logical that the number of requests will increase as the operation proceeds. There is a need for clearly defining the limits of arming guerrillas (for self-defense, for training, for purposes short of open actions in revolt), to permit operational judgment to be used by designated operations officers, in Phase I.

3. Use of U.S. military personnel and equipment. CIA has requested Defense assistance in air and sea capabilities, including supplying equipment and supplying U.S. military crews to operate the equipment. Included in these requests are 2 LSD's (or similar ships) to lie off the coast in support of CIA maritime operations, with U.S. Navy crews of 200-300 depending upon the missions, 3 USAF cargo aircraft with "sheep-dipped" USAF crews for air re-supply, 2 amphibious aircraft with "sheep-dipped" USAF crews, and 2 submarines for black broadcast operations. (This is in addition to CIA requests for 6 PT type boats, 3 Helio aircraft, 2 82-foot Coast Guard cutters, and arms, communications equipment, etc.) Again, where U.S. military personnel and equipment are involved in Phase I, there is need for a policy determination which will permit operational judgment to be used by designated operations officers, as well as a need for rules of engagement.
