④ memo for the record 25 Nov 1963 by Birch P. O'Neal

A 9:10 A.M. Papish called and stated that he wanted to be sure we didn't have any additional information concerning Ruby. "I advised him that I had checked our records, including files, and on the basis of the information we had concerning Subject which had been provided by him (24 November) we have no information relating to him."

A 9:20 Papish called again and said after search at FBI "there was no indication that he has been out of the United States or that he is a member of any particular political or subversive group. He stated that there was some indication that he may have been in Cuba in 1959 while we still had an Embassy there, and there was some information that he allegedly visited a night club. Mr. Papish pointed out, however, that this would have been entirely consistent with his known activities in the night club business. He said that the possibility of his being in Cuba should be considered with a "big question mark."

"I reminded Papish that we had checked through the Immigration ~~and~~ Service on the tourist card record in the Mexican Immigration in Nuevo Laredo and that we had had a response that they were unable to develop any information concerning his departure on ~~26~~ 26 September and re-entry on 3 October.

I advised him that we had not received a response from a request to Customs Service with regard to such departure and entry. Mr. Parish stated that the Bureau was looking into this matter and would keep me informed. I indicated that I would not press the matter further with the Customs Service. He is to keep us informed."

p.3 - "Bethel said that "we," and when he said "we" he was not speaking for the Citizens Committee at that point because they had to be checked out carefully before "we" would issue it at all -- but "we" had been notified by people whose judgment "we" trust that Ruby had been in Cuba several times after the break in relations, and the only way that this man could get in there, of course, was clandestinely. He then asked who would be interested in getting him into Cuba clandestinely. Certainly not friends of ours. He added that this information was obtained from several sources

p.6 - Bethel stated in later interview by FBI that "Ruby trip to Cuba might have had gambling connections centered around the Hotel Capri, in Havana, Cuba, whose front man was supposed to be George Raft, the movie actor. His sources advised that Ruby had been in Cuba either two or three times, subsequent to the break in relations, in 1959 or 1960." One of two sources whom he
