rework and rejections were kept. Close contact with the various inspection departments were kept. Re-routing of parts to operation to be made were prompt. The assemblies and assemblies were fed to finishing line in their parts or subparts with proper paperwork. My next assignment was in connection with the development of jet engine and specifically in preparing all "TRAVELER" paper work in sequence of operation and blue print copies for all discs and blades and their assembly. Engineering changes were posted immediately and parts affected re-routed. Checking of daily progress of parts and assemblies were made and shortage list kept up to date. Other departments, beside the machinery floor; Heat Treat, Paint Shop, Forging, shipping and receiving, tool crib, were always contacted and frequented in order to expedite parts needed.

2) Van Vlanderen Mach. Co.-- I was hired to perform a
combined job, that of scheduler and expeditor. The company was manufacturer of most parts and assembly for printing machine for "A.T.F., American Type Founders. I was assigned to a new 35" high speed printing machine and its sheeter machine. The task involved was from the beginning, separate the general parts list called "BIB", to the end of completion of the machines. Purchase order were made for those parts supplied by other Companies. Casting and raw materials were ordered in their quantities proportioned to the machines on order. Expediting and helping the Engineering department to prepare all blue prints, assemble all operation sheets, follow them all parts till their final inspection. All scrap part at time of operation were immediately substituted. Parts, sub-assemblies and assemblies were supplied to the Machinist assembly department and finished shop. Finished store inventories were taken monthly and card system kept up to date. Spare parts accounts were kept separately and handling of these parts in storage and shipment were made. Special parts and treatments by outside company were well scheduled and expedited. Tool cribs were checked from time to time and upon request of machinery operators. Machine maintenance and production time schedules were kept on records also indirectly the machinist performance of their duties.

3) WITCO Chem. Co.- My position was of engineering clerk. One mechanical engineer was in charge of all plant maintenance. Many pumps, motors, boilers, pipelines, tanks and instruments were to be kept running and well. My duty was to keep records of all machinery in their performance and maintenance. A new card system...
was established for the maintenance of all machines. Lubrication, schedules and inspections were made. All records of repairs made by any mechanic were kept. Also the time schedules of all employees of the department. Weekly reports and recapitulation were made for each worker's time assigned to the various departments. The upkeep of a spare part store was among the duties and a minimum maximum established was kept at all times. Shortage lists and purchase orders were accordingly made. All withdrawals of parts from this store were authorized by the engineer in charge or myself. The reading of electric, gas and water meters were made monthly and reports filed. Safety zones and equipment were enforced and inspected were made from time to time. All the office mail was handled directly or indirectly by me.

I find it hard to describe in its details all the aspects of my doing in the task assigned to me by the aforementioned companies.

Many performances in the human relationships among all employees and their relative duties had to be kept at an high standard. In the field of this particular performance many individual and moral qualities must occur.

Very Truly,

Your

REQUEST FOR INTERVIEW - D. A. MAROCHINI

On March 1, 1967, I contacted Mr. Delaha and relayed the following information to him:

We have Mr. Marochini's updated PHI. If anything comes up that Mr. Marochini's capable of performing, we will be glad to consider him for it. Since he has been over here numerous times recently and there has been no significant change in employment requirements that would benefit Mr. Marochini, I advised Mr. Delaha that I did not feel that an interview was warranted at this time.

I advised him that we would continue to review Mr. Marochini's qualifications against any future requirements, however, our non-skilled employment requirements were becoming very infrequent because of the status of the program. I asked Mr. Delaha if he would please talk to Mr. Marochini and acknowledge our receipt of his letter requesting an interview and to relay the information that he (Mr. Delaha) and I had discussed over the phone.

CHRYSLER CORPORATION OR SUBSIDIARIES
APPLICATION FOR EMPLOYMENT
SPACE DIVISION SUPPLEMENT

IMPORTANT: This Space Division Supplement forms a part of the Application for Employment of all applicants for employment with the Space Division of Chrysler Corporation. The certification and understandings on the reverse side thereof immediately above the signature of the applicant are equally applicable to statements and information contained herein.

1. Answer the following question honestly and completely. An affirmative answer will not necessarily disqualify you from consideration for employment. However, failure to disclose fully the information requested below will be sufficient grounds for immediate discharge for falsification of your application for employment.

Have you at any time since your 16th birthday been detained, held or arrested, whether or not formally charged or if charged whether or not dismissed, by federal, state or other law enforcement authorities for any violation or suspected violation of any federal, state or local law, ordinance or regulation?

