Subject: Reconstructed FBI File SF 62-6887, Serials 1-51

To: The File

This memorandum briefly summarizes the status of missing original Federal Bureau of Investigation (FBI) case files or portions of case files in the President John F. Kennedy Assassination Records Collection (JFK Collection) and documents the National Archives and Records Administration's (NARA) efforts to reconstruct these records, where possible, from duplicate copies of documents located in other FBI files.

As the JFK Collection was first compiled and reviewed in the 1990s, the Assassination Records Review Board and the FBI designated some records as "not believed relevant" (NBR) or "not assassination related" (NAR). The FBI retained custody of the NBR/NAR records and postponed their transfer to NARA until a later date. Every document or group of documents ("serials"), however, received an indexed Record Identification Form (RIF) and FBI inventory sheet for insertion into the JFK Collection.

In September 2011, several years prior to the 2017 re-review and transfer of the NBR/NAR material to the National Archives, a flood severely damaged thousands of feet of records at the FBI's Alexandria Records Center in Alexandria, Virginia. In June 2012, NARA approved the FBI's request for emergency destruction of 10,000 cubic feet of records that posed significant airborne health hazards. Among the damaged records were FBI field office files that contained postponed JFK Collection material designated as "pertaining to a matter unrelated to the JFK Assassination Investigation" or "not assassination related."

This compilation represents NARA's efforts to reconstruct the original file or portions of the file, as completely as possible, with duplicate copies of documents located in the FBI field office and headquarters files within the JFK Collection. Each reconstructed file or compilation contains a Record Identification Form, an explanatory cover memo, existing administrative documents available within the JFK Collection, and copies of identified duplicate documents. The table below summarizes the status of FBI file SF 62-6887, Serials 1 through 51.

Dear Mr. Seidel:

Reference is made to your telephone call to me on May 16, 1975, in which you advised that the Committee was gathering facts concerning the FBI's various CoIntelPros and in particular, you were looking into the CoIntelPro having to do with the Black Panthers. You inquired if I recalled a letter, which had been made public, dated May 11, 1970, from the Director, FBI, to the SAC, San Francisco, which suggested disruptive techniques against the Black Panthers and which mentioned spurious police or FBI reports. I advised you I had no first hand recollection of having seen such a document at that time, but that I had read a recent news item describing such a document.

You also indicated an interest in the theoretical question as to whether intelligence functions should be divorced from enforcement functions in order to avoid the dilemma of disclosure versus dismissal, and you suggested that my views on this might be helpful in educating the Committee.

For your information, I entered on duty as a Special Agent on January 5, 1942, and retired from the Bureau on December 3, 1971. During the two years immediately preceding my retirement I served as supervisor of a squad of agents which investigated, among other matters, violations and alleged violations of law by the Black Panthers. The only information I have concerning the Black Panthers was learned as a direct result of my official duties. I have made no independent study of them, nor do I have any personal files or written material, either official or otherwise, relating to them.

Since speaking with you, I have reviewed Executive Order #501-73 (28 C.F.R. §§ 16.21, 16.22 and 16.23) which specifies that no employee or former employee of the Department of Justice shall produce any material contained in the files of the Department

Mr. Lester B. Seidel

nor shall he disclose any information acquired in the performance of his official duties without prior approval of the Attorney General or appropriate Departmental official.

From this, I must conclude that I am prohibited from furnishing you or the Committee any information along the lines requested by you unless appropriate authority to do so has first been given by an authorized representative of the Department of Justice.

Very truly yours,

DAVID E. TODD

Dear Mr. Jones:

As you are aware, I have been concerned for some time about the nature of the Bureau's involvement in local law enforcement affairs. This concern has been heightened by my appointment to the House Select Committee to Investigate the U. S. Intelligence Community. In this light, I am requesting answers to the following questions concerning FBI activity in Berkeley:

1. What is the size of the contingent of agents in the Berkeley field office?
2. What are the functional responsibilities in the field office, and what are the percentages of agents involved in each, i.e., political, drug abuse, criminal, etc.?
3. What are the titles of the agents, and how do these relate to their involvement in category two?
4. What is the ethnic and sexual breakdown of the staff and agents in the Berkeley field office?
5. What are the interactions and working relationships between the field office, the Berkeley Police Department, the University of California Police Department, private security agencies and informers? How many informers are utilized by the field office?
6. Recent disclosures have raised serious questions regarding the Bureau's involvement in political surveillance activities of organizations and individuals over the past several years. What actions has the local field office taken to correct the abuses of these actions, and what political surveillance is being undertaken?
