NARRATIVE COMMENTS

FILE OF PFL 5177 65

State significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Analytically explain ratings in Section B to provide basis for determining future personnel action. Manner of performance of managerial or supervisory duties, if applicable.

In the period April to December 1964, Subject was the Chief of JMWAVE's Paramilitary Branch. In this capacity he was charged with the responsibility of mounting successful paramilitary operations into a denied area. Subject met his responsibilities in an exemplary manner and his Branch did mount successful operations into PBRUMEN in which intelligence was collected, resistance nuclei were established in the rural areas of PBRUMEN, and in- and exfiltration routes were developed whereby supplies and men could be moved in and out of PBRUMEN. In addition, his Branch maintained a UDT and a Commando unit in a high state of combat readiness. The UDT and Commando units were not used operationally in their specialties because of policy prohibitions against committing them against the PBRUMEN target; however, they were available to meet contingency situations. Subject's performance as a Branch Chief was characterized by drive, dedication, reliability, imagination, and the use of sound first-echelon management techniques. Subject is realistic and effective in delegating authority and responsibility to his subordinates. Subject has the ability to weld into a cohesive unit a diverse group of men who are Staff agents, Career Agents, Contract Employees, and military personnel on detail to KUBARK. This quality of leadership developed sound principles of team work in the PM Branch and made it easy for the Branch to coordinate its activities with the programs of the other Branches in a Station that has over [] employees and is engaged in

SECTION C - Narrative Comments (Continued)

FI, CI, PW, PM, Maritime, Air, and ~~operations~~ ^{operations}. Subject is cost-conscious and effective in the use of space and equipment.

In the period January to March 1965, Subject filled the role of Special Assistant to the Chief of Station JMWAVE and, as such, was the operational supervisor for the establishment of a frame of reference in which a counter-insurgency program could be developed and implemented. In this phase of his activities, Subject's work had the hallmark of sound professionalism and reflected favorably on Subject's judgment, Spanish language fluency, area knowledge, and dedication to duty.

The totality of the information outlined above leads the Rating Officer to conclude that Subject's over-all performance warrants an evaluation of Strong.

Subject is a flexible, broad-gauged officer who has experience in depth in FI, CI, PW, PM and Maritime operations. In addition, he has a proven record of sustained performance whereby he has established that he can be counted on to do the job in less than allowable time limits. In view of these factors, it is believed that Subject is a valuable asset to his career service and, as such, can meet the long-term needs of his service in Latin America or other Spanish-speaking areas.

Continuation Sheet/FITNESS REPORT - Section C:

Subject is a dedicated officer who has proven by performance that he can be counted on to get the job done in less than allowable time limits. Subject is a sound first-echelon supervisor of a group doing a basic paramilitary job. Subject has the ability to develop a sense of teamwork in a diverse group of employees. It is believed that this leadership trait is particularly significant in that Subject has judiciously blended the talents of staff agents, career agents, contract employees, Army officers and Navy personnel into a cohesive, effective group which has been able to mount successful resistance, ratlino, cache, UDT, and commando operations against an insular denied area target. Subject is cost conscious and effective in the use of space, equipment, and funds. Subject has been able to keep his agent assets in a high state of combat readiness despite shifts in policy which have placed the UDT, sabotage and commando raider operations in a high state of flux. This ability to manage agent assets under conditions of severe frustration is a tribute to Subject's area knowledge and an understanding of the psychology and mores of his agent material. Subject delegates authority and has control over the paper flow in his Branch. Subject has a fine appreciation for positive intelligence collection techniques and he has been able to relate those techniques to his PM operations so that an intelligence product of quality has been developed on the rural areas of the target country. As a result of the totality of Subject's performance during the period covered by this report, his over-all performance warrants an evaluation of Strong.

Subject has Spanish language fluency, operational experience, area knowledge and drive. Armed with these tools, Subject is capable of meeting the long-term needs of his career service in Spanish-speaking operational areas where there is a need for first-echelon supervisors. Subject is at his best in agent handling situations and in view of this in the future, it is believed that he should be used in Latin America [redacted] to run and/or manage appropriate FI, CI, or PM projects.

At the completion of his current assignment, Subject should attend an advanced management course.

SECTION C NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Subject is a hard working, dedicated officer who has an unusual amount of drive. Subject is a distinct asset to the Station. In the period covered by this Fitness Report, Subject has worked in a persevering manner toward the goal of making the Station's PM operations responsive to the realities of a target area which moved in twelve months ~~time~~ from a soft free world operational climate to a classical hard Soviet Bloc denied area climate. Subject has had to accomplish his PM mission under the adverse circumstances of having to do a current job in response to strong pressures for immediate production while simultaneously cleaning up an operational backlog which was inherited from predecessor projects. Additionally Subject had to project his PM plans into the future against a predictable operational climate in which only the most rigid application of sound PM techniques would enable the Station to continue operations against the target with either PM infiltration teams or commando raider units. Subject accomplished these multiple tasks despite the reluctance of the agent material from the target area to accept the rigid discipline and dedication which was required.

