The below recorded interview and information contained therein was provided by an individual who made himself available to investigators for the Office of the Independent Counsel on the condition that his identity remain confidential. His name and other information that would identify him have been removed.

was interviewed at length and provided specific details related to his discovering the body of Vincent Foster at Fort Marcy Park on July 20, 1993 (results set forth in separate FD-302). In responding to why he did not come forward at the time, also provided the following additional information:

He stated that in early August, 1993, after there had been considerable news coverage in the media concerning the unknown driver of the white van, he contacted a woman friend of his whom he described as an attorney who works at the Department of Justice. He informed her that he was the person who had discovered the body of Vince Foster and asked her if he were breaking any laws by not coming forward. She informed him that she would look into the matter and call him back. She called him back the next day, advising him that he was not violating any laws by not coming forward. As best he recalls, he asked her what she felt he should do. She advised him to "stay quiet because there's nothing you can do to change things now."

adamantly refused to provide the identity of this woman, stating that she was a very good friend and he did not want to get her involved or to cause her any problem.

Mr. Kermit Dale Kyle voluntarily accompanied SAs William E. Colombell and Lawrence J. Monroe to Fort Marcy Park, Fairfax County, Virginia as a follow-up to the interview conducted by SAs Colombell and Monroe with Mr. Kyle on April 14, 1994 [REDACTED]

In the presence of interviewing agents, Mr. Kyle demonstrated the position of his Chevrolet van in the Fort Marcy Park on July 20, 1993 to include the general location of the two other vehicles previously described to interviewing agents on 4/14/94. Subsequent to the placement of these vehicles, Mr. Kyle traversed the route he followed after exiting his vehicle on July 20, 1993 to a spot approximately 15 feet to the right of the top or second cannon at Fort Marcy Park. Mr. Kyle positioned himself in the general area where he believed he was urinating when he viewed to his left what he initially thought was refuse.

Mr. Kyle then walked to a location on the top of a berm and positioned himself at a spot where he stated he observed at a distance of approximately three feet a body lying at a 45 degree angle on the down side of a slope looking into a gully. Kyle demonstrated the position of his feet when viewing the body, pointing out that he leaned forward from the waist looking directly into the face, specifically observing that the eyes of this body were partially open and slightly glazed and that traces of dry black blood were running from the side of the mouth and nose down the right side of the face. Mr. Kyle reiterated that the position of the head was straight up and that a number of flies were observed in the vicinity of the mouth and nose.

He further advised that there were traces of blood stains on the shirt, to include the upper right shoulder area, along with traces of what he considered to be either vomit or spilled wine possibly purplish in color. In further describing the condition of the body, Mr. Kyle demonstrated to the interviewing agents how the trousers and shirt of this individual were slightly hitched or drawn up indicating to Mr. Kyle that the body could have slid down the hill with the ensuing friction

causing the shirt and trousers to be slightly drawn up.

In demonstrating his specific movements and the description of the body location scene on July 20, 1993, Mr. Kyle continually emphasized the fact that the terrain, specifically at the spot he observed the body was enveloped with dense foliage, brambles and overgrown vegetation to include the observation that the spot where he was standing when he observed the body was considerably higher in elevation. He further maintained that he was fixated on the face of the body and did not pay specific attention to body extremities including the hand. In this regard, Kyle advised he could not remember the exact position of the thumbs, stating that while he didn't observe a gun, there could have been a gun in the hand. Mr. Kyle also related that his view of the body was solely from the top of the embankment previously described and denied touching or moving the body in any manner.

Mr. Kyle then pointed out his exit route from the body location to a point where he passed in close proximity to a parked unoccupied white Honda in the parking area of Fort Marcy Park. He specifically identified the general area in which he observed the contents of this particular vehicle stating that he observed a four pack of wine cooler in the vehicle and remembers that there was also a sport coat or jacket and a briefcase in the rear seat of this vehicle. He also physically pointed out to interviewing agents the general location of a second vehicle in the parking lot which he described as a light tan or light brown Japanese vehicle which could have been a Nissan, Toyota, or possibly a Honda. When further questioned relative to these particular vehicles, Mr. Kyle advised that he was not very observant of the cars in the parking lot that day and therefore his description of these vehicles was in his opinion very sketchy. In this regard he was exhibited a series of photographs depicting Mr. Vincent Foster's four door Honda, Arkansas license plates RCN-504. Mr. Kyle was unable to determine if photographs resembled second vehicle described.

In a further effort to determine the identity of individuals whom Kyle notified of his sighting of the body at Fort Marcy Park, Mr. Kyle voluntarily furnished the names of his brother [redacted] and [redacted] identified by Mr. Kyle as one of the owners of [redacted] where he is presently employed. Mr. Kyle stated that he would be glad to furnish the names and contact points for additional

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 7/22/94**PROTECT IDENTITY**

At approximately 10:40 am, I received a telephone call from KERMIT DALE KYLE who advised me as follows.

KYLE advised that while he was on vacation, he received a call from G. GORDON LIDDY regarding the death of VINCENT FOSTER. Upon his return to the Northern Virginia area, he attempted to contact LIDDY but was unsuccessful. KYLE stated that Mr. LIDDY did finally contact him on Wednesday, July 20, 1994 and later that day came out to his house and again talked to him about the FOSTER death investigation. He stated that LIDDY had a copy of the Independent Counsel report with him and he discussed the report with Mr. LIDDY. During this meeting, Mr. LIDDY mentioned for the first time that a Congressman BURTON wished to speak to him about his knowledge of FOSTER's death at Fort Marcy Park. He asked Mr. LIDDY if the Congressman could be trusted and whether, in Mr. LIDDY's opinion, the Congressman would keep his identity confidential. He stated that Mr. LIDDY felt that he could be trusted and that he, LIDDY, believed that the Congressman would keep his name confidential. He also recalls that during this meeting, Mr. LIDDY asked him if the investigators for the Independent Counsel's office had shown him pictures of the death scene and he responded that they had not.

KYLE advised that the meeting ended with him informing LIDDY that he would think about meeting with the Congressman and would let him know. He also requested that if the meeting did take place, he wanted LIDDY present also.