(Include any courts-martial proceedings brought against you while in military service. Do not include traffic violations for which a fine of $25.00 or less was imposed.)

Yes __________________ No ☑

If yes, give date, place, details of the incident and final disposition.

2. Read the following statement carefully before signing this Supplement.

I understand that my application is for employment by Chrysler Corporation, Space Division, and that proper clearance for purposes of security for the national defense of the United States is required in connection with such employment. Therefore, I voluntarily consent to a thorough investigation of my past employment and other activities.

I understand further that the failure of any United States Government Agency to clear me will be sufficient grounds for immediate discharge from Chrysler Corporation Space Division.

Dear Sir,

Enclosed you find an addendum which will bring my personal record up to date. I have always nourished strong feelings and consideration for Chrysler Corporation and their progressive industries. I have proven that these feelings have become a true factor because I have performed and fulfilled any and all duties assigned to me.

I can assure you that any additional investment on your part in me, it will always be guaranteed to the utmost.

I sincerely hope that consideration be given to my efforts to progress in the fulfillment of other duties in a better position.

Very Truly,

J. A. Mack

4951 Music St. No., LA. 70122
ADDENDUM

OCTOBER 11, 1965

The material specification lackman's description of duties which you have into your records doesn't reflect all other duties of a lackman assigned to the raw material deck.

Raw material deck is peculiar to itself because it has in common with all other procedural work only. Knowledge of raw material is required in all its specifications, form, types, quantity, standard size available, specific weight etc. Quantities are arrived by one in their size, weight and total requirement for a proper coverage of all production and non-production items.

I have responsibility manyfolds for miscalculations regarding all of its factors. I have to analyze periodically the raw material availability into our stock, the average usage of each material and its future requirement. I have to accomplish this tasking into consideration all factors of production and non-production usage, average of scrapage and shop losses, usage of material by logistic, reliability mock-up and other departments; quantities required by quality control for distinctive test for acceptance of material.

Other factors are also to be considered the unseen and uncontrollable one, such as material shipped to Huntsville, to Florida. I have to answer any shortage report made by various departments for production and non-production items regarding any raw material need. I may stay at this time...
That shortages of raw materials have been eliminated, because I have cared to put into practice a preventive system thru analysis, procurement and control of materials.

I have sufficient knowledge of production control systems and their application, also that of material control and their application.

I have a general knowledge of purchasing department function and duties in relation to vendors, contractual agreements, performance of contract and other procedures. Also I have knowledge to a certain degree of cost estimating and budgeting.

I can state that, though my knowledge may be limited, yet I have never failed to fulfill all duties assigned to me in the best possible way.

It is possible that I may not be able to describe in detail the full extent of my knowledge in the various fields, because I have not been confronted with a counter-task to prove its degree of value and potentiality.

I have registered at Delgado Junior College in the study of mechanical engineering on Sept. 21st. I am attending the courses of physics, four hours weekly; engineering drawings, six hours; mathematics, three hours weekly. I intend to complete this course.
Which will further my knowledge in this technical field. I also channel this technical field toward a better point of accomplishment. This course is an advanced one requiring sufficient basis of knowledge of the forementioned subjects.

My meter of action of my everyday life, it is based on truthfulness. When I am confronted with any task and unable to perform and fulfill its duties I make room for someone else better qualified for it.

I thank you for any consideration you may have in giving me a possibility to better myself and provide my children with a better living.

Very truly,
Yours,

Has held a great number of jobs unrelated to requisition requirements.

A Geppel for R. Tafel

6/3/7 Notified that he was not selected for the EDPA "B" position in Section 2722.
R. Tafel
These additional information regarding my experience in the production control field and allied fields with:
1) Curtiss-Wright Aeronautical Division, Plainfield, N.J.
2) Van Vlaardingen Machine Co., Paterson, N.J.
3) WICO Chemical Company, Chicago, Ill., I deem most important to describe.

1) Curtiss-Wright: I was assigned to the lower recovery wheels and its rework department. Here operation sheets were assembled and with parts needed were assigned to machinery. Expediting of these machine operations and the amount of parts, their splitting, rework and rejections were kept. Close contact with the various inspection departments were kept. Retaining of parts to operation to be made were promptly made. Assemblies and assemblies were fed to finish line in their parts or entirely with proper paperwork. My next assignment was in connection with the development of jet engines and specifically in preparing all "travelers" paperwork in sequence of operation and blue print copies for all discs and blades and their assembly. Engineering changes were posted immediately and parts affected re-routed. Checking of date progress of parts and assemblies were made and shortage lists kept up to date.

