

SECRET

14 August 1995

For: David Marwell
Executive Director
Assassination Records
Review Board

David,

1. This is provided to you as possible assistance in reviewing the sensitive document that we discussed on 11 August.

2. We understand the ARRB will consider the following:

When the crypt "LIENVOY" in the text reveals or implies a ~~joint teletap~~ operation with the Mexican government, "LI-crypt" can be substituted for "LIENVOY".

3. Paragraph 4 of the cable which the staff has numbered ARRB 40, which document the Board decided to be opened in full, contains the "LIENVOY" crypt in immediate juxtaposition with the crypts for the President of Mexico, the official Mexican internal service, a senior Mexican advisor to two presidents and the Mexican Minister of Government. The liaison link which is clearly implied justifies the Board-suggested substitute "LI-crypt" for "LIENVOY".

John F. Pereira
