GENERAL INSTRUCTIONS

- (a) One triplicate application should be made for each complete shipment to any one consignee, and it may not include more than one commodity nor shipments to more than one country.
- (b) Applications should be typewritten, with the exception of signature, but will be considered if written legibly in ink.
- (c) Articles and materials appearing under (7) below should be designated clearly and specifically, the type and model designation being included whenever applicable.
- (d) Values listed should represent the selling price only of the articles exported, and should not include such supplementary costs as packing, freight, etc.
- (e) Specify under paragraph (9) the name and address of the producer or manufacturer in the United States of each article and material to be exported or, if obtained outside of the United States, the name and address of the person from whom procured.
- (f) Unsigned applications or applications which omit essential information called for in the numbered spaces will be returned.
- (g) When countersigned and impressed with the seal of the Department of State, this application becomes a license.
- (h) Any attempt to export a commodity differing in any way from that licensed, or any alteration of a license, except by a duly authorized officer of the Government, is punishable under appropriate acts of Congress. Changes in the information set forth in licenses which have been issued under the seal of the Secretary of State can be effected by amendments which can be made only by the Department of State, or by collectors of customs or postmasters acting under the specific instructions of the Department of State.

A proposal showing general description of necessary equipment and inter-relation between such for the construction of two Natural Gasoline Plants in U. S. S. R. The equipment all being of standard and known design, and the inter-relation between such being both available and known to the general public. The proposal will show the total price which will be charged for the equipment, but will not show any detail of design or technical data for operation not available to the general public. The proposal will be generally the same as made by us to Antorg Trading Corporation in the year 1936, with changes embodying advances in industry available to the general public. A copy of our former proposal, being P-854, is enclosed herewith.

(Mr. Robinson of the Advisory Council saw Mr. Raigorodsky who explained the matter in detail. Mr. Robinson says that no new technical data is to be disclosed. Therefore no license is required.)

NO LICENSE REQUIRED

For this Exportation Under the Regulations issued Pursuant to the President's Proclamation

11/22/41
The above application concerns the proposal only, not the delivery of the plans. Antorg accepted the proposal. Question is whether the plan actually were delivered.
