RELEASE IN FULL

10/11/94

JFK Work Files (also called Russ Holmes' Ancillary Files)

13 boxes containing 236 "folders" organized by subject. The individual files are primarily based upon or related to subjects and individuals in Lee Harvey Oswald's 201 File. We estimate, based on a survey of over half the boxes that at least 2/3, and probably more, of the materials in the file is duplicative of documents previously reviewed.

The collection is a combination of files set up for background / reference purposes and responses to specific requests. Most files deal with requests from, and responses, to the HSCA investigation (1976-79), but the file includes folders related to the Rockefeller Commission (1975) and Church Committee (1976) investigations and FOIA requests. The boxes also contain reference tools (index to names requested by HSCA; inventory of Mexico City COS Records) and work files from other components. Some of the files were reviewed by HSCA staffers.

Holmes continued to add to the file after the end of the HSCA investigation. For example Victor Marchetti 1984 deposition re E. Howard Hunt is in the file. There are several files on Authors who have written JFK Assassination books and files of post-1979 newspaper clippings.

Based on our survey, there is no "new" Oswald or assassination information in the file. There are documents which we can not locate in the Oswald/JFK collection, but the information in these documents is contained in other documents previously reviewed. There is the possibility that these documents are in the released collection, however, because of "unit" indexing we can not search the entire file at the document level.

There are "assassination" related memos and documents that deal with various requests and investigations that appear to be unique. These items generally reflect the Agency's handling of requests or are items collected from other work files or only part of the material was included in the sequestered file.

There are also some non-related files in the collection. These file usually resulted from a request (HSCA, etc.) but contain no information related to the assassination or Oswald.

The work files do not add new information or insight into Oswald or the assassination. They do, however, show how the Agency responded to various request and the HSCA investigation, i.e, could be considered part of the history of the investigation. A case can also be made that a number of the unique items should have been in the sequestered file

There are documents which we can not locate in the Oswald/JFK collection, but the information in these documents is contained in other documents previously reviewed. It is possible that these documents are in the released material, however, due to unit indexing we can not search the entire file at the document level.

There are "assassination" related memos and documents that deal with various requests and investigations that appear to be unique. These items generally reflect the Agency's handling of requests or are items collected from other work files or only part of the material was included in the sequestered file.

There are also some non-related files in the boxes. Such files usually resulted from a request (HSCA, etc.), but contain no information related to JFK/Oswald.

The work files do not add new information or insight into Oswald or the assassination. They do, however, show how the Agency responded to various requests and the HSCA investigation. They could be considered part of the history of the investigation. A case can also be made that some of the unique items should have been in the sequestered file.

Proposed Handling of Work Files

The Ancillary files are not sequestered material and are not part of the CIA JFK collection. They were created for reference and background purposes in response to JFK assassination requests and investigations. The contents are primarily duplicates of previous reviewed material, but there are some unique items that can be considered subject to the JFK Act.

HRG will review the 13 boxes of work files that were organized and maintained as a separate file know as the Ancillary File.

Unique items (not confirmed as being previously reviewed) will be reviewed for addition to the JFK collection.

items created as a result of the investigations (examples: card file index to names requested by HSCA; chrono of all documents in which Silvia Duran is mentioned)

Items requiring further discussion:

Subject files containing previously reviewed documents (useful to researchers; documents are from various folders of Oswald 201)

Box Inventories prepared by Russ Holmes

Files reviewed by HSCA staffer (contains previously reviewed documents)

Non-related files

Documents (State & CIA) /press reports containing references to foreign reaction to Kennedy assassination (generally brief non-substantive comments; not in the JFK collection).

Review of JFK Work Files

The JFK work files or "ancillary files" are not sequestered material or permanent agency records. They were maintained as working files, separate from the JFK collection, by an agency staff employee(s) responsible for the JFK collection. These files were created for reference and background purposes in response to various JFK assassination inquiries and investigations. Eighty to ninety percent of the files' content are primarily duplicative of material in the Oswald 201 and the JFK sequestered collection, both of which have been previously reviewed for release. There are, however, some unique items within the files which can be considered subject to the JFK Act.

Review Guidelines

HRG will conduct a document-by-document review of these 13 boxes of working files.

Unique items (i.e., those not identified as being previously reviewed) that add to the understanding of the JFK investigation or that may be of utility to researchers will be reviewed for release to NARA. Most of the unique items should fall in the following three categories:

- 1) Memos, documents, reports, etc., which contain substantive information and are directly related to the JFK/Oswald story or scope of one of the investigations;
- 2) Previously reviewed items that contain different marginalia, (do not include transmittal memos and forms attached to previously reviewed documents unless they contain substantive information);
- 3) Items created as a direct result of the investigations (i.e., the card file index to names requested by HSCA; the chrono of all documents in which Silvia Duran is mentioned). This does not include inventories and similar tools based on the working files and prepared for reference use.

