since she has proved a definite danger to the operation especially since Gutierrez, according to (Sinluck's) version has dodged responsibility for failing to properly support the Moreno 13 November group by implying that "infeltration" of the Party was responsible for the capture of that group and that June Cobb knows too many Party secrets through her association w/ (Sinluck). (Sinluck) once again has promised to stop seeing her and has admitted the validity of our past attempts to get him to stop his affair w/ her. Memo for: C/WHP for Cuba

Subject: Espinosa Allegations

1. Sensitivity: Regardless of accuracy, they

A. present a problem because of their having been presented to other govt agencies;

B. in view of matters touching on U.S. security, are delicate and could have unfavorable repercussions if repeated to newsmen by the complainant or his associates (whose independent, previous threats were of greater potential embarrassment);

C. affect the reputation and the security of our personnel at

11112102

2. Action: In view of the foregoing, the allegations

11112112

A. should be put in proper perspective i.e. not ignored because of the potential embarrassment but considered in the light of what we already know (Almost all of them are repetitions of previous charges and reports. Known well to both the [redacted] [redacted]

[redacted] Ha's officers

SECRET

Concerned w/ the AMHLASH group,
whose members' reliability, repu-
tation and good faith are
questionable. Two of the charges -
about Earle and "Tota" and
about AMWHIP-1 and Carrillo -
are new.]

B. should be treated so as to protect
us against any charge of laxity
and so as to establish the
facts but, at the same time,
treated so as to avoid attributing
to them more importance than
they deserve.

C. should be kept in mind as
examples of other charges which
may be bandied about and
reported by the AMHLASH group to
other governmental agencies or to
other governments or to news
media (In the last connection
recall the implied threat of
publishing (ODYORKE)^{USG} responsibility
as reported previously by ³⁷¹⁶
IN ^{3/8634}):

D. should be examined together
with all the other available reports
so that we may

(1) clarify our own objectives and
work w/ respect to all the
AMHLASH group (and this includes

~~11112103~~

11112113

AMWHIP).

- 2) sort out which people, if any, are worth our time in the future;
- 3) take appropriate measures, including interrogation and polygraphing, to clarify doubts and then, when necessary, terminate those who are working ~~against~~ for us but are not worthwhile;
- 4) tighten up our own operational and security procedures in connection w/ the AMLAASH group

3. Preliminary Analysis: As pointed out in a preliminary analysis of the AMLAASH complex, made in March 1965 when I was preparing for travel [redacted] in connection w/ the (OCHOPS-1) case: "... There is no convincing evidence that the group is working either for or against the regime of Fidel Castro. Reports on their contacts w/ us and their discussions among themselves are at variance. In 1962 Fidel Castro, reportedly knowing that they were plotting against him, talked to AMLAASH and seven members of his group

to enlist their support against Anibal Escalante Dellunde and the communists in Cuba. Possibly they are playing both ends against the middle. They certainly have been and are in contact with the two ends." The following comments are key to the matter raised by Espinosa:*

A. The AMKASH conspiracy - As detailed by [] 3716 (IN 28634) on 6 April 65, (QUSPORT-1) reporting on a meeting of the AMKASH group, including AMWHIP-1 mentioned the following significant points:

- 1) Dulbach was criticized for "fooling around for years" w/out helping and for jeopardizing the operation.
- 2) The group was to be prepared to denounce (ODYOK^{USG}E) as responsible if the operation fails and believed that the resulting scandal would make the Bay of Pigs seem insignificant, and
- 3) (AMKASH-3) was in touch w/ Cuban Intelligence as established by code messages which he exhibited.

