ADMINISTRATIVE:

NO 1457-C-TE advised on September 4, 1967, that CARLOS MARCELLO had indicated to the source that he had been in touch with several individuals who had appeared in the recent "Life" magazine article. From speaking with these individuals, MARCELLO is convinced that the whole "Life" article was based on information obtained from "bugs". MARCELLO determined from the unknown individuals with whom he spoke that they are just going to sit still for this situation. MARCELLO advised that he is not going to sit still for it as he feels he is politically too strong in Louisiana.

Informant believed that MARCELLO has probably been in touch with some of his political associates and advised them of his belief relative to the source of the "Life" magazine article.

NO 92-36/lrs

NO 1457-C-TE, on September 14, 1967, advised that CARLOS MARCELLO is highly enraged at his attorneys for allowing a change of venue motion to be granted in Federal District Court, Eastern District of Louisiana, on September 13, 1967. MARCELLO and his attorneys never thought such a motion would be granted and this motion was merely for harassment purposes.

Informant stated that during the evening of September 13, 1967, MARCELLO roundly cursed his attorneys and during the evening of September 13, 1967, he also telephonically contacted several unknown political figures. These contacts were for the sole purpose of attempting to determine how he could have the change of venue motion decision rescinded. Informant stated that MARCELLO firmly believed that he can beat any case in the State of Louisiana; however, he is in real trouble if tried outside the State of Louisiana.

Informant stated that during the evening of September 12, 1967, he determined that CARLOS MARCELLO had two electronic devices which he contemplated introducing into evidence in Federal District Court on September 13, 1967. MARCELLO had an electronics expert waiting to testify relative to these devices. MARCELLO contemplated claiming that one device came off a telephone pole at his Churchill Farms Estate and the other came from his home at 3908 Clifford Drive, Metairie, Louisiana. MARCELLO intended, through his attorneys, to allege that these devices were United States Government devices.

On September 22, 1967, the Houston Division furnished the duplicate sheets of the Gulf Oil Company Credit Card issued to MARCELLO for the previous six-month billing period. No information of value was contained in these bills.

It is noted that MARCELLO has received extensive regional coverage due to a recent series in "Life Magazine".

The period of this report overlaps the period of the previous report due to investigative results not reaching case file in time for inclusion in last report.

New "T" symbols assigned to instant report for clarity and to protect producing informants.