Other items that do not fall into the above categories, but which could be considered subject to the JFK Act, will be addressed on a case by case basis.

Guidelines on specific types of documents:

FOIA Request:

If a document was responsive to the 1976 FOIA request (i.e., has FOIA stamp with date and double number such as 706-431), consider it a duplicate document. In folders/files on specific FOIA requests, do not treat FOIA related items/paperwork as unique documents. Do check the folders for other substantive items. If the document was responsive to another FOIA request, consult with the senior reviewer.

Open source/press clippings

Do not process open source items for release unless they contain substantive marginalia, or are attached to documents/memos being reviewed for release.

Folders on Authors of books on assassinations:

Treat on case-by-case basis; generally would not process/review folders created after the HSCA investigation (1979).

Inventories prepared by Russ Holmes:

Do not review for release unless created specifically for the HSCA staff. Consult with senior reviewer if in doubt.

Files reviewed by HSCA staffer:

Review only substantive items that can not be identified as previously reviewed documents.

3rd Agency documents:

If these can not be located in our on-line index; they must be coordinated with the other agency.

Originals of Documents Released in JFK collection:

If a document was previously released in full, process the original for release to NARA. If document was sanitized or denied, file in the appropriate HRG retention box.

Non-related material:

Do not review; use same guidelines as employed for microfilm; this determination will be reviewed by the senior reviewer.

Handwritten notes/drafts of memo's/misc. routing slips:

Handle on a case-by-case basis; coordinate with the senior reviewer.

Signature Sheets:

Do not review; (Note: this may change for the folders containing only signature sheets).

Other Items:

If items are found in the files that are not covered by the above guidelines, consult with a senior reviewer.

Addendum to REVIEW OF JFK WORK FILES, Dated 10/18/94: Processing Details.

- All documents that are confirmed duplicates of items previously processed for release will be identified with a post-it marked with the Oswald or JFK box number and folder number.
- All documents stamped with an FOIA number are presumed duplicates of items processed in the original Oswald or JFK boxes. They need no further marking; but do not remove any notes regarding duplication that you might have made in your initial review.
- All newspaper articles and most other open source items will not be given any processing and need not be flagged. An open source item that might not be widely available, was not previously processed and seems significant may be processed for release.
- Non-relevant documents: the occasional non-relevant item should be checked as a possible duplicate, since we were required by law to process the whole JFK file regardless of relevancy. Larger groups of documents that are clearly justified as non-relevant should be pink-banded with a brief statement of justification entered on the band.
- The documents selected for release to NARA should be accumulated in a folder marked with the appropriate Holmes box number. The documents themselves should be marked with the folder number.

Documents selected for sanitized release will require a copy for yellow sanitizing and HRG retention and a final redacted copy for NARA; place the original file copy with the sanitized copy in the HRG retention file and another copy back in the Holmes box. The original file copy of documents to be released in full should be provided to NARA, with a copy placed in the HRG retention file and a copy placed in the Holmes box. For a lengthy document to be released in full a copy of the cover or first page with a note indicating its retention in HRG will be sufficient for the Holmes box. In the unlikely event of a unique, relevant document that must be denied in full, white band it and place it in the HRG retention file; place a copy in the Holmes file.
- True originals (not cables, dispatches, CSs, etc) of documents previously released in full should be removed from the Holmes file and collected in a separate envelope for forwarding to NARA. Use a post-it to mark the NARA copy with box and folder numbers. Reproduce a copy for the Holmes file. True originals of documents released sanitized should also be placed in the HRG retention file with a copy in the Holmes file.

FROM: J. Barry Harrelson
DATE: 12/10/96 12:57:51 PM
SUBJECT: One-day Clearance for Russ Holmes

1. The Executive Director of the Assassination Records Review Board (ARRB) has requested that Russ Holmes, retired CIA employee, be granted a one-day **SECRET** clearance to view specific documents related to the JFK assassination. Russ Holmes is being interview on December 13 by the ARRB staff concerning his role as custodian of the Agency's JFK assassination records from the late 70's until 1992. The ARRB is primarily interested in memos written by Mr. Holmes that were found in working files that he had set up.

2. The ARRB's Executive Director and General Counsel are aware that Mr. Holmes' separation from the Agency was controversial. His access will be restricted to those documents that his knowledge is required to clarify the historical record. The ARRB staff will provide a list to the Agency of all classified documents seen by Mr. Holmes.

3. This request for clearance has been coordinaated with Fred Wickham and Ken Johnson of DO/IMS. IMS is Mr. Holmes' fromer office and the current DO focal point for ARRB requests.

