Dear Dr. Gunn:

Re: Request for Additional Information and Records
No. CIA-16 (Oswald Pre-Assassination Files) and
No. CIA-IR-24 (Defector File)

This is a partial response to the ARRB's referent request for pre-assassination files this Agency may have had on Lee Harvey Oswald. It is believed the following comments and two enclosed documents fully respond to the Office of Security questions. The DO response is pending.

1. At Tab A is a 22 December 1997 memorandum containing information from the Agency's Office of Personnel Security which provides details about the files it had on Oswald prior to the assassination plus when and why they were created. These include the Office of Security file on Oswald, a general file on Americans who had defected to another country and information about HTLINGUAL files.

2. Also enclosed at Tab B is a 27 October 1977 memorandum from the Office of Personal Security which explains the numbering of that Office's file on Oswald. In particular, it explains why the "missing" volume V may never have existed.

3. An ARRB staff member has reviewed the Oswald Security file and the file on American defectors.

4. The Oswald Office of Personnel Security file and those pages of the defector file deemed relevant by the ARRB staff member have been forwarded to HRG for review and will be processed according to current release guidelines.

If you have any questions about this response, please advise.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Barry Harrelson", with a long horizontal line extending to the right.
