ReAirtel and LHM to Bureau 11/7/73, under first caption above.

Referenced LHM reported informant information that among important developments at the recent Republic of New Africa (RNA) sponsored Peoples' Center Council (PCC) held at Chicago, Illinois, 10/26-28/73, was the pronouncement that the Blackstone Rangers and RNA are working on an alliance which would enable the Blackstone Rangers to send any of their members who become fugitives from justice to the RNA's "land" to avoid apprehension. Bureau notes that the Blackstone Rangers are part of a violence-prone criminally-oriented black Chicago youth gang, which is part of a gang conglomerate called the Black P-Stone Nation (BPSN).

Among attendees at the PCC was Sylvester Reese, aka "Moon," Spiritual Minister and member of the "Main 21" which is the governing body of the BPSN.

Re: Republic of New Africa

Black P-Stone Nation

Chicago should promptly contact logical sources in an effort to ascertain any RNA influence on the Blackstone Rangers and/or the BPSN. Resolve if any mutual support agreements or alliances have been established between the RNA and these two groups. Also determine if any medium actually exists for the RNA to assist fugitives who are Blackstone Ranger members in avoiding apprehension. Any pertinent information developed should be promptly forwarded to the Bureau in a form suitable for dissemination, along with recommendation for any additional investigation to be conducted.

Chicago has previously advised that Reese joined the RNA to lend physical support to Clarence Harvey, who, until recently, has been the Consul of the Chicago chapter of the RNA. Since Harvey has quit the RNA, Chicago should also fully resolve Reese's status with the RNA and possible motives of his continued RNA association.

Extra copy being forwarded to Chicago for Chicago file 157-8984, regarding Sylvester Reese.

Information copy forwarded to Detroit as office of origin regarding the RNA.

NOTE:

Reese and Harvey are Chicago ADEX subjects due to their past activity with the RNA. No positive information has been developed that the RNA actually possesses any land yet. The "Main 21" is a group of 21 black youths who govern the BPSN. Membership in the "Main 21" periodically changes.