KYLE advised that LIDDY again called him on Thursday afternoon July 21, 1994 wanting to know if he had made a decision. During this call LIDDY explained to him that he could not be present for such a meeting and again reiterated that he, LIDDY, felt that the Congressman could be trusted and would protect his identity. KYLE stated that he agreed to let LIDDY give the Congressman his home number so that he could be contacted. Congressman BURTON contacted KYLE on Thursday evening July 21, 1994 and made arrangements to come out and visit with him at his home at 9:30 pm. The Congressman wanted to bring a

staffer with him to take notes but KYLE insisted that he come by himself. KYLE stated that the Congressman remained in his home for approximately an hour and fifteen minutes and questioned him about his knowledge of the FOSTER death at Fort Marcy Park. Congressman BURTON had a photograph which he, KYLE, believes he had seen in the past in the newspaper, adding that the photograph had ABC News Exclusive printed right on it and depicted what was purported to be FOSTER's hand holding the weapon. KYLE was asked to sign a statement to the effect that what was depicted in the picture (hand holding a weapon) was not what he saw at the scene on July 21, 1993 and he did, in fact, sign such a statement. KYLE stated that he was not given a copy of this statement and that Congressman BURTON is the only one that has it.

KYLE advised that Congressman BURTON informed him that he also has a signed statement from an individual down in Arkansas to the effect that shortly after FOSTER's death, this individual was instructed by his employees at the Rose Law Firm to destroy a large amount of documents relating to FOSTER which this individual claims he did. During the meeting, which lasted approximately an hour and fifteen minutes, the Congressman on at least two occasions made the remark to Mr. KYLE that he, KYLE, could be in real physical danger because of what he observed at the park but he did not elaborate on this statement.

Mr. KYLE asked agent COLOMBELL for advice in terms of how he should handle this and what he should do in the future and was told that agent COLOMBELL was unable, because of his position with the Office of the Independent Counsel, to provide him with guidance or serve as an advisor regarding his contact with Mr. LIDDY, members of Congress or any other third parties.

10/18/94

SA WILLIAM E. COLOMBELL reviewed the U.S. Park Police evidence and custody logs for all physical evidence in possession of the U.S. Park Policy relating to the VINCENT FOSTER death investigation.

Evidence control receipts and logs confirmed that item 12, described as a White House identification and photo of VINCENT FOSTER, was turned over by OFFICER CHERYL BRAUN to the U.S. Secret Service on July 21, 1993 at 1:20 a.m.

The evidence control receipts and logs for personal items removed from FOSTER's body confirms that the below listed items were all turned over to White House representative CLIFFORD SLOAN by U.S. Park Police OFFICER PETER MARKLAND on 7/21/93 at 7:35 p.m. with a notation, "return to family."

- Item 5 - Brown leather wallet & contents
- Item 6 - Seiko watch
- Item 7 - Motorola Bravo Pager, Cap Code 052943
- Item 8 - Silver Ring
- Item 9 - Gold Ring

PAUL IMBORDINO, Special Agent with the United States Secret Service assigned to the White House was interviewed by phone. He was familiar with the interviewing agent based on prior investigative interviews conducted by SA COLOMBELL. MR. IMBORDINO advised that he was unable to find any record indicating that the pager found on VINCENT FOSTER's body was turned over by the US Park Police to Secret Service representatives on the night of FOSTER's death. He stated that as best he can determine, the pager was never given to the United States Secret Service. MR. IMBORDINO did confirm that on the night of FOSTER's death, specifically at approximately 1:20 a.m. on July 21, 1993, a representative of the Secret Service did take possession of FOSTER's White House identification, but not the pager.

Date of transcription 10/18/94

SA WILLIAM E. COLOMBELL of the Independent Counsel staff telephonically contacted Sergeant CHERYL BRAUN, U.S. Park Police (USPP), explaining to her that he was attempting to determine if VINCENT FOSTER's White House identification and Motorola Brava pager were turned over to the U.S. Secret Service by her on the night of FOSTER's death.

OFFICER BRAUN advised that she does recall turning over White House identification to a representative of the Secret Service on the night of FOSTER's death. She stated that as best she recalls, it was in the early morning hours at approximately 1:00 a.m. She stated that it was possible that she might have also turned over FOSTER's pager at the same time but to the best of her recollection, it was only the White House identification that she provided. In a follow up telephone conversation with OFFICER BRAUN, it was noted that the U.S. Park Police custody log does confirm that on July 21, 1993 at 1:20 a.m. OFFICER CHERYL BRAUN turned over White House identification only to a representative of the U.S. Secret Service. OFFICER BRAUN stated that based on the notations in the custody log, the only item turned over to the Secret Service by her was the White House identification.

On June 6, 1994, MARVIN KRISLOV Assistant Counsel and NEIL EGGLESTON Associate Counsel to the President, both individuals from The White House, appeared at the Office of the Independent Counsel and was interviewed by MARK STEIN of the Office of the Independent Counsel and SA H. ALEXIS SUGGS with regard to a production that The White House had made in response to a subpoena. The production that we asked them about was broken into 4 parts.

Part 1 KRISLOV and EGGLESTON identified (a 3-page item which lists cabinets and their contents and is titled on the first page, "Office of VINCE W. FOSTER, JR." with a 6 at the top of the page) as a document which was located in the files moved by TOM CASTLETON from the West Wing to the Old Executive Office Building. CASTLETON advised them that it came from DEBORAH GORHAM's desk and that the handwriting is CASTLETON's. Neither individual had any idea what pages 1-5 would have been.

Part 2 (an 8-page assortment of typed lists, the first page of which is entitled, "DEBORAH GORHAM's desk" contents:) KRISLOV and EGGLESTON recognized as lists compiled by TOM CASTLETON and confirmed that the description of them in JOEL KLEIN's cover letter was in error. KRISLOV said that they will be different from GORHAM's list of files. They were compiled at the time that the boxes were brought to the Old Executive Office Building sometime mid-November when JOEL KLEIN was moving into FOSTER's office. Each list corresponds to a box which held documents. They therefore do not hold any documents that were given to the CLINTON's private attorney.

Part 3 is a hand-written listing of VINCE FOSTER's working files. KRISLOV and EGGLESTON both confirmed that it was handwritten by STEPHEN NEUWIRTH. They believe it was done shortly after VINCE FOSTER's death.