Subject was able to accomplish his PM mission by the use of sound operational concepts and principles, the delegation of authority, and the proper use of management techniques. Subject has an appreciation for intelligence and has harnessed his PM assets to provide valuable bread and butter type coverage on the rural areas of the target.

Fitness Report - Section C - NARRATIVE COMMENTS (Continued)

Subject is at his best in agent handling situations. He uses his Spanish language fluency, experience, and area knowledge to the maximum extent possible in order to develop assets for KUBARK operational exploitation. On balance, therefore, it is believed that Subject's overall performance over the period covered by this Fitness Report warrants an evaluation of "Strong".

At the completion of his current assignment Subject might benefit from participation in an advanced management course.

In the future Subject should be used in positions in Latin America. Subject is a natural for this type of an assignment due to his drive, self discipline, experience, language fluency, and skin color.

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Although designated as Chief of Operations, WAVE, during the entire period that Mr. [redacted] has been under my supervision he has been occupied with a highly sensitive special operation controlled by Hqs, and has not been able to execute his normal duties. I have been able to closely observe his work, and can more than attest to tremendous drive and energy and this all-around professional capability, attested to in previous fitness reports. Mr. [redacted] is a truly exceptional operations officer and is best utilized in that role, rather than in an administrative or supervisory capacity, although his own administrative responsibilities are always well handled. Perhaps his greatest contribution to the Station during the reporting period has been his vast background and knowledge of the complex PBRUMEN picture which he cheerfully and unstintingly makes available to all Station officers, many of whom are without previous WHD experience.

Subject is the finest all-around ops officer I have ever known. Primarily he is a man of action who knows what has to be done, and goes about doing it. He is a tireless, dedicated worker who puts duty before any personal considerations. He has imagination coupled with good common sense and sound operational judgment. He is steady and cool during emergency situations. He has worked under constant strain and pressure over periods of several months without cracking or losing his sense of humor. He has strong leadership qualities, inspires confidence and loyalty in those he works for and with. He is especially effective in getting the most out of indigenous agents. He has exhibited great personal courage. He was respected by the [redacted] and representatives of other agencies with whom he was in contact. He speaks Spanish fluently and is thoroughly conversant with Latin psychology. His operational and intelligence reporting, though not always polished products, are complete and lucid. He has a great capacity for work. He has the potential for assuming greater responsibility and for advancement in the Agency.

During the period under review Subject was in charge of PM activities at the Havana Station, and his performance of duties during this critical, tense period was outstanding.

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Speaking operationally, Mr. Morales is a one-man gang. His work is of the highest order, quantitatively and qualitatively. The JMWAVE operation being what it is, all officers should be versatile. This Mr. Morales is. His titles -- first, Chief, CI, and more recently Chief of the combined CI-FI Section -- do not even suggest the breadth of his activities. They take in denied area intelligence collection operations, the organization, training and management of a counter-intelligence apparatus and allied groups totalling over [] people, sabotage and resistance ops, maritime ops, political action, propaganda and a great number of miscellaneous activities that defy classification, e.g., taking over and running a fast-moving PM recruitment program without loss of tempo when politics caused the breakdown of the normal recruitment machinery, setting up a Red Cross type service for queries from the trainees in camp.

For sustained effort, Mr. Morales has few peers. With his drive, imagination and good judgment he sets a fine example for the people who work with him, whether they find themselves under, alongside or above him in the organizational hierarchy.

MEMORANDUM FOR: Secretary, Agent Panel

SUBJECT : ██████████ - Promotion

Morales, Frank S.

1. ██████████ has been in the vortex of Cuban field operations for the past four and one-half years and has developed into a senior operations officer with outstanding abilities, experience and professional stature.
2. During the past two major operational efforts against Cuba he has proven himself to be a superior agent handler with ready access to members of the exile community and ability to start and run operations which produced valuable intelligence. His background knowledge of the area has been invaluable to the JMWAVE Station operators and his tireless efforts and willingness to devote long hours to his work have set an example which others have been compelled to follow.
3. Regardless of ██████████'s time in grade he is of that senior officer caliber fully deserving of and ready to assume the responsibilities of the next higher grade. ██████████ has displayed outstanding performance in FI, CI and PM operations and has the potential to fill a wide variety of senior operational assignments.
4. In view of the foregoing I strongly recommend the promotion of ██████████ from GS-14 to GS-15. I have discussed this action with the Chief of Station, JMWAVE, and he endorses my view that ██████████ fully merits advancement to the next higher grade at this time.

1. For the information of Headquarters and for [redacted] personnel file, WAVE wishes to express commendation of [redacted]'s contribution to the JMATE project. Beginning with his arrival in the WAVE area in October 1960, [redacted] initiated an operational program directed to the establishment of a Cuban intelligence service, both for positive collection of intelligence and to establish protective security on JMATE operations. In a remarkably short time, [redacted] was able to recruit, train, and organize such a service which has effectively responded to intelligence and counter intelligence operational tasks, and has shown willingness and ability to ably perform a number of support functions for other types of substantive operations, principally paramilitary. In addition, the Cuban service which [redacted] organized is likely to be the nucleus of a post-Castro Cuban Government service which will serve KUBARK ends, not only on the basis of liaison, but by means of penetrations of this service already established.
