Re Phila. telephone call to Bureau 8/4/64 in which authorization was obtained to make installation at 1531 S. Broad St., Phila.

For background, the following information is furnished:

On 8/4/64 PH 672-C-TE met with FRANK NICOLETTI at NICOLETTI's residence. During the meeting arrangements were made for ANGELO BRUNO and NICOLETTI to meet with informant at informant's address, 1531 S. Broad St., Phila. Thursday evening. The purpose of this meeting is to request BRUNO's, by the informant, assistance in having restitution payments on bad check charges lowered to a figure less than the \$75.00 per month amount presently being paid.

Informant will endeavor to obtain higher wages from the Philadelphia-New Jersey Express where he is now employed, having obtained this employment through the assistance of BRUNO. Informant is being paid less than Union wages even though his employer's firm is unionized by Local 107, Teamsters Union, Phila.

During the current week the informant's family is vacationing, which leaves his apartment unoccupied during the day hours. It will be necessary to trespass to make the installation; however, no breach of security is foreseen. If complete security is not available, installation will not be made.
