3. This dispatch sets forth the Station's operational interest in Subject, an analysis of his present status, and plans for further development of Subject for the purpose of eventual recruitment in place. Subject, in the Station's opinion, represents the most likely recruitment target in the NYKIS lists at the present time.

Nature of interest

1. Mexico City Station considers it definitely established that Subject is a British intelligence officer (MSW). Subject has been in contact with Cesar GONZALEZ Sanchez (201-266065) who has been identified by BEPLACE and BEVISION as being a MSW agent. The Station tends to discount BEVISION's identification of SPYRA as being a MSW officer partly because of the tie-up between SPYRA and a known MSW agent and partly because as Handwritten pointed out in HMMW 10097 dated 12 Sep 1961, BEVISION did not see or take note of his identification of SPYRA's photograph.

2. The Station is quite sure of SPYRA's intelligence status and, because he is an intelligence officer, is particularly interested in him as an operational target.