Other departments, beside the machinery floor; Heat Treat, Paint shop, Forging, shipping and receiving; Tool crib, were always contacted and frequented in order to expedite parts needed.

2) Van Vlaardingen Mach. Co. - It was hired to perform a
combined job, that of scheduler and expeditor. The company was manufacturer of most parts and actually for printing machine for "A.T.F.," American Type Founders. I was assigned to a new 35" High Speed printing machine and its feeder machine. The task involved was from the beginning, separate the general parts list called "Bible," To the end of completion of the machines. Purchase order were made for those parts supplied by other Companies. Casting and raw materials were ordered in their quantities proportioned to the machines on order. Expediting and helping the engineering department to prepare all blank prints. Assemble all operation sheets and follow these all parts till their final inspection. All scrap part at time of operation were immediately substituted. Parts, sub-assemblies and assemblies were supplied to the machining assembly department and finished side. Finished store inventories were taken monthly and control system kept up to date. Spare parts accounts were separately and handling of these parts in storage and shipment were made. Special parts and treatments by outside company were well scheduled and expedited. Tool cribs were checked from time to time and upon request of machinery superintendent. Machine maintenance and production time schedules were kept on records also indirectly the machinist performance of their duties.

3) W.R.O. Chew Co. - My position was of engineering clerk. One mechanical engineer was in charge of all plant maintenance. Many pumps, motors, boilers, pipelines, fans, and instruments were to be kept running and well taken care of. My duty was to keep records of all machinery in their performance and maintenance. A new card system
was established for the preventive maintenance of all machines. Lubrication schedules and inspections were made. All records of repairs made by any mechanic were kept also the time schedule of all employees of the department. Weekly reports and recapitulation were made for each worker's time assigned to the various departments. The upkeep of a spare part store was among the duties and a minimum maximum established was kept at all times. Shortage lists and purchase orders were accordingly made. All withdrawals of parts from this store were authorized by the engineer in charge or myself. - The reading of electric, gas and water meters were made monthly and reports made. Safety zones and equipment were enforced and inspections were made from time to time. All the office mail was handled directly or indirectly by me. -

I find it hard to describe in its details all the aspects of my doing in the task assigned to me by the aforementioned company. Many performances in the human relationship among all employees and their relative duties had to be kept at an high standard. In the field of this particular performance many individual and moral qualities must concer.

Very truly,

Your

Delaha told me would setup interview on 11-21
He will be called to set a specific time.
Reference: Memorandum, D. A. Marochini to J. S. Delaha dated 4/12/66

Your additional request for further opportunity for betterment within Chrysler Corporation is commendable. However, some salient points of our endeavors in your behalf are evidently being overlooked on your part and I should like to remind you again of the following efforts in this respect:

(a) Your previous requests have been promptly processed through all levels of supervision up to the Personnel Placement Group for review and consideration.

(b) Personal interviews have been arranged for you to present your case directly to these same levels of supervision and channels of personnel communication.

(c) No effort has been made to hold you in the current job or classification, department or area of endeavor.

(d) Your personnel records, updated to your specifications, are in the hands of the proper Personnel Department employees for further processing.

In view of the above actions, communications and personal interviews exhausting all possible avenues of stating your desires in this matter to the proper parties, my only reply can be to the effect that the matter is in the proper hands of our Personnel Placement Section.

J. S. Delaha, Supervisor
Material Specifications Dept.
April 12, 1966

REF: OPPORTUNITY.

Dear Mr. Beloha,

I am sure that this present request will not be of surprise to you. It pertains to an old subject that, as you know, it has been talked about many times before with other words and superior. I want to assure you that this request for an opportunity of betterment is my last one. The opportunity I need is one which will be in the best interest of Chrysler Corporation and myself. I am sure you are well posted of what has transpired from my starting day to this present day of work. I would like to mention only few incidents occurred during all this time. No too long ago, as the result of a letter addres
to the Personnel office, Mr. Gates, after an inter
terview asked me to prepare a sheet with those addita
onal informations related to the performance of my
duties and those related to my knowledge. All this was done, but it seems that no fruit could ever grow out of it. I was given permission to see Mr. Dawson, alwa
Searching for an opportunity, Mr. Dawson spoke to me in a very evasive and unrelated way and his final words were "Damn you are wasting my time. It did teach me a very good lesson."

