COMMENTS : INC MEMO

SAC, Philadelphia (92-444 Sub D)

12/28/64

REC-139
Director, FBI (92-2717) - 1402

JUNE

ANGELO BRUNO, aka
AR

Reurlet 12-17-64.

Provided full security assured, authority granted to survey and, if feasible, re-establish misur coverage in the subject's office, 775 South 8th Street, Philadelphia. You are not authorized, however, to utilize either the 42A or 44A block type misur. Promptly advise Bureau when source activated and symbol number assigned. This authority is for a 30-day period from date source activated.

Furnish the Bureau a weekly airtel summary of significant information obtained from this source. In the event an installation is effected, submit an appropriate FD-142.

You are also authorized, provided full security assured, to retrieve equipment previously used in misur coverage in the building at 775 South 8th Street.

NOTE: Angelo Bruno is the leader of La Cosa Nostra in Philadelphia and a member of the "Commission." PHO previously had a most productive misur in Bruno's office at the above location. Source was discontinued prior to the time Bruno was on trial. PHO reports due to technical difficulties they were unable to reactivate previous coverage at this location and entry into the building by the PHO revealed the offices had been renovated and that Bruno now had his office in the rear of the building. PHO requests authority to install misur coverage in Bruno's office. In view of the proven capability of previous coverage in his office to provide significant criminal intelligence information, it is recommended that the request of the PHO be approved.

PH 92-444 Sub D

It is noted that PH 623-C* was operating in the first floor front offices at 775 South 8th Street, utilizing two altered 44A blocks. On 12/16/64 it was ascertained that during period this source was inoperative there had been a change of telephone service at this address. A telephone utilized by the son of ANGELO BRUNO in the first floor rear office had been moved to the front office. An additional telephone had been installed in the front office using automatic equipment where both phone numbers could be answered on the same instrument. In the process of this change one 44A block was determined to be missing. A second 44A block was determined to be in place in what had previously been ANGELO BRUNO's private office in the front portion of the building. This 44A block, however, was inoperative due to the fact that the wiring had been rearranged.

There were found to be two pairs of wires on #7 and #8 on this altered 44A block. Time did not permit the removal of this altered 44A block. This will have to be done at the earliest possible opportunity.

While in the building a survey was made to determine if it was feasible to obtain technical coverage in the rear room of this address, noting that coverage was previously obtained in this location. It was further noted that the wires previously used for coverage in the rear office had been utilized in transferring the telephone service from the rear office up to the front of the building by the Telephone Company when making the above-described telephone changes.

Considering that ANGELO BRUNO is making repairs to this rear office and is apparently contemplating using this rear office, coverage at this location would be of the utmost importance. The continuation of coverage in the front office has lost its importance inasmuch as it is known now that ANGELO BRUNO's son utilizes the front office in the operation of his business, the Globe Sanitation Company.

Accordingly, Phila. will continue efforts to remove the altered 44A block in the front offices of 775 South 8th Street. Inasmuch as entry to this address is necessary to retrieve this property, it is requested that Bureau authority be granted to make this entry at the opportune time commensurate with full security.