Part 4 of the production is an 11-page handout with what appears to be computer printout listings of directories. KRISLOV and EGGLESTON explained that these were the indexes of

everything that had been in DEBORAH GORHAM's hard drive as of the time it was downloaded onto floppy disks. The floppy's are maintained in MARVIN KRISLOV's office. KRISLOV advised that nothing has been erased from the directories and that the check marks on the list correspond to documents which were printed into hard copies so that people could continue working with them.

At the conclusion of the interview, MARK STEIN advised KRISLOV and EGGLESTON that the Office of the Independent Counsel wanted hard copies of select documents from part 4, disks 4 and 5. KRISLOV and EGGLESTON agreed to produce the requested documents as soon as possible, meaning the next day or so.

A review of documents associated with VINCENT W. FOSTER JR. was conducted at the law offices of SWIDLER & BERLIN, 3000 K Street, N.W., Washington, D.C. CHARLOTTE BARRETT from the law firm remained in the Justice Room as the documents were reviewed. Information obtained from the documents included the following:

A White House Medical Unit form, dated 7/16/93, reflected that VINCENT FOSTER, date of birth 1/15/45, Social Security Account Number 429-80-1132, had his blood pressure checked on that date.

The Arkansas Democrat Gazette newspaper from 4/9/93 showed a photograph of FOSTER appearing to meet President BILL CLINTON and First Lady HILLARY RODHAM CLINTON at the airport in Little Rock, Arkansas on or about that date. The caption to the photograph indicated that the CLINTONS were in Arkansas for the funeral of the First Lady's father, Mr. RODHAM.

In a file labeled "To be copied file" was a letter from LORRAINE CLINE, who was FOSTER'S secretary. The letter was dated 6/21/93 and was addressed to the LION OIL COMPANY in Jackson, Mississippi. In the letter, CLINE informed LION OIL COMPANY that FOSTER had dropped the "Jr." from his name.

In an unmarked manila legal-size envelope were the following:

1) Check number 8427, signed by FOSTER, dated 7/11/91, drawn in the amount of [redacted] and made payable to [redacted]. The check was drawn on the [redacted] Arkansas, - account number [redacted] and the back of the check indicated it had been cashed. No insurance account number or other notation was observed on the face of the check.

2) Notice of payment due, dated 7/2/88, pertaining to [redacted] on the life of VINCENT W. FOSTER Jr. The annual disability premium was reflected as [redacted] as was the net amount due.

FOIA(b)(7) - (C)

3) Notice of payment due, dated 10/1/88, pertaining to [redacted] on the life of FOSTER. The annual premium was reflected as [redacted] as was the net amount due. There was a notice at the bottom of the form which reflected that the premium had increased in accordance with the schedule of renewal premiums for this term policy.

FOIA(b)(6)

4) AMERICAN BAR ENDOWMENT (ABE) record of coverage from 12/1/86 to 6/1/87 regarding term life insurance for FOSTER. The form reflected coverage of [redacted] on FOSTER with a semiannual premium of [redacted] and coverage of [redacted] with a semiannual premium of [redacted]. A separate ABE personal security report, dated 10/31/82, reflected the same amounts of coverage with slightly smaller premiums.

5) [redacted] exchange request, dated 10/1/82, reflected an exchange of policy number [redacted] for a new Adjustable Premium Term Life Insurance policy having a new policy number, which was not shown. The exchange request was signed by [redacted] and an accompanying letter reflected [redacted] as the owner of the policy. [redacted] was also reflected as the trustee under the VINCENT W. FOSTER Jr. Insurance Trust.

6) [redacted], dated 7/18/86, from [redacted]. The year covered by the report was 7/18/90-7/17/91, the policy value as of 7/17/91 was [redacted] and the death benefit was [redacted].

7) Notice of payment due, dated 1/11/84, for coverage for twelve months, from [redacted] on the life of FOSTER. The policy number was [redacted] the life insurance premium was [redacted] the dividend paid was [redacted] and the amount due was [redacted]. The amount of coverage was not reflected.

FOIA(b)(6)

OFFICE OF THE INDEPENDENT COUNSEL

Date of transcription 10/18/94

SA WILLIAM E. COLOMBELL of the Independent Counsel staff telephonically contacted Sergeant CHERYL BRAUN, U.S. Park Police (USPP), explaining to her that he was attempting to determine if VINCENT FOSTER's White House identification and Motorola Brava pager were turned over to the U.S. Secret Service by her on the night of FOSTER's death.

OFFICER BRAUN advised that she does recall turning over White House identification to a representative of the Secret Service on the night of FOSTER's death. She stated that as best she recalls, it was in the early morning hours at approximately 1:00 a.m. She stated that it was possible that she might have also turned over FOSTER's pager at the same time but to the best of her recollection, it was only the White House identification that she provided. In a follow up telephone conversation with OFFICER BRAUN, it was noted that the U.S. Park Police custody log does confirm that on July 21, 1993 at 1:20 a.m. OFFICER CHERYL BRAUN turned over White House identification only to a representative of the U.S. Secret Service. OFFICER BRAUN stated that based on the notations in the custody log, the only item turned over to the Secret Service by her was the White House identification.

(telephonically)

Investigation on 10/12/94 at Washington, D.C. File # 29-LR-35063by WILLIAM E. COLOMBELL Date dictated 10/18/94

OFFICE OF THE INDEPENDENT COUNSEL

Date of transcription

10/18/94

SA WILLIAM E. COLOMBELL reviewed the U.S. Park Police evidence and custody logs for all physical evidence in possession of the U.S. Park Police relating to the VINCENT FOSTER death investigation.

Evidence control receipts and logs confirmed that item 12, described as a White House identification and photo of VINCENT FOSTER, was turned over by OFFICER CHERYL BRAUN to the U.S. Secret Service on July 21, 1993 at 1:20 a.m.

The evidence control receipts and logs for personal items removed from FOSTER's body confirms that the below listed items were all turned over to White House representative CLIFFORD SLOAN by U.S. Park Police OFFICER PETER MARKLAND on 7/21/93 at 7:35 p.m. with a notation, "return to family."