It is self-evident and very clear that opportunity smiles to those privileged ones and not to those who by their performance and potential qualities should rightfully be given such an opportunity. It is also clear in my mind that the exception has become the rule and in my specific case since I started to work under the supervision of Mr. E.W. Branch, and to this present time under the general management of Mr. Dawson, it has applied.

In conclusion I want to hope that an opportunity be given me in view of my merits, in order that I may continue to serve Chrysler Corporation in their best interests and at the same time that of my dear family. I hope to receive an answer as soon as possible, so that I may take proper steps toward the fulfillment of my hopes.

Very truly,
Yours,

André G. Marchia

4. Alleged that other people have been ("victimized") subjected to similar criticism notably Messrs Caserta, Matel', & S. Hickey.

I advised him that his request would be given due consideration.

11/22/65 - Advised him that no promo opportunities existed which was compatible with his training & experience. Insofar as lat. transfers were concerned, no disposition.

11/22/65 - At my request, Burchart of 2751 reviewed his PIR. Could not qualify as a SPA "A", but possibly as a SPA "B" subject to re-interview.

11/30/65 - Per telecon advised him that his request is still pending.

12/3/65 - Will make an appt w/ Jen.

12/6/65 - Appt 12/9 1PM
DATE OUTLINE OF ACTION TAKEN

Glover interviewed Marcobinii at length today. Marcobinii complained of same thing as previously. Feels he is not being promoted fast enough. Language problem. Feels others are being promoted on subjective basis.

Glover assured him he had not been overlooked for promotion. Glover has asked intercom with Marcobinii promising to bring in more up-to-date reports on his grad.
2 August 1965

Mr. J. Glover -

What is this all about?

EMH
Mr. E. M. Hicks
Manager:
Personnel Department.
C. C. S. D. New Orleans, LA.

Dear Sir,

After a long and methodical consideration, I have decided to bring my problem to your attention, hoping that you may look into it and help to solve it in the proper possible way.

Mr. R. H. Taylor has handled all my personal records from my first interview, my hiring on August 24, 1963 to this present time. Many distorted happenings have occurred in this period which, in my opinion and belief, could have been easily avoided.

I do not intend to bring about all what has happened because, it will take a long time and also part of it, if not most of it, may have become part of my personal history record.

Mr. Taylor should cease from handling my personal records because he has indicated every time that I have asked to better myself or an opportunity to be considered for a better position, that my records were worthless of any consideration at any time.
I am sure my records will prove different from Mr. Taylor's judgment of my ability of performance in all those positions which I have been assigned or other I may be assigned to.

I would certainly appreciate your consideration, cooperation and help you can render in order that a new light of hope may spark and a better future within Chrysler Corporation may become a nearer possibility for me.

Thank you.

Very truly,

Yours

Dante A. Marchini

Dept. 2831, Ext. 3269-
Attached hereto is a Personal History Record for Dante Marochini, who has requested that this History be forwarded to Chrysler International Operations for possible consideration of his employment by this Division.

In the event Mr. Marochini would be considered for such a transfer, the Materials Branch would release him.

Signed:
J. L. O'Neil, Section Manager

No current openings for Marochini.

2-23-65
Spoke to Marochini. He informed us that he spoke to Mr. Johnson in that capacity to inform me of the situation that we did not send.
June, 23, 1965

MR. R. TAYLOR,
PERSONNEL DEPARTMENT,
CC&D, Michoud Plant.

Dear Sirs,

This is a reminder, following my request dated April 12, 65, regarding a better opportunity within CHRYSLER CORP.

Due to the fact that many previous opportunities of higher grade than mine have already been satisfactorily filled and others are presently available in different departments: "INDUSTRIAL ENG., COST EST. etc." I would appreciate that some consideration be given to my above mentioned request.

I would also appreciate that I may be informed about the language opportunities which are presently open with CHRYSLER CORP., which a list of persons has been already prepared for.

Very Truly,

Yours,

Lance G. Marodin
Dept. 2831
Ext. 3269.
Dear Sir,

due to my personal ambition, to a desire to advance my economical position in direct proportion to my knowledge, which at the same time I will be able to widen, I would like to be transferred out of my present department "MATERIAL SPECIFICATION, 2831", to other better position available.

I can assure you, I will continue to do my best in the execution of my duties for the best interest of CHRYSLER CORPORATION.

I hope this can be attained within the CHRYSLER ORGANIZATION.

Very Truly,
Yours
DANTE A. MARCIN
