OBSTRUCTION OF JUSTICE

Re Seattle airtel to the Director, 1/5/77.

For information, during the early morning hours of January 17, 1977, former SE 2434-PC attempted to commit suicide by taking a combination of drugs and alcohol. According to the physician in charge of the emergency room where the source was taken, there is a 90 percent chance that the source will die and if he does not die, it is probable that he will have brain damage and will exist as a vegetable. The suicide note left by the source indicated that he was in fear of his nieces and nephews being harmed by the information that he had and thus he felt it would be better to do himself in than to have his relatives harmed. The existence of a suicide note is not common knowledge at this point.

The above is for information purposes inasmuch as extensive news media inquiries are being received due to the notariety of the source.
