During the week of 2/5/79, Chicago "BURGMURS" case Agent, Miami "ROSKIL" case Agent and Bureau Supervisor POMERANTZ reviewed "GANGMURS" files at Headquarters in an effort to evaluate the data obtained from the "GANGMURS" program. Approximately 52 murder files were reviewed at Headquarters, bearing in mind that the primary intent of the "GANGMURS" investigation was to determine whether an organized group of assassins exists in the United States conducting "hits" at the request of the LCN hierarchy.

The following three conclusions were drawn from the available evidence:

1. The majority of "GANGMURS" victims were hits conducted independently of each other.
2. Although .22 caliber weapons appear to be the weapon of choice in numerous gangland murders, there is no evidence to indicate that one or two "hitters" travel across the country for the LCN specializing in .22 caliber weapon murders.