4. Bio detail: Russell B. Holmes SSN [REDACTED] DOB: Sept 20, 1923.

PRELIMINARY REVIEW OF WORKING FILES (SIX BOXES)

BOX 1. Contains 16 folders on Lucien Conein, former OSS type and long time Agency paramilitary officer (Viet Nam). All folders contain only administrative papers from mid 1940s concerning Conein's pay, awards, transfers, etc. -- nothing even remotely connected to JFK or the time period of the assassination. Entire file, inexplicably, microfilmed for HSCA and appears in microfilm print box 4, folders 11-26 (16 folders) all declared non-relevant. A 17th folder is in microfilm box 57, folder 6. These files in ancillary box 1 of 6 were apparently the file copies that were microfilmed. Three additional folders in box 1:

- Administrative memos and records re the JFK files and related FOIA requests (1980-1992).
- "HSCA '77-'78 memos". These are administrative memoranda to and from HSCA, mostly concerning relations between CIA and HSCA, as opposed to the numerous HSCA requests for information and CIA responses found in the primary JFK files.
- "Sequestered HSCA - CIA Documents Correspondence". More administrative memos similar to those in the immediately previous folder.

There is no justification for processing the 17 Conein folders. The last three folders contain nothing of direct substantive value regarding the JFK assassination, but they might be of some usefulness to researchers by enhancing their understanding of the handling of the assassination records.

Box 2. The entire box contains documents on Gerald Patrick Hemming, anti-Castro soldier of fortune and long time pain for CIA with which he claimed affiliation (untrue except for a few contact reports he volunteered). All of the documents in twelve dated folders, one folder with a blank label, and the loose documents* in the front of the box are duplicates of documents processed in the primary JFK file. Each of these documents is marked with the JFK box and folder number, usually identified as "HSCA box #...". The last folder, a red-brown portfolio, contains documents that apparently are responsive to two Hemming Privacy Act requests. Many of these are recognized duplicates but would have to be checked in the index to be sure of all of them. The rest of the box (i.e., the 13 folders and the loose documents) needs no further review.

Working Files, box 3 of 6: preliminary review
3/3/95

First fldr contains (1) a records retirement form titled HSCA (DDO correspondence), essentially a listing of JFK boxes 1-34 (the DO boxes); (2) a copy of the procedure to be used to microfilm boxes 1-34. Release both.

Second fldr ("Allen vs CIA"), includes memos re FOIA requests: statistical estimates regarding size of file, est cost of filming; listing of box/folder contents. Release

Third fldr (white), "HSCA Equities Material": two memos relating to a conflict between a court order and House instructions on release of HSCA material plus supporting documentation. Release.

Fourth fldr, "Ancillary Files - LHO, etc.", contains an inventory of the 13-box ancillary file; two FBI memos and one HSCA memo concerning the question of the Oswald's voice on a tape. Release.

Between the 4th & 5th folders: A document list, "Description of Document and Subject" in three parts. The list seems to concern "leads investigated by CIA": 1) originators of the subject, 2) disseminations made and 3) correspondence developed.

Fifth fldr, "Index to CIA info held in boxes 1-34", a handwritten list (by folder). Release.

Sixth fldr, "Warren Commission: Review by Rockefeller Commission", a collection of memos mostly re Oswald in Mexico; probably all dups of items in JFK file. Check index.

7th fldr, "Mexico City Chronology", obvious dup.

8th fldr, "Oswald in Mexico City, F82-0274", records of a 1982 Fensterwald FOIA request on Oswald in Mexico.

9th fldr, "Replies to Questions & Comments During Session with Richard Sprague, HSCA Chief Counsel, 1 Dec 1963" re Oswald in Mexico City. Check index for dups.

10th fldr, "CIA Letter to Belin-13 May 1975". Dup - JFK 7, F30.

11th fldr, "Belin Letter-15 April 1975". Dup - JFK60, F1; JFK36, F30; JFK35, F5.

12th fldr, "Repro of Exec. Reg File on Garrison...". Needs checking; probably all dups.

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

13th fldr, "Lee Harvey Oswald's Trip th Mexico City- Sept-Oct 1963". Oct 1978 memos to and from HSCA. Probably all dups.

Two loose documents: an untitled list of documents; a collection of memos re attempts to identify the unidentified man. Check for dups.

14th fldr, "Mexico City Station History". Probably all dups.

15th fldr (reddish-brown fldr), "J.Gary Shaw and Mark A. Allen". Five civil action summonses against CIA by Fensterwald Associates in US District Court for D.C. -- apparently not in JFK files.

16th fldr, "A Brief History of JFK Collection". In addition to the 4 page history there are several memos regarding Paul Hoch and Mark Lane FOIA requests.

