Your relet enclosed one pamphlet in Spanish entitled "Principios Fundamentales de la estrategia y tactica de la Guerra de Gurillas" and copies of a manuscript in Spanish entitled "Operaciones contra helicopteros." (S)

Bulet 1/14/66 advised above enclosures had been made available to Assistant Chief of Staff for Intelligence (ACSI) and that the latter greatly appreciated being furnished the data and welcomed the opportunity to analyze such data.

In view of the request set forth in the enclosed letter, Legat determine if your original source interposes any objection to an English-language translation of the documents listed above being made available to a general officer of the military service of another government which is currently concerned with guerrilla activity. For your information the subject's identity, the country where the document was originally secured, and the identity of your source will not be available to any Thai representative, if your source interposes no objections to the further dissemination of this data. NOTE: Classified "Confidential" since letter contains information so classified by Army.

When subject, a Venezuelan communist, was arrested by Swiss authorities for communist activity, he had in his possession the two documents listed. Translation by the Army indicated they are detailed studies concerning communist insurgency in Vietnam. ACSI reported a senior Army staff officer recently received a personal request from a Thai general officer for available information on insurgency operations in Southeast Asia. The documents made available through Legat, Bern's, source contain much information of this type including diagrams and Army requested permission to disseminate a copy of the translation in response to the request of the Thai general. (S)

Legat's source is Ernest Buhlmann, Swiss Federal Police (S)