- Item 5 - Brown leather wallet & contents
- Item 6 - Seiko watch
- Item 7 - Motorola Bravo Pager, Cap Code 052943
- Item 8 - Silver Ring
- Item 9 - Gold Ring

(telephonically)

Investigation on 10/13/94 at Washington, D.C. File # 29-LR-35063

by WILLIAM E. COLOMBELL Date dictated 10/18/94

OFFICE OF THE INDEPENDENT COUNSEL

Date of transcription 10/18/94

PAUL IMBORDINO, Special Agent with the United States Secret Service assigned to the White House was interviewed by phone. He was familiar with the interviewing agent based on prior investigative interviews conducted by SA COLOMBELL. MR. IMBORDINO advised that he was unable to find any record indicating that the pager found on VINCENT FOSTER's body was turned over by the US Park Police to Secret Service representatives on the night of FOSTER's death. He stated that as best he can determine, the pager was never given to the United States Secret Service. MR. IMBORDINO did confirm that on the night of FOSTER's death, specifically at approximately 1:20 a.m. on July 21, 1993, a representative of the Secret Service did take possession of FOSTER's White House identification, but not the pager.

(telephonically)

Investigation on 10/13/94 at Washington, D.C. File # 29-LR-35063by WILLIAM E. COLOMBELL Date dictated 10/18/94

The following investigation was conducted by Special Agent (SA) [redacted] on 5/2/94 at Washington, D.C.:

A review was conducted of a Special Inquiry file regarding a background investigation on VINCENT WALKER FOSTER Jr., which had been conducted by the FEDERAL BUREAU OF INVESTIGATION (FBI) at the request of the White House. The Special Inquiry had been requested by the White House because FOSTER had been requested to serve as Deputy Counsel to the President. The term "Special Inquiry" connotes a routine background investigation conducted on a candidate or an appointee for a higher level government position. The review of the Special Inquiry file regarding FOSTER was conducted at FBI Headquarters and yielded the following information:

Name: VINCENT WALKER FOSTER JR.
Date of Birth (DOB): 1/15/45
Place of Birth: Hope, Hempstead County, Arkansas
Social Security
Account Number (SSAN): 429-80-1132
Telephone Numbers: (Day) (501) 377-0305
(Night) (501) 663-0141

FOSTER's address
from 2/79 - 1/93: 5414 Stonewall Road
Little Rock, Arkansas 72207
Telephone: (501) 663-0141

Associate of
FOSTER: PHILLIP CARROLL
2424 North Fillmore
Little Rock, Arkansas 72207
Telephone: (501) 663-6025
Knew FOSTER for 22 years.

FOSTER's Mother: ALICE MAE FOSTER
1021 West 14th
Hope, Arkansas
DOB: 8/11/15
Maiden name: ALICE MAE WADDLE

FOSTER's Father: VINCENT W. FOSTER
DOB: 2/5/11

FOSTER's Children: VINCENT W. FOSTER III, DOB [redacted]
LAURA B. FOSTER, DOB: [redacted]
JOHN B. FOSTER, DOB: [redacted]

FOSTER'S Sisters: SHEILA F. ANTHONY

3900 Macomb Street, N.W.
Washington, D.C.

Date of Marriage: 4/20/68 at
Nashville, Tennessee

FOIA(b)(6)

FOSTER'S Education:

9/63-5/67
Attended DAVIDSON COLLEGE,
Davidson, North Carolina.
Graduated 5/67 with A.B. degree.

9/67-6/68
Attended VANDERBILT UNIVERSITY
School of Law.
No degree awarded.

2/69-1/71
Attended UNIVERSITY OF ARKANSAS
School of Law, Fayetteville,
Arkansas.
Graduated 1/71 with J.D. degree.

FOSTER'S Employment:

1/71-2/93
Employed at Rose Law Firm (RLF),
Little Rock, Arkansas as a partner.
Was actually reflected in RLF
personnel files as having been hired
as a full-time employee on 2/8/71.
Resigned from RLF in 1/93 and was a
senior member at the time.

The file reflected that a foreign exchange student, LUCA DALIA TORRE, a citizen of Switzerland, had formerly lived with the FOSTER family. However, as of 2/12/93, when FOSTER completed his form SF-86, Questionnaire for Sensitive Positions, the student was no longer residing with the FOSTERS.

FOSTER responded "No" to a question regarding whether he had experienced problems on or off the job because of any emotional or mental condition. FOSTER also responded "No" to a question of whether he had ever seen a health care professional for any of the types of problems mentioned above in the form, i.e., problems involving emotional or mental conditions.

People who knew FOSTER well and were named in the report included the following:

WILLIAM DAVID WATKINS
Director of Administration and Management
The White House
WATKINS stated that he had known FOSTER for more than 40 years and he described FOSTER as a good friend.

LORAIN WOLFE CLINE
5212 Stratford Road
North Little Rock, Arkansas
Telephone: (501) 758-2258
CLINE was FOSTER's secretary when he was employed at the Rose Law Firm.

DAVID KNIGHT
Chief Legal Counsel
Stephens, Incorporated
111 Center Street
Little Rock Arkansas
KNIGHT stated that he had worked with FOSTER at the Rose Law Firm. He also said that he had formerly jogged with FOSTER for several years.

A credit bureau report, dated 2/2/93, was in the file and reflected the following accounts for FOSTER:

FOIA(b)(7) - (C)

The following investigation was conducted by [redacted] in Washington, D.C.:

The Merrywood-On-The-Potomac subdivision was located across Chain Bridge Rd., directly to the north of Ft. Marcy Park. There is no direct access from the subdivision to the park. The following streets are located in the subdivision: Cricket Place, Blueberry Hill Rd., River Ridge Rd., Fern Hill Rd., Skipwith Rd., Tintagel Lane, Turtle Lane, and Belgrove Rd.

On 5/15/95, a check of the Lexus/Nexus Assets and Finder Libraries was negative for any properties listed with the buyer's last name as "Wallace", or under the name of Vincent Foster, in the Merrywood-On-The-Potomac subdivision in McLean, Virginia. There were no listings in Lexus/Nexus for the following streets in the subdivision: Fernhill Rd., River Ridge Rd., Turtle Lane, and Tintagel Lane.

On 5/19/95, a check of the 1995 Haines Criss-Cross Directory for Northern Virginia was negative for any resident with the last name of Wallace in the Merry-Wood-On-The-Potomac subdivision. There were no listings for any residents on River Ridge Rd. or Turtle Lane.

Copies of the above information will be attached to the original insert.

On 5/17/95, a check of Vincent W. Foster, Jr.'s American Express account for July of 1993 was negative for any charges relating to the purchase of an airline ticket to Switzerland. There was one charge from Northwest Airlines for \$75.00 on 6/7/93, no other airline charges appear on the account from June to August 1993.

