Information on Seven Cuban Internal Resistance Groups

Information provided us by our internal assets and Cuban ex-filtrees indicate that seven groups opposing Castro are making efforts to consolidate into one unified resistance. A brief description of the groups follows:

a. Movimiento de Recuperacion Revolucionario (MRR): The primary strength of this group lies in the Havana area, the Santa Clara area, and certain areas of Pinar del Rio. Its militant membership numbers 175. Communication with this group is maintained through one W/T circuit and SW communications. The leader of this group, one OMAR, is presently in the United States and is about to return to Cuba. In his absence, ESTEBAN is the acting leader. Although in the past we provided this group with equipment, money, radio operators and trained specialists, we have recently only been able to get 1500 pounds of material into them. However, we are presently attempting to infiltrate two radio sets to this group and backstopping their procurement of operational funds locally through deposits made to donor accounts in the United States. This group gives the most promise for effective operations and has a potential for sabotage, propaganda and intelligence activity. Externally, the principal representatives are Rafael Aurelio QUINTERO (the OMAR) and Juan Manuel GUILLOT. The MRRL faction of the original MRR contains as external leaders Ricardo LORIE and Eino DIAZ.

b. Movimiento Revolucionario del Pueblo (MRP): The primary strength of this group lies in the Havana and Las Villas areas. Its militant membership is approximately 150. We no longer have W/T Communications, but must rely on couriers for communication with this group. The group is not yet reorganized internally to an extent sufficient to involve itself in operations of note. The group's representative has recently come to the United States, and the current internal leader is one ANTONIO. Manolo Ray was formerly the external representative of this group. Externally its principal representatives are Rogelio CISNEROS, Ignacio MENDOZA, and Marcos WILLIAMS. Ray and his former chief associates Col. Barquin, Pazos, Chibas are not closely associated with the present active elements of one MRP with whom we are in contact.

c. Unidad Revolucionaria (UR): This group is composed of some thirty small factions with the primary strength resident in the provinces of Oriente, Matanzas, Havana, and Pinar del Rio with the possibility of some few people remaining in the Escambray Mountains of Las Villas. We no longer have W/T communications with this group; the former radio operator was captured. In August of 1961, of its leaders, CESAR was reported to be captured and JUSTO took asylum and is presently in the United States. Present internal leadership is RICARDO. Communications with this internal group will have to be re-established via the use of a courier as soon as feasible. Externally

its principal representatives are Alberto FERNANDEZ Echavarría, Andres Zayss, and Cesar Brito.

d. Movimiento Democrático Cristiano (MDC): The primary strength of this group resides in the Oriente and Matanzas areas, although they have some representation in Havana and Pinar de Río provinces. This group employs sound security practices in its activity to a greater degree than any of the other opposition elements in Cuba. The former group leader Lucas FERNANDEZ Badue is presently in the United States; the current internal leader is Alberto del JUNCO MESA. Contact is maintained with this group via SW means. Although its activity has been limited, this element has the potential for the conduct of resistance, sabotage and intelligence activities. The MDC is a Catholic labor organization numbering approximately 100 members within Cuba. FERNANDEZ, their present external coordinator, is currently undergoing training. The former external leader of the MDC was Jose Ignacio RASCO.

e. 30th of November Group: This is a small labor group numbering approximately fifty. The organizer of this group, one DAVID SALVADOR, has been in prison in Havana for some time. The current internal leader is one BENITO. We have courier communications with this element which is believed to have a good potential for sabotage operations. Externally, the leadership of this group is in doubt

where three individuals are competing for control: JESUS FERNANDEZ, CARLOS RODRIGUEZ QUESADA, and ANDRES CARRILLO MENDOZA.

f. Rescate Democratico Revolucionario (RDR): One of the groups forming the Democratic Revolutionary Front (FRD) and the subsequent Cuban Revolutionary Council (CRC). They are believed to number twenty-five, and have a limited capability for paramilitary and propaganda activities. The only communications existent with this group is by means of courier. The true external representation of this group is somewhat confused since ALBERTO CRUZ, exfiltrated by the CNR to represent the element was replaced by MENDEZ PEREZ at the direction of ANTONIO VARONA of the FRD in Miami. VARONA is the titular head of the Rescate.

g. Directorio Revolucionario Estudiantel (DRE): This student group, which engages in hemispheric propaganda activity from Miami under Agency direction, also retains strength inside even though its former leaders have been captured and imprisoned. In view of the Latin student's traditional characteristic of resistance to state controls we expect that the DRE can revive quite a few assets for action inside. Its external leadership is presently Manuel SALVAT Roque.

