Publication of Items Relating to Cuban Operations

194491

1. We met with Crayston Lynch, a retired Agency staff employee, on 7 January 1976 at his home in Tampa, Florida. Lynch had requested the meeting through contact with OGC. One item of interest to Lynch concerns a book he wishes to write on Cuban operations during the period 1961-67. Lynch currently is in the process of preparing one book (on the Bay of Pigs) for publication. Recently, however, he spoke with George Crile, who is writing a book on Watergate burglars Eugenio Martinez and Bernard Barker. Crile indicated he and co-author Taylor Branch plan to follow that book with one on the Agency's Cuban operations, and focus on Lynch and William Robertson, two major figures in the Bay of Pigs invasion. Since Martinez was deeply involved with Lynch as a ship captain during the Bay of Pigs and in subsequent operations against Cuba, he will be the primary source for the book.

2. Lynch believes the story Martinez will provide will be somewhat inaccurate because he only saw developments from the vantage point of a ship captain. Lynch (whose cohort Robertson is deceased) believes only he can provide an accurate recounting. The Martinez book is scheduled for printing in the summer of 1976. Lynch would like to beat Crile and Branch to the punch. Indeed, he believes they will not publish their book if they know he is going to publish one on the same subject. What Lynch wishes is an indication of general Agency reaction to any manuscript he might write on the period.

3. Lynch wishes to write about the operations of the ANLILAC group (Commandos Mombasa) during the period 1961-67, when Lynch conducted about 100 infiltration and exfiltration operations in Cuba. Any manuscript he drafts will, of course, be submitted to the Agency for review. He does not wish to get into the writing job, however, if there is a blanket prohibition on describing Agency operations which occurred in that period and place. He notes that Martinez, not fettered by Agency restrictions, will provide Crile and Branch with his recollections. Lynch believes he can cover the material in a way which will not hurt anyone or expose anything. He had no intentions of getting into the commando raid recounting business until he heard from Crile recently.

4. Since time is important on this matter, Lynch shall appreciate a fairly quick response on this question. He recognizes no final decision on his manuscript can be made until Agency officials review it. At the same time, however, it may not be too difficult to ascertain the presence or absence of a blanket restriction on writing about this area.

DIARY, 16 December 1975

1. John Greaney, OGC, called this date to advise that ex-CIA employee (now retired) Grayston Lynch told John over the telephone that he wants to consult with a CIA officer on some undefined problems concerning other ex-CIA employees. It seems that Lynch, who was involved in the Bay of Pigs operation and is an open protagonist of CIA, is writing a book. He is in contact with Greaney with respect to OGC's need to review the book before it is published.

2. Greaney, who believes that Lynch may be connected with Dave Phillips' Ex-CIA Employees Association, asked if we could have a DCD officer from the Miami Field Office visit Lynch in Tampa, where he is now living, and listen to his story. Greaney attached some importance and urgency to his request and indicated that it would be advantageous for the Agency to remain on good terms with Lynch.

3. I told him I would pass his request on to higher DCD authority and let him know what is decided. Lynch's address is: 8709 Bay Point Drive, Tampa, Florida, telephone: 813-884-8610.

NO. PAGES 1

SUBJECT Zulugio Cantillo/Claim of High Quality Uranium Deposits in Cuban Mine

REFERENCES

This report is believed to contain information of operational interest and may not be disclosed to personnel outside the Directorate of Operations without the prior permission of the Domestic Collection Division.

1. Zulugio Cantillo, [redacted] is a former Cuban general. In 1956, when he was the Chief of the Cuban Air Force under Cuban dictator Batista, Cantillo's uncle came to him with an ore sample the uncle had uncovered in an abandoned former Spanish mine in Cuba. The uncle suspected the ore was uranium. Cantillo brought the specimen to the US, where it was assayed by an unnamed US survey company as being the richest uranium sample the firm had ever tested. Cantillo and the uncle, who were the only individuals aware of the location of the mine, recognized archaic Cuban laws did not protect their find, so the general attempted to get Batista to change the mining statutes. Batista suspected the general had come across something significant, and he sent a team of men to the Pinar del Rio area for six months on a search. The team uncovered nothing. Batista also tried to work out a deal where he would be a partner in the venture as a pre-condition to changing the mining laws. He was unsuccessful in convincing Cantillo to permit him to become a partner. At that time, the revolution reached full intensity, and Batista left the country.
2. Cantillo's uncle is still in Cuba. Despite Cantillo's imprisonment by the Fidel Castro regime for nine years, he has never told anyone about his uncle's find. Approximately one year ago, Cantillo approached a retired Agency staff employee and informed him of the uncle's find. He did so after all these years because of the developing relations between the US and Cuba. Cantillo feels the US may be able to make use of information that Castro does not possess about the riches that exist in his own nation, and that Castro and the USSR would capitalize on the find if they were to become aware of it. In his view, the US should know of this potential before it conducts negotiations with Castro. The general is willing to provide the name of the assay company, so that documentation can be obtained on the purity of the uranium.
3. The general's US contact notes Cantillo is not the sort of man who speaks inaccurately about things such as this. He described Cantillo as a "solid guy", and says the information Cantillo has provided probably is reliable.