(9)

Each agent is responsible for coordinating the investigation relative to the interviews to be conducted within the assigned category. Each agent should have in their possession, a draft memorandum dated 3/1/94, from SA GILLIS. This memo outlines the names of persons to be interviewed within the categories assigned above. For information of SSA GUYTON, FBI personnel were not listed in the draft due to a lack of knowledge regarding Assistant Independent Counsel RODERICK LANKLER's investigative intentions.

Listed below are the interviews that can immediately be conducted by FBI personnel. Also noted, will be those interviews that LANKLER and MARK STEIN expressed an interest in participating in. Respective agents should coordinate with Messrs. LANKLER and STEIN regarding highlighted interviews.

PARK POLICE (COLOMBELL)

(DEATH SCENE)
JOHN C. ROLLA
C.A. BRAUN
SGT. RULE
F. FERSTL
KEVIN FORNSHILL
OFFICER SPETZ
OFFICER ABT
R. EDWARDS
C.A. HODAKIEVIC
S.E. HILL
W.A. JOHNSON
JAMES C. MORRISETTE
E.J. SMITH

(FOLLOWING PARK POLICE PERSONNEL CONDUCTED INVESTIGATIONS AND SEARCHES AT THE WHITE HOUSE)

LEONARD MEGBY
DONALD FLYNN
PAUL IMBORDINO
CHARLES HUME
PETER MARKLAND
PETER J. SIMENELLO
LARRY LOCKHART
ROBERT KASS

Of Park Police interviews listed above, assigned SA should determine from the Park Police investigative report, the roll of the aforementioned personnel. Once that has been accomplished, consult briefly with LANKLER and commence interviews.

FRANCIS SWANN - PARK SERVICE; made 911 call; described

white van: coordinate with LANKLER

MARK FIRST
JUDITH DOODY
BOB SLADE
JEANE SLADE

FORENSICS (MONROE)

(IN CONJUNCTION W/ [REDACTED])

JAMES C. BEYER (MEDICAL EXAMINER)
DR. HEDAYA
DR. ALLEN
DR. PASTERNACH
DR. LARRY WATKINS
MORGAN PHARMACY

Aforementioned interviews can be conducted by agents in conjunction with [REDACTED] investigation.

WHITE HOUSE (SUGGS [GUYTON, [REDACTED]])

STEPHEN NEUWIRTH
BERNARD NUSSBAUM
CHARLES BURTON

During the course of the meeting, the following tests were requested by SSA Colombell regarding the Foster death investigation;

1. Comparison of gunpowder on clothing/mouth/shell casing to determine whether or not gunpowder samples from all three sources are compatible.
2. PCR-DNA test to detect traces of tissue from Foster's mouth on the barrel of the gun found at the death scene location.
3. Latent prints on the gun located at the death scene with an attempt to trace the gun through its manufacturer.
4. Powder residue on Foster's glasses. (Will first have to determine if the glasses discovered at the death scene belonged to Foster). Determine prescription (i.e. near-, far-sighted, reading glasses).
5. Check clothing for signs of struggle. Photograph all items of clothing, front and back.
6. Check for latent prints on papers in Foster's vehicle.

7. Tracing of keys found in Foster's car.
8. Blood tests; check for blood on shirt to see if it matches Foster's blood type. Is manner in which blood found on shirt (blood splatter) consistent with the way he shot himself?
9. Enhance 35-mm negatives that were taken at the crime scene.
10. In addition to the check of Foster's clothing to determine whether there were signs of struggle; also to be checked are the soles of Foster's shoes for a soil match and a check of Foster's undergarments for seminal fluid.
11. Hair to be tested for use of illegal drugs.
12. Review of maps located in Foster's car for any markings and identical writings.
13. Check sunglasses located in Foster's car for latent prints.
14. Re-check of previous FBIHQ lab tests done on note found in Foster's briefcase.

The FBIHQ Laboratory Division will also provide the following assistance on the Foster death investigation:

Complete ground and aerial photos of death scene (Fort Marcy Park).

Videotape Foster's path from his car in the parking lot of Fort Marcy Park to the death site.

Dig and sift location of Foster's body for bone fragments and the bullet utilized in his death.

Search the cannon and surrounding area located behind Foster's head for the bullet or fragments. Search to include trees located behind Foster's body where bullet could have lodged.

Laboratory Division personnel are to conduct a survey of the death scene.

FBIHQ Lab personnel requested that the following questions be answered by investigators of the Independent Counsel:

1. Locate unconsumed particles of gunpowder in either the victim's mouth or on the victim's clothing. If gunpowder found on shirt, why - since barrel of weapon was in Foster's mouth.
2. Determine what tests were performed by the Bureau of Alcohol, Tobacco and Firearms (ATF).
3. Determine what tests were previously done on Foster's clothing.
4. Ask the family for any ammunition that may have been connected to the gun found at the death scene/determine the source of the ammunition. Point of contact would be Foster's sister Sheila Anthony.
5. Ask Foster's spouse for information regarding his eyeglass prescription.
6. Identify owners of the sunglasses located in Foster's car.
7. Determine whether or not Foster departed the White House by himself.
8. Determine age of Foster's daughter who is alleged to have been the owner of the vehicle Foster drove the day of his death.
9. Determine whether Foster was a cigarette smoker (possible DNA material on cigarette butts in vehicle).
10. Determine any medical conditions suffered by Foster (ulcers) could explain bottle of Maalox located in car.
11. Determine ownership of personal items located in vehicle Foster was driving on the day of his death.
12. Check with Jane Erikson to determine if the FOIPA Section, FBIHQ is in possession of other copies of U.S. Park Police investigation related to Foster.