Representatives of these groups say they have formed a National Revolutionary Council (CNR) in Cuba, and many of their representatives have insisted they owe no allegiance to any exile organizations.

apparently referring to their own external groups, or to The Cuban Revolutionary Council (CRC). This attempt to form an internal merger has created considerable confusion in the organizations involved. Our best estimates of the groups' strength is that they could muster 600 - 700 action agents throughout the island.

Movimiento Revolucionario del Pueblo - MRP

These people are lagging behind other groups. We don't have a qualified military type to deal with. We are dealing through \_\_\_\_\_.

Sabotage plan submitted by the FORD on the RAY's radio station sent up north already. Sent one man in MISC AMICE-10 for collection of the necessary information on the area. Plan still in effect.

Plan submitted by the DRE - Assault BOMATO prison. Only considered as possible within general plan of overall liberation but still under consideration.

Not implemented.

Plan for support of clandestine guerrilla forces in volume within the area submitted North. WAVE had no indication from up north re approval or not.

Plan which was set up for the defection of three naval units of Santiago de Cuba with main objective of continued action along coast before retreating to neutral port submitted to DRE have not considered it and have not sent up north. Considered it feasible in general terms, but can start over again in not in six weeks. Have to look into it more thoroughly.

All of these people we are planning general sabotage missions - attack electric power, communication, transportation and material delivery equipment wherever and whenever possible. All are being trained along these lines.

#### Maritime

Motor vessel XI YILARO next six weeks this vessel will begin with unit commercial training. After at least one cover voyage used operationally. Can be used with other vessels to supply long range craft. Very slow and we use cautiously. We don't have vessel capability for reaching south coast. TEJANA could do this within four weeks. Processing purchase of boat from other side. (Referring to Scotland).

#### WST Team

Team of four people presently capable of maritime recon and operations.

#### Communications

Presently have six people in training two people will become instructors and four operational operators. Will have three radios in three weeks, one in three months. ~~XXXXXXXXXXXXXXXXXXXX~~

For the future we have 13 candidates all of them have had some training. As others move out they will be moved in. Spotted 7 basic candidates primarily from these groups. With our present staff capable of training six people at one time observing compartmentation. With additional indigenous instructors 10 at any one time with observing compartmentation.

Proposal by [redacted], former AMCLATTER, wonderful man, experienced  
along Guineague coast. Good idea on establishment of mangrove cooking  
facility, similar to proposal of UR. They are good group so we're looking  
into use his know how.

20th of May Group - Have made request for support. Off-shoot of 20th of  
November Group. As a splinter of this group, being advised to rejoin their  
parent group. Exploring possibility of supporting them if they cannot rejoin  
parent. Their plans come to us through AMCLATTER-1.

MRRG - Requests are same as from other groups, and this is splinter of  
MRR. We have told them to rejoin parent and provide them general guidance.

who want  
Independent group of canoe trainers - 40 men and supplies and transportation  
to Oriente. No communications and willing to sacrifice themselves in GW.  
Given guidelines to forget about GW and get resistance plan. Their spokesman  
is Fred Grotte.

Independent Group of JUAN MESA - formerly of MOC. Generally collected about  
four independent boats which he operates as coordinator. Running rescue operations  
and wants support. For instance, wants support operation to exfiltrate eight  
children from west coast. Seeking support for an Oriente infiltration  
team headed by PEDRO LOPEZ and 13 men. Turned him down. ~~EXACT~~ Don't  
have capability to deliver.

Independent sub group headed by ALDO VERA SERAFIN wants training and support of formal sub group. Claims he will hit targets in Havana area. We have not even talked to him on basis of poor CI background. Spokesman is Conte Agüero.

Independent sub group of OSCAR DIAZ wants <sup>same</sup> previous group. Claim they can hit targets throughout Cuba. Also associated with Conte Agüero. WAVE experience with this man is such that we don't look kindly on this request. As member of FDR military he made things difficult.

Independent group - JULIAN DIAZ FERNANDEZ - Claims to have 300 constitutional army men inside. Radio out here. Willing to go back. WAVE exploring this. Will try to tie him to another group, but if unsuccessful and find his claims valid plan to support him.

ORLANDO SOUTO - proposes to harass a CTC rally in Cuasigüato Stadium in Miramar tonight by firing 75 mm high-explosive shells into stadium from off shore. Told him no dice.

In addition, the CRC plan at Headquarters hand carried by Bob Davis and given to Whodas should be included in report. We would like to have it back soon.

One other operation - AMRANTY-J - This man has 300 people in Pinar del Rio. He is being trained and should go back in December
