audiences both in the U.S. and abroad in an attempt to convince his audiences that Oswald was, if not innocent of the Kennedy murder, at least a part of a conspiracy. He alleged that the Bureau and other Government agencies conspired to cover up the true facts concerning the assassination. More recently, he has associated with Huey Newton of the BPP and various leaders of the New Left. Within the last year he has been closely associated with Jane Fonda and has, along with her, been a leading antiwar activist. [The most recent information received concerning him indicated that he was in Paris, France, in 3/71, where he made a number of contacts with Vietnamese, revolutionary organizations, and individuals of the Far Left including Alan Krivine, leader of the Communist League and with a member of the Fourth International European Trotskyists organization.] He travels widely and his residence has been unknown for sometime. In order to establish a logical office of origin in this case and to thereafter consider him for inclusion on the SI, it is desirable that his permanent residence be established.
