Interview:  By Investigators Day, Maxwell and Leap

Bowley advised that on the afternoon of November 22, 1963, the day President Kennedy was assassinated, he had picked up his 12 year old daughter from school and was driving to meet his wife. (his first wife not his present wife) at her place of employment. His wife worked at the telephone office located at 9th and Zang Avenue in Oak Cliff.

Bowley was driving his 1961 Tempest Station wagon, light tan in color. He was driving West on 10th Street from Marselia. As he approached the corner of 10th and Patton Street, he noticed a person lying on the ground in front of and near the left front wheel of a police car. He noticed other people in the neighborhood beginning to gather near the car and body.

Bowley stated that he and another man, who he described as a Mexican male, were the first ones to go to the assistance of the man on the ground. He also remembered seeing a white female wearing a white uniform and a nurse type name plate.

This woman, Bowley stated, was standing across the street from the man lying in the street.

Bowley pulled his car to the right side of the roadway, about 100 yards from where the man was lying and got out on the driver's side and went to the man on the ground. The man was lying on/right side with his face down. When Bowley reached him he rolled him over on his back. He could see that he was dead. He found no signs of life. Bowley stated that he saw no blood and did not know that the man had been shot at the time. Recognizing the man as being a police officer Bowley stated he found the officers revolver on the ground under him. The weapon was out of it's holster and near the officers right hand. Bowley picked the weapon up and placed it on the front seat of the scout car. The radio of the scout car was on and the Mexican man was attempting to use it to call for help. Bowley informed the man that he was familiar with two-way radio's and if he'd let him, he could get the call for help through. Using the police radio in the scout car, Bowley notified the police dispatcher that an officer had been shot and gave his location. After acknowledging the call the police dispatcher asked "will the citizen please clear the air." at that time he put the microphone down. Bowley remained on the scene until the police arrived. While awaiting the arrival of the police Bowley began to ask what had happened. He was told by someone on the scene that a man shot the officer
and had run West on 10th Street toward the Church. When
the police arrived on the scene Bowley gave a uniformed
officer his name and where he could be reached, and informed
him that he was leaving town and going on a vacation. The
officer told Bowley to contact police when he returned.
Bowley left the area driving West on Tenth Street and turned
right to 9th and Zang, where he picked up his wife and went
home. When Bowley returned from his vacation in San Antonio,
(he did not remember the date) he contacted the police and
later went to police headquarters and gave a statement to a
detective.

During this interview Bowley stated that he knew Jack Ruby
and had been associated with him since the 1950's. He had
worked for Ruby at Ruby's after hour club, "the Silver Spur."
Bowley advised that he first met Ruby when a club he was
running, the Hernando's Hide-away, ran into financial problems.
Ruby stepped in and took over the club. This club was on
Greenville Avenue in Dallas.

This was in 1951 or 1952. After this Bowley went to work
for Ruby. At one time he collected the cover money on the
door at Ruby's after hour club "the Silver Spur." Bowley
worked for Ruby off and on until about 1957 or 1958.
Temple Ford Bowley-Interview - 4 -

Bowley stated he first found out that Ruby had killed Oswald while he was at a hunting lodge in San Antonio, on vacation on Sunday November 24, 1963.

Present during this interview was Mrs. Joye M. Bowley (Temple Bowley's present wife). She volunteered that she had known Ruby and his Bookkeeper prior to marrying Bowley. She was not thoroughly interviewed at this time.
