FROM: SAC, PITTSBURGH (92-246)  
SUBJECT: TOP HOODLUM PROGRAM  
WEEKLY SUMMARY  
AR

Re summary report of SA RICHARD GORDON DOUCE, 9/14/59, Pittsburgh, advising Pittsburgh National Top Hoodlum SAM MANNARINO was suffering from a cancerous condition in his lower abdomen and was expected to die within the next year.

An informant, who is very familiar with the status of MANNARINO's health, recently advised that MANNARINO is experiencing great difficulty in swallowing his food and is practically on a liquid diet at present. Informant offered the professional opinion that the situation described above is indicative of cancer in its last stages and that MANNARINO will probably die sometime this Spring.

This situation is being followed closely with the informant and further information will be reported.

No new cases opened or referred to other agencies.
