ACTION REQUIRED - REFERENCES

REF: HMA 22225, 1 October 1963

1. Headquarters appreciates the Station's concern over becoming involved in an exchange of information with SMATTEK on the local level as outlined in HMA 22225. The Station should follow the guide set forth in back dispatches No. 3591 of January 1963 and No. 3740 of April 1963, which authorize the Station to pass, preferably orally, the gist of really priority timely information believed to be of value to SMOZH. This includes such information as that described in Paragraph 2 below. With the exception of LITTEK reports, routine reporting would not be passed orally or in writing to SMATTEK. Any information passed either orally or in writing should, according to the cited back dispatches, be indicated on the subdata sheets of the intel reports and should be listed on Form No. 1522.

2. Any reports on Guatemala and any information affecting the safety and sovereignty of British Honduras should be cabled to London and Washington indicating those portions which may be passed to SMOZH.

3. SMATTEK is planning to be at Headquarters in December 1963 for a day or two and the particular questions raised in referenced dispatch will be discussed with him at that time. The Station will be informed of the results of these discussions.

4. In the meantime, since the general agreement between KURANE and SMOZH is that KURANE will provide SMOZH with information on Western Hemisphere matters, steps will be taken to increase the flow of intelligence reports to SMOZH. For the Station's information, practically no reports emanating from Mexico from sources other than LITTEK, have been considered of sufficient value for passage to SMOZH, but this matter is not under review.