17th fldr, "Documents (Cables, etc)". Copies of misc. cables re Oswald in Mexico City. Probably all dups.

18th fldr, "Finder's Aid to Documents Contained in 201-289248. Several versions; review for release.

19th fldr, not labled: a variety of papers in draft relating to the history of the Agency's actions and files developed on the assassination (roughly 140 pages). Review for release

20th fldr, "J. Walton Moore". Misc documents re Moore (DCS Dallas) and his relationship with de Mohrenschildt. Probably all dups.

21st fldr, "Syvia Odio". Several memos on identity of persons who visited home of Odio in Dallas--reponsive to an HSCA request. Not found in JFK index; review for release.

22nd fldr, not labeled. Contains a Russ Holmes authored historical summary of the HSCA done in relation to a Mark Allen request. Release.

23rd fldr (green), not labeled. Misc. memos and cables (15), no common theme. Review for dups or release.

24th fldr (green). not labeled. Misc memos in two broad groupings: several memos c.1992 about the Historical Review Program; a collection of mid-1970s memos re various problems with press reports on the Agency's responsiveness to W.C., HSCA and SSCI. Review for release.

Working Files, box 4 of 6: preliminary review
3/3/95

Box 4 contains a folder with an "inventory of documents contained in this box". The inventory lists 36 folders. The box contains 11 folders. The first folder in the box matches the first item on the inventory list. Nothing else matches - not even close. The true inventory of the 11 folders is as follows:

"Flights- Mexico City to Havana, 22 Nov 1963", two memos with attachments were checked against the JFK index. The undated memo had been released without the attachment; the dated memo had been DIFd but the attachment released. These two memos and attachments are probably originals.

"Historical Review Group: Concessions Made by DDO". Sanitize for release.

"Status of FOIA Requests". Review for release.

"Clay L. Shaw". Probably dups.

"Yuriy Ivanovich Nosenko". Probably dups. Show to Joe.

Unlabeled green folder. Oswald/Cuba/Castro memos. Probably all dups.

"Replies to Questions and Comments During Session with Richard A. Sprague...1 Dec 1976"(also in box, fldr 9); "Comments on Kesler's Article in the Post"; and a couple other memos. Check for dups.

"Comments on Kesler's Article", many additional memos, cables, etc. Probably all dups.

Unlabeled green folder contains 1992 news clippings.

"Kennedy Assassination (III)" - many more 1992 news clippings.

"Kennedy Assassination (II)" - many more 1991 & 1992 news clippings.

"Kennedy Assassination (I)" - more clippings 1976-1989 plus two classified memos (1963 & 1964).

"Senate Select Committee Draft of Book V, 1976. Reviewed by CIA". Draft comments from CIA components.

Working Files, Box 5 of 6: Preliminary Review
3/3/95

1 1st black notebook. A typed biography (100+ pages) of De Mohrenschildt with copies of FBI reports interspersed. Probably not previously released; needs coord).

2 2nd black notebook - no title. Hard to categorize. Contains typed copies of cables, dispatches & memos re Oswald -- both unredacted copies and copies redacted for FOIA release. Also contains various memos relating to CIA's relations with SSC(Church?), Downing Comm., W.C. Finally, a log starting with Oswald's defection to USSR in 1959 and highlighting key assassination-related events thru 1967.

3 "Sylvia Odio". Reproduced pages of Odio's testimony and related Odio exhibits from the W.C. Report. Unclassified & releasable.

4 Unlabeled folder. Misc. cables, despatches, memos relating to Helm's testimony and to QJWIN/ZRRIFLE. Almost surely all dups of documents previously processed.

5 "Soviet Defectors". Misc. documents re Oswald and KGB types in Mexico City. Probably all dups. (Folder label seems misnomer).

6 "Documents Officially Added to LHO's 201". Some of these may not be dups. There are at least two UK documents (do not release) and letters to UK embassy.

7 Unlabeled folder. Contains a 61 page list of documents released in FOIA requests (about 5 refs per page); provides justification for those denied in full or for deletions in sanitized releases. This list is not marked classified but would need careful review, esp, for any refs to liaison.

8 "Index to LHO". A long list of documents & FOIA numbers. Releasable.

9 Three loose memos re FOIA requests dated 1988, 89.

10 "Index to HSCA Material & 34 DO boxes" Contains:
 - a folder inventory of JFK boxes 1-34.
 - a name or subject inventory of the microfilm reels (one name may cover several folders).
 - a list of exhibits (HSCA)
 - a safe contents list: HSCA holdings (at CIA?).
 - loose documents; 2 copies of shelf list for JFK boxes 49-63 (OLC boxes) and one copy of the related records retirement request form.