The following investigation was conducted by Special Agent [redacted] on 5/2/94 at Washington, D.C.:

A review was conducted of a Special Inquiry file regarding a background investigation on VINCENT WALKER FOSTER Jr., which had been conducted by the FEDERAL BUREAU OF INVESTIGATION (FBI) at the request of the White House. The Special Inquiry had been requested by the White House because FOSTER had been requested to serve as Deputy Counsel to the President. The term "Special Inquiry" connotes a routine background investigation conducted on a candidate or an appointee for a higher level government position. The review of the Special Inquiry file regarding FOSTER was conducted at FBI Headquarters and yielded the following information:

Name: VINCENT WALKER FOSTER JR.
Date of Birth (DOB): 1/15/45
Place of Birth: Hope, Hempstead County, Arkansas
Social Security Account Number (SSAN): 429-80-1132
Telephone Numbers: (Day) (501) 377-0305
(Night) (501) 663-0141

FOSTER's address from 2/79 - 1/93: 5414 Stonewall Road
Little Rock, Arkansas 72207
Telephone: (501) 663-0141

Associate of FOSTER: PHILLIP CARROLL
2424 North Fillmore
Little Rock, Arkansas 72207
Telephone: (501) 663-6025
Knew FOSTER for 22 years.

FOSTER's Mother: ALICE MAE FOSTER
1021 West 14th
Hope, Arkansas
DOB: 8/11/15
Maiden name: ALICE MAE WADDLE

FOSTER's Father: VINCENT W. FOSTER
DOB: 2/5/11

FOSTER's Children: VINCENT W. FOSTER III, DOB [redacted]
LAURA B. FOSTER, DOB: [redacted]
JOHN B. FOSTER, DOB: [redacted]

FOIA(b)(6)

FOSTER'S Sisters: SHEILA F. ANTHONY

3900 Macomb Street, N.W.
Washington, D.C.

DOB: [REDACTED]

SHARON F. BOWMAN
5510 Sherwood Road
Little Rock, Arkansas

DOB: [REDACTED]

FOIA(b)(6)

FOSTER's Spouse:

ELIZABETH BRADEN FOSTER

DOB: [REDACTED]

POB: [REDACTED]

SSAN: [REDACTED]

Date of Marriage: 4/20/68 at
Nashville, Tennessee

FOSTER'S Education:

9/63-5/67
Attended DAVIDSON COLLEGE,
Davidson, North Carolina.
Graduated 5/67 with A.B. degree.

9/67-6/68
Attended VANDERBILT UNIVERSITY
School of Law.
No degree awarded.

2/69-1/71
Attended UNIVERSITY OF ARKANSAS
School of Law, Fayetteville,
Arkansas.
Graduated 1/71 with J.D. degree.

FOSTER'S Employment:

1/71-2/93
Employed at Rose Law Firm (RLF),
Little Rock, Arkansas as a partner.
Was actually reflected in RLF
personnel files as having been hired
as a full-time employee on 2/8/71.
Resigned from RLF in 1/93 and was a
senior member at the time.

The file reflected that a foreign exchange student, LUCA DALIA TORRE, a citizen of Switzerland, had formerly lived with the FOSTER family. However, as of 2/12/93, when FOSTER completed his form SF-86, Questionnaire for Sensitive Positions, the student was no longer residing with the FOSTERS.

FOSTER responded "No" to a question regarding whether he had experienced problems on or off the job because of any emotional or mental condition. FOSTER also responded "No" to a question of whether he had ever seen a health care professional for any of the types of problems mentioned above in the form, i.e., problems involving emotional or mental conditions.

People who knew FOSTER well and were named in the report included the following:

WILLIAM DAVID WATKINS
Director of Administration and Management
The White House
WATKINS stated that he had known FOSTER for more than 40 years and he described FOSTER as a good friend.

LORAIN WOLFE CLINE
5212 Stratford Road
North Little Rock, Arkansas
Telephone: (501) 758-2258
CLINE was FOSTER's secretary when he was employed at the Rose Law Firm.

DAVID KNIGHT
Chief Legal Counsel
Stephens, Incorporated
111 Center Street
Little Rock Arkansas
KNIGHT stated that he had worked with FOSTER at the Rose Law Firm. He also said that he had formerly jogged with FOSTER for several years.

A credit bureau report, dated 2/2/93, was in the file and reflected the following accounts for FOSTER:

STEN GRAFFMAN, white, male, date of birth [redacted]
 [redacted] 3027 Cambridge Place, Northwest, Washington, DC 20007,
 voluntarily permitted Special Agent (SA) JAMES T. CLEMENTE, SA
 PATRICK F. FALLON, JR. and Forensic Biologist KAREN LANNING to
 take samples of carpet fibers from a carpet in the basement at
 GRAFFMAN's residence. GRAFFMAN advised that this carpet has been
 in the townhouse since GRAFFMAN moved into it in September of
 1996. GRAFFMAN advised that the white carpet in the upstairs
 bathroom was recently discarded and replaced. GRAFFMAN advised
 that the carpet on the stairs leading from the first floor to the
 second floor was a "wood brown" when he moved in, but GRAFFMAN
 had it replaced.

GRAFFMAN advised that the previous tenant was a ROBIN
 YOUNG, whose current address GRAFFMAN does not know. GRAFFMAN
 also advised that the owners of the townhouse are CHARLES EASON
 and ELEANOR EASON, 540 N street, Southwest, Apartment 603,
 Washington, DC 20024, telephone number (202) 863-2018.

Investigation on 6/03/97 at Washington, DC File # 29D-LR-35063
 by SA PATRICK F. FALLON, JR. Date dictated 6/04/97

OFFICE OF THE INDEPENDENT COUNSEL

Date of transcription 06/06/97

On June 3, 1997, CHERYL MILLS, Deputy White House Counsel voluntarily escorted Special Agent (SA) JAMES T. CLEMENTE, SA PATRICK F. FALLON, JR., and Forensic Biologist KAREN LANNING, FEDERAL BUREAU OF INVESTIGATION (FBI) throughout the West Wing of the White House to collect carpet and rug fiber samples from areas which would have been frequented by former Deputy White House Counsel VINCENT W. FOSTER, JR., prior to his death on July 20, 1993. After having been advised of the identity of the investigators and the nature of the investigation, MILLS provided 1) identification of each room which FOSTER would likely have frequented and 2) a description of whether the carpet or rug in each room had been in place on July 20, 1993, or had been replaced since then as follows:

OFFICE OF THE INDEPENDENT COUNSEL

Date of transcription June 6, 1997

DARRELL TEDROW, 331 Hatcher Lane, Mt. Juliet, Tennessee, 37122, was contacted at his residence for the purpose of securing samples of carpet fibers from the 1989 Honda Accord automobile used by VINCENT FOSTER on the date of his death. TEDROW's spouse, JEANETTE TEDROW, and his son, DARRELL TEDROW, Jr., were present when carpet samples were secured from the vehicle.

