MEMORANDUM FOR THE DIRECTOR, HISTORICAL REVIEW GROUP,  
CENTER FOR THE STUDY OF INTELLIGENCE, CENTRAL  
INTELLIGENCE AGENCY

SUBJECT: JFK Assassination Records

1. Thank you for your correspondence of 12 July 1993 in which you referred a memorandum to us under the provisions of Public Law 102-526, The JFK Records Collection Act. We have determined that the legislative counsel memo of 27 September 1978 does not contain any information which would be classified by the National Security Agency (see Tab A). We recommend that it be released.

*RELEASE in FILE*

2. We also have a document from our holdings that we believe is responsive to P.L. 102-526. The attached, draft statement was to have been made by the Director of Central Intelligence, Robert Gates (see Tab B). Please review the statement for your equities and advise us as to whether or not there is any information which should be withheld. We have reviewed it and have no objection to its release because it contains no classified NSA information. We request a reply by 24 August 1993.

3. If you have any questions regarding this matter, please contact my office representative, Renee Frank, on (301) 688-6798.

TO: DCI DDCI

SUBJECT: Inadvertent Release of Classified Data  
Responsive to JFK Assassination Records  
Act (FOUO)

(S-CCO) I have been informed of the inadvertent disclosure of classified information on 19 August related to the public release of NSA documents responsive to the JFK Assassination Records Act. This disclosure occurred when the JFK Assassination Records Review Board (AARB) Staff released to the National Archives for public access redacted copies of NSA records with coversheets containing classified information still attached. Fifty-three of the 87 documents released to the public contained classified data, primarily titles of reports, revealing targeting of specific countries' diplomatic and military communications in 1963. This information was accessed by both representatives of the media and researchers. Upon recognition of the mistake, the ARRB Staff immediately replaced the classified coversheets with unclassified versions.

(FOUO) The media coverage of this release focused primarily on the contents of the messages and not the sources of the information which were revealed on the coversheets. An interview on NPR with a writer for the Washington Post concerning the release did focus, in

(1B NSA) part, on the extraordinary capability NSA had to "eavesdrop" on and collect information from foreign diplomats around the world in the pre-computer age.

(FOUO) Although it is still too early to determine what impact this release will have on NSA's sources and methods, State Department and our Second Parties have been notified of this inadvertent release and an investigation of the process which led to the release is being conducted by NSA's Office of Security.
