stated that the new law would prevent any further importation of this material and will also prevent the installation of slot machines in the gambling casino that BANTO TRAFFICANTE had hoped to open in the Hotel Plaza. LANSKY noted that the specific reference in the decree to the shipment back to the United States of slot machines located in the Customs warehouses in Havana would have a direct effect upon the Hotel Plaza as it was their slot machines "which are presently tied up in Cuban Customs."

2. The decrees increasing the value that a hotel must have before it may apply for a gambling license is also aimed at the Hotel Plaza and, according to JACK LANSKY, is a direct result of action taken by Cuban Congressman AMLETTO BATTISTI who owns the gambling concession in the Hotel Sevilla Biltmore. LANSKY noted that because of the close proximity of the Hotel Plaza to the Hotel Biltmore, BATTISTI has been concerned that competition from the Hotel Plaza would definitely affect the casino operation in the Hotel Sevilla Biltmore.

JACK LANSKY was of the opinion that the two Government regulations would make practically impossible the opening of the gambling casino in the Hotel Plaza by TRAFFICANTE.