TEDROW stated that the vehicle was purchased on February 9, 1997, from A. HARROON, 4588 Xavier Drive, Antioch, TN 37013 (telephone 615-271-6034). HARROON told TEDROW that the car had belonged to his relative VINCENT FOSTER. TEDROW was aware that FOSTER was connected in some way to the Whitewater Investigation and that FOSTER had apparently committed suicide.

The vehicle had approximately 120,000 miles on the odometer at the time of the purchase from HARROON. The carpet and floor mats in the vehicle had not been replaced since the purchase from HARROON.

The Vehicle Identification Number appearing on the plate on the driver's side dash was verified as being JHMCA5630KC074057. The vehicle was a gray on gray Honda Accord, with a gray interior. Photographs of the vehicle exterior and interior were secured.

Fiber samples were secured from the vehicle from six separate locations: the driver's side front carpet, driver's side front floor mat, driver's side rear carpet, driver's side rear floor mat, driver's seat, and from the trunk. The samples were placed in white paper envelopes which were dated and noted to indicate the particular locations from which the samples were taken. The envelopes were sealed and initialed on the front and signed across the back seal by the investigators. The fiber samples and photographs were sent via Federal Express to Special Agent Patrick F. Fallon, Office of Independent Counsel, Washington, D. C. on June 4, 1997.

OFFICE OF THE INDEPENDENT COUNSEL

Date of transcription 6/11/97

LISA FOSTER MOODY, 5414 Stonewall, Little Rock, Arkansas, was contacted at her residence for the purpose of securing samples of carpet fibers from various area rugs that were in use in her home at the time of VINCENT FOSTER's death.

Fiber samples were removed from four area rugs made available by Mrs. MOODY. The rugs consisted of a 1 1/2' x 2' white bathroom rug, a 2' x 4' white bathroom rug, a 4' x 6' beige and gray Greek key design rug, and a 2' x 4' blue and white stripe throw rug. Mrs. MOODY could not locate two additional white bathroom rugs that were in her home during the relevant time frame.

Mrs. MOODY advised that she had made arraignments with her daughter, LAURA FOSTER, (telephone 501-443-7769), 106 North Platinum #12, Fayetteville, Arkansas 72703, for us to obtain fibers from a rug that her daughter had in her apartment that was in the FOSTER residence during the relevant time frame.

Mrs. MOODY further advised that she had given one of the relevant rugs to her maid REENELL MCCLAIN, who resides at 7107 Gates Lane, Sweet Home, Arkansas 72206. Mrs. MOODY said MCCLAIN was aware that we would contact her.

The fiber samples removed from the rugs furnished by Mrs. MOODY were placed in envelopes, which were sealed, signed or initialed by the investigators and marked for identification. The fiber samples were sent via Federal Express to attorney BRETT KAVANAUGH in Washington on June 11, 1997.

REENELL MCCLAIN, 7107 Gates Lane, Sweet Home, Arkansas, 72206, was contacted at her residence for the purpose of securing samples of carpet fibers from a rug given to her by LISA FOSTER MOODY. Mrs. MOODY earlier advised that the carpet given to Ms. MCCLAIN was in the FOSTER residence at the time of VINCENT FOSTER's death.

Fiber samples were removed from a 3' x 6' rug identified by Ms. MCCLAIN as the one given to her by Mrs. MOODY. Seven separate batches of fibers were removed from the rug. Fibers were taken from the fringe and from the six different color areas on the rug. The fibers were placed in envelopes which were sealed, signed or initialed by the investigators, and marked for identification.

The fibers were sent via Federal Express to attorney BRETT KAVANAUGH in Washington on June 13, 1997.

Result of examination:

FIREARMS:

Specimen Q2 is a .38 Special caliber cartridge case of Remington manufacture which was identified as having been fired in the K1 revolver. Several pieces of ball smokeless powder were removed from the Q2 cartridge case in the Laboratory.

Specimen Q1 is a .38 Special caliber cartridge of Remington manufacture which is loaded with a round-nosed lead bullet. The Q1 cartridge and the Q2 cartridge case are similar in caliber type and manufacturer and bear similar "R-P .38 Spl HV" headstamps. The bullet was removed from the Q1 cartridge in the Laboratory.

The K1 revolver functioned normally when test fired in the Laboratory. The trigger pulls (single action and double action) were normal for the K1 revolver.

One piece of ball smokeless powder was removed from the Q3 glasses in the Laboratory. This piece of ball smokeless powder could have been deposited on the Q3 glasses from the cylinder blast or muzzle blast of the K1 revolver when fired. Ball smokeless powder was also removed from the Q30 paper in the Laboratory.

When the Q8 shirt was received in the Laboratory, the resultant color reaction for a positive reaction for the sodium rhodizonate test was apparent. This reaction was positive for vaporized lead and very fine particulate lead; it was noted on the front of the Q8 shirt. This type of reaction is consistent with the type of reaction expected when a firearm is discharged in close proximity to this portion of the shirt. It is consistent with muzzle blast or cylinder blast from a revolver like the K1 revolver using ammunition like specimens Q1 and Q2.

Subsequent chemical processing of the Q8 shirt in the Laboratory revealed lead residues in a small area near the sixth button from the collar on the front of the Q8 shirt. This reaction could have been caused by contact with a source of lead residues. Lead residues were also detected on the underside of the edge of the collar on the left side of the Q8 shirt. This small area of lead residues could have been caused by the discharge of a firearm consistent with the positive reaction noted above when the Q8 shirt was received in the Laboratory.

gun shot residue RT for thumb web area

Apparent gunshot residue (smoke) was noted in the Q60, Q112, Q125, Q126 and Q127 photographs on the side of the right forefinger and web area of the victim's right hand. These residues are consistent with the disposition of smoke from muzzle blast or cylinder blast when the K1 revolver is fired using ammunition like that represented by specimens Q1 and Q2 when this area of the right hand is positioned near the front of the cylinder or to the side of and near the muzzle.

The mark on the inside of the right thumb which is visible in the Q60 photograph is consistent with a mark produced by the trigger of the K1 revolver when this portion of the right thumb is wedged between the front of the trigger and the inside of the front of the trigger guard of the K1 revolver when the trigger rebounds (moves forward). The trigger of the K1 revolver automatically rebounds when released after firing (single or double action) or whenever the trigger is released after it is moved to the rear. This mark is consistent with the position of the right thumb of the victim in the trigger guard of the revolver in the Q77, Q79 and Q97 photographs.

