P R I O R I T Y

1. Under separate cover we are forwarding PASSAVOY Memoranda 87 through 93. These memos are being referred locally to the appropriate sections for action.

2. Memos 89 and 93 bring up to date local decisions made concerning matters which have been under discussion between PASSAVOY and AMBUD-1. Please advise whether the AMBUD-1 letter (paragraph 4 of memo 93) was ever published. If not, AMBUD-1 is ready to submit it to other newspapers.

3. In regard to memo no. 92 WAVE feels that the FORDC is working toward the unification of Cuban labor elements but is not yet in a position to set up permanent delegations in Latin America. Rather the FORDC should be encouraged to work together with labor entities in Latin America which are already established and recognized as truly democratically oriented and supported by KUBARK assets. With the AMEUD delegations and AMBARB organization throughout Latin America, FORDC through its close relationship with AMBUD can present its case to the Latin American public. FORDC members of tours throughout Latin America should be encouraged.
