Before leaving Cuba LOPEZ told the source that on ~~returning~~ arriving in the United States, he should try to make contact with either Earl Williamson or Frank Belsito as he, LOPEZ, had contact with both men in Cuba and had cooperated with them. LOPEZ told the source that he and the organization, the UR, needed plastic explosives and gerandos. He also said that the UR is collecting information which will be ready for transmittal on or about 20 March 62. 4. The source said that other methods to contact LOPEZ are as follows:

a. A Salvadoran diplomat, Jesus Valencia, is still living in Habana. 6. The source described LOPEZ as being 40-44 years of age, short, wears ~~glasses~~ glasses, no moustache, and has brown hair, combed back. He works in the port of Habana, filling out and obtaining necessary custom forms, but because of Cuban government custom regulations, obviating the necessity for such work, he will soon be unemployed.

He said that during the first part of February 62 the UR ambushed a G-2 car outside the Aranal theater in Habana, killing 2 G-2 men and losing one UR man.
