Subject: Reconstructed FBI File SV 66-1480, Section 2

To: The File

This memorandum briefly summarizes the status of missing original Federal Bureau of Investigation (FBI) case files or portions of case files in the President John F. Kennedy Assassination Records Collection (JFK Collection) and documents the National Archives and Records Administration’s (NARA) efforts to reconstruct these records, where possible, from duplicate copies of documents located in other FBI files.

As the JFK Collection was first compiled and reviewed in the 1990s, the Assassination Records Review Board and the FBI designated some records as “not believed relevant” (NBR) or “not assassination related” (NAR). The FBI retained custody of the NBR/NAR records and postponed their transfer to NARA until a later date. Every document or group of documents (“serials”), however, received an indexed Record Identification Form (RIF) and FBI inventory sheet for insertion into the JFK Collection.

In September 2011, several years prior to the 2017 re-review and transfer of the NBR/NAR material to the National Archives, a flood severely damaged thousands of feet of records at the FBI’s Alexandria Records Center in Alexandria, Virginia. In June 2012, NARA approved the FBI’s request for emergency destruction of 10,000 cubic feet of records that posed significant airborne health hazards. Among the damaged records were FBI field office files that contained postponed JFK Collection material designated as “pertaining to a matter unrelated to the JFK Assassination Investigation” or “not assassination related.”

This compilation represents NARA’s efforts to reconstruct the original file or portions of the file, as completely as possible, with duplicate copies of documents located in the FBI field office and headquarters files within the JFK Collection. Each reconstructed file or compilation contains a Record Identification Form, an explanatory cover memo, existing administrative documents available within the JFK Collection, and copies of identified duplicate documents. The table below summarizes the status of FBI file SV 66-1480, Section 2.
