PH 157-447

This letterhead memo is classified "Confidential" inasmuch as information furnished from PH T-1 could logically result in his identification and compromise the future effectiveness and usefulness thereof.

For the information of the Bureau, Philadelphia's file on the "Minutemen" has been reviewed and persons identified as having had previous contact with the "Minutemen" have been reinterviewed and all have disclaimed knowledge of any current "Minutemen" activities or chapters within Philadelphia Division territory. Likewise, all agents and resident agencies were requested by office memo to contact logical sources and informants and were requested to be alert for any information concerning the "Minutemen." All investigation to date has met with negative results and no chapters of the "Minutemen" or local members of the organization have been identified to date.

An allegation that WILLIAM T. CALEY, Wayne, Pa. (Philadelphia file 157-704), has a sizeable cache of firearms and ammunition in the basement of his home and is possibly a member of the "Minutemen" has been received and is currently under investigation by the Philadelphia Office. Philadelphia will promptly report the results of investigation concerning CALEY in form suitable for dissemination.

Inasmuch as no current "Minutemen" activities or cells are known to exist in Philadelphia, no report is being submitted in this matter at this time; however, upon the completion of interviews with GEORGE W. TALLENT, all pertinent information received will immediately be reported in form suitable for dissemination.

JAMES LEE BAUER, who received literature from the "Minutemen" while a student at Penn State University, State College, Pa., and who redistributed same in the State College area prior to his identification and interview by Bureau Agents on 3/28/62, was reinterviewed on 2/17/64 by SA THOMAS J. DOLAN. BAUER stated he severed all relations with the "Minutemen" at the time of his above-referenced interview and has had nothing to do with the organization since then. He noted that he has avoided all inflammatory news commentators, literature, and similar things that might re-excite his interest in the Right Wing since that time. BAUER is now

PH 157-447

residing at 405 Penn Street, Huntingdon, Pa., and is an employee of Owens-Corning Fiber Glass in Huntingdon. He noted that the alias of JOHN PARKER used by him when he was active with the "Minutemen" was chosen by him inasmuch as that was the name of one of the original Minutemen.

On January 22 and February 10, 1964, PH 632-C advised SAs PAUL W. NOLAN and MASON P. SMITH he had no information concerning "Minutemen" activities or persons known to be members of the "Minutemen" in the Philadelphia area.

Inasmuch as Philadelphia is considering the potential of TALLENT as an informant, all offices receiving copies of this communication are requested to immediately furnish Philadelphia any information concerning the background, reliability, weaknesses, or other matters of interest to Philadelphia and having a bearing on TALLENT's usefulness and capabilities of direction. It is noted that Philadelphia has had several contacts with TALLENT in the recent past and he has appeared sincere and level-headed and has furnished general information concerning the "Minutemen." He has denied knowledge of identities of any members or chapters of the organization within the Philadelphia area. Future extensive interviews are arranged with TALLENT at which the organizational setup, structure of cells, and identities of members known to TALLENT will be thoroughly discussed with him. These interviews will be conducted away from the Theological Seminary where he is currently employed as head of the kitchen and precautions will be taken to afford the utmost security, both as requested by TALLENT and as indicated by the nature of the investigation.

*Do we have anything?  
None*

On 2/18/64 TALLENT furnished SAs MASON P. SMITH and JOHN R. WINEBERG, in addition to the information referenced in enclosed letterhead memo, his personal copy of the "Minutemen" untitled manual of instructions. This consists of numerous sections, mimeographed in blue ink, concerning personal survival, various topics of Guerrilla Warfare, The Underground, First Aid; Chemical, Biological, and Radiological Defense; and Booby Traps, (complete with three pages of diagrams on instruction, placing, etc., of booby traps) bound in a flexible blue fiber binder by means of removable brass fasteners.

PH 157-447

TALLENT advised that the latest editions of this manual are now put out in a hard-bound book form. The manual is 8 1/2" x 11" in size and will be made available to the Bureau in the event the Bureau so requests and/or has not previously received copies of this manual. It is being retained in Philadelphia file 157-447.

Referenced Denver report sets out a lead for Philadelphia to interview JOHN BOYD also at Faith Theological Seminary, where TALLENT is employed. Philadelphia is holding lead to interview BOYD in abeyance in view of the possibility of developing TALLENT as an informant and interview of BOYD at this time might prejudice this development. In this regard it is further noted that TALLENT is worried about security and on 2/18/64 indicated he had been assigned a chauffeur, who was with him at the Seminary and who was TALLENT's biggest security worry. TALLENT explained that he on occasion blacks out and it is for this reason he was assigned a chauffeur. He did not indicate whether or not his chauffeur was assigned by the "Minutemen" or by the Seminary and whether or not his chauffeur was a member of the "Minutemen."

Referenced Denver report further reflects TALLENT has a reputation among his fellow associates in Denver of lying. In this regard, Denver is specifically requested to furnish Philadelphia all information bearing on TALLENT's reliability and veracity.

TALLENT has made reference to JOHN ROBERT HARRELL and the fact that he has been contacted by the FBI in the past concerning HARRELL and his possible whereabouts. He stated he will continue to endeavor to ascertain this information.

On 2/18/64 TALLENT stated that members of the "Minutemen" are never identified in correspondence or telephonically. He stated even though he holds a preferential position in the "Minutemen" and has spoken on various occasions before various groups, the only way he can ascertain the identities of members in the Philadelphia area is by word of mouth upon his return to Norborne, Mo., and in face-to-face conversations with ROBERT DE PUGH. TALLENT advised that all members in good standing who have been investigated and cleared are assigned a number. Any correspondence between members is signed with their number if it pertains to "Minutemen" activities. He

PH 157-447

noted the utmost security is utilized in all communications.

TALLENT stated when a person becomes a member he forms a cell and recruits as many as possible, up to eight or nine persons, to be members of his cell. No one else other than National Headquarters would be aware of the identities of the other men in this cell.

TALLENT indicated that a definite chain of command is established throughout the entire structure of the "Minutemen" and the organization is conducted in a very military fashion.

TALLENT stated he was originally in complete sympathy with the "Minutemen" but has determined that they are "too far out." He opined that, for example, a number of the groups are not qualified to be in possession of firearms. He further opined that other far Right splinter groups in some degree of accord with the "Minutemen" have personal axes to grind and/or personal aspirations of becoming National leaders.

The Bureau and all interested offices will be kept apprised of all pertinent information furnished by TALLENT and every endeavor will be made in future contacts to determine specifics concerning organization, identities of members, etc.