11112105

11112115

SECRET

SECRET

As reported by () 1532 (IN
8 2939) on 4 June 65, based on
meetings w/ Espinoza, the
problem seen by () is that
"The AMLAH circle is wide and
each ~~new~~ friend, whom we
learn seems to have knowledge
of the plan." I believe that
the problem is a more serious
and basic one. As indicated
in paragraph 3 of the present
memorandum, Fidel Castro
himself reportedly knew as
far back as 1962 that the
group was plotting against
him and knowing it, enlisted
its support. Hence we cannot rule
out the possibility of provocation.
Assassination, obviously, is a
dangerous game, not merely to
the plotters in a physical
sense, but to a sponsoring
government which may
suffer severe political reper-
cussions at home and abroad
if its involvement is made
known. In the instant case,
the risks of exposure of the
(ODYORKE) hand would appear high,
whether there is a provocation or

SECRET

SECRET

not. Considering the individuals who are involved directly, their contacts w/ KUBARK officer, and their reported plan to expose (OP^{USG}YOKE), persisting in the plan could be highly embarrassing to KUBARK. (This is even more the case now that Espirasa^{INS} has talked to (ODENVY^{FBI}) and (ODURGE) although fortunately the tenor of his complaint was that KUBARK had not given adequate support to the plan.

B. The contacts at [redacted] about the matters affecting the [redacted] The "recruitment" of Maureen had been the subject of a change of cable between [redacted] and HQS and of discussions at HQS between WH/C and WE (See [redacted] 1071 (IN 66557) and DIR-1 6955). The annoying thing in this connection now is that Espirasa^{INS} has talked about it to (ODENVY^{FBI} & ODURGE) and the danger that, if he is indiscreet, his story about this (and the other matters) could reach some curious newspaperman. (On this connection, it appears

that the questionable decision to put Maurice in touch w/ the AMKASH group was made w/out the knowledge of [redacted] Espinosa did not report any criticism of the KUBARKERS at [redacted] but it is evident that the AMKASH group knows more about them than we might wish. What is new and of concern from Espinosa about matters in [redacted] is his story of AMWHIP-1 and (UNSNAFU-19) dealings. The questions raised about AMWHIP-1 are of mutual concern also to HQ's which has been running him and [redacted] which he has visited often, (On the occasion of my previous trip to [redacted] on the (QUHOPS-1) case, (Gowen) and voiced his doubts about the whole group and specifically about AMWHIP-1 and his connection w/ UNSNAFU-19. At issue are two basic points, the knowledge on the part of (UNSNAFU-19) about KUBARK'S connection w/ AMWHIP-1 and the charge that AMWHIP-1 has been

11112108

defrauding KUBARK in the (jewelry) transaction. Also to be kept in ^{FBI} mind is the fact that (ODENVY) has an office in [] which well might have been informed of the allegations and which might have been asked for comments - although (O ^{FBI} PENVY) policy always has been to stay away from any investigation of other government agencies unless specifically directed by the Attorney General to investigate.

C. Criticism of the [] Criticism of the [] by the AMKASH group is not new. (Amlesh 2 and 3) were in [] and wanted direct contact, but the ~~11112109~~ (Station) has had reservations about seeing them. The (Station) has been involved indirectly because of reporting by its sources about and involvement of (Station) targets w/ both the AMKASH and (AMWORK) operation (both handled from HAs) (See [] 2982 (QW72256) and [] 2998 (FN 73094) (both KYBAT).) Meetings among (QUSFORT), (QUSWIFT), AMWHIP-1 and AMKASH

11112119

figures produced conflicting reports which previously were discussed at [] and at H.A.S. Insofar as (GROVER) himself is concerned, it must be kept in mind that he is a natural target in whom the AMLAH group would be inclined to focus its complaints. With regard to the specific complaint about "Tota", (Ginwen) has identified her as (QU SWIFT-7) and has reported that no staffer from the (Station) ever had contact w/ her.

4. Further involvement of ^{FBI} ESPINO SA:

On 10 June (ODENVY) notified KUBARK at [] that

(AMLAH-2) had telephoned ESPINO SA to ask whether he had succeeded in contacting "the proper people" i.e., responsible KUBARK representatives - and to request notice of the resulting arrangements.

5. AMWHIP-1: Our plan calls for meeting him next week to obtain PRO information and to obtain clarification of the roles played by those involved w/

him in the AMKASH operation.
His dealings w/ (UNSNATU-19)
also will be covered. Following
this, and LCFIUTTER examination -
tion is planned. This may help
to determine whether he has
been truthful in his reporting.