The position of the victims hand in the Q77, Q79 and Q97 photographs relative to the revolver and the apparent deposition of gunshot residue (smoke) visible in the Q60, Q112, Q125, Q126 and Q127 photographs is consistent with, but not limited to, the following position of the right hand during firing: Pulling the trigger of the K1 revolver with the right thumb, single or double action, or having the right thumb inside the trigger guard with the web area and side of the right forefinger near the front of the cylinder.

Based on differences in caliber, bullet type and/or the rifling impressions present in these bullets, specimens Q33, Q34, Q41, Q42, Q44, Q47, Q48, Q49, Q51 and Q58 can be eliminated as having been fired from the K1 revolver or they are dissimilar to the type of bullet loaded into the Q1 cartridge.

Specimens Q35 through Q40, Q43, Q45 and Q52 through Q57 are dissimilar to the type of ammunition components represented by specimens Q1 and Q2 and those commonly fired in the K1 revolver.

METALLURGY:

Based on metallurgical examinations, the Q46 and Q50 bullets, if exposed to the ambient environment from which they were recovered for the duration of their deformed life, were exposed for a period of time significantly exceeding nine months.

CHEMICAL ANALYSES:

The K3 blood contains trazodone, diazepam and nordiazepam at 0.06 micrograms per milliliter (ug/ml), 0.01 ug/ml and 0.04 ug/ml, respectively. The concentration of these drugs is below recognized therapeutic levels.

No drugs were identified in the K2 hair. Inasmuch as this laboratory has limited knowledge of drugs other than cocaine and morphine in hair, no conclusions should be drawn from the fact that the drugs found in the blood were not found in the hair.

Ball-shaped gunpowder was identified on the Q3 eyeglasses and the Q30 paper and in the scrapings from Q8, Q9 and Q31. This gunpowder is physically and chemically similar to the gunpowder identified in the Q2 cartridge case.) One flattened ball-shaped gunpowder particle and one perforated disk-shaped gunpowder particle physically different from the gunpowder identified in the Q2 cartridge case was identified in the scrapings from Q12-Q15, and Q31B, respectively. The flattened ball-shaped gunpowder particle from the Q12 through Q15 scrapings is not consistent with having originated from a fired cartridge.

No ball-shaped gunpowder was identified on the tissue samples from the inside of FOSTER'S mouth, when examined at the Office of the Medical Examiner for Northern Virginia.

BLOODSTAIN PATTERN EXAMINATIONS:

Specimens Q8 through Q10, Q12 through Q15 and Q60 through Q127 as well as the ALSO SUBMITTED documentation was examined in an effort to determine any information of value through a study of the bloodstain patterns present. It is to be noted that a study of the above evidence alone cannot substitute for an in-person examination of the original/unaltered incident scene. The following observations were made:

Photographs of the victim at the incident scene depict apparent blood stains on his face and the right shoulder of his dress shirt. The staining on the shirt covers the top of the shoulder from the neck to the top of the arm and consists of saturating stains typical of having been caused by a flow of blood onto or soaking into the fabric. The stains on his face take the form of two drain tracks and one larger contact stain. Contact bloodstaining occurs when an object bearing wet blood comes in contact with an unstained object, leaving blood on the latter. The drain tracks extend from the right corner of the victim's mouth back toward and below the right ear and from the right nostril over the right cheek toward the temple area and above the right ear. The victim's body is depicted at the scene in a supine position with his face looking generally straight up, and the head not turned to either side. While the exact positioning of the victim's head relative to the ground and the contour of the ground itself are not known, the draining tracks suggest his head was tipped back slightly when the draining of blood occurred.

The contact stain on the right cheek and jaw of the victim is typical of having been caused by a blotting action, such as would happen if a blood-soaked object was brought in contact with the side of his face and taken away, leaving the observed pattern behind. The closest blood-bearing object which could have caused this staining is the right shoulder of the victim's shirt. The quantity, configuration and distribution of the blood on the shirt and the right cheek and jaw of the victim are consistent with the jaw being in contact with the shoulder of the shirt at some time. The available photographs depict the victim's head not in contact with the shirt and therefore indicate that the head moved or was moved after being in contact with the shoulder. The specific manner of this movement is not known. !

An examination of the clothing of the victim disclosed extensive bloodstaining over the Q8 shirt and Q9 T-shirt which is inconsistent with that observed at the scene on specimen Q8. It should be noted, however, that during the normal course of such scene investigations, movement of the victim at or from the scene by investigative or medical personnel may result in stain patterns not specifically relevant to reconstruction of the original events surrounding the incident. Photographs taken before and after such actions often display apparent inconsistencies when attempts are made to relate the stain patterns to the incident itself.

SEROLOGICAL ANALYSES:

Grouping tests conducted on the K3 blood sample and the human blood identified on the below-listed specimens disclosed the following:

K3	"PGM 2-2+, Hp 2, Gc 1F1S"
Q8	"PGM 2-2+"
Q9	"PGM 2-2+, Hp 2, Gc 1F1S"

Attempts to further characterize Q8 were inconclusive. Human blood, too limited in amount for conclusive grouping purposes, was identified on Q11A. Blood, too limited in amount for conclusive origin determination, was identified on Q15. A preliminary chemical test for the presence of blood was positive on a stain of human origin on Q10; however, the presence of blood could not be confirmed. A preliminary chemical test for the presence of blood was positive on stains on Q4A and Q11; however, the presence of blood could not be confirmed due to a limited amount of stain. No blood was identified on Q3, Q4, Q5, Q12 through Q14, Q30 or K1.

Semen was identified on Q10. No semen was identified on Q4, Q4A, Q5, Q8, Q9 or Q11.

DNA ANALYSIS: 3/25

DNA DQ alpha types as listed were detected for the following specimens:

<u>Specimens</u>	<u>DNA DQ alpha Type</u>
K3 (FOSTER)	2,4
K1 (Muzzle portion of barrel)	2,4
Q6F (envelope flap)	
Q6F (stamp)	3,4

Based on the DNA DQ alpha results, the source of K3 is included as a potential contributor to the DNA detected in specimen K1. The estimated percentage of selecting an unrelated individual at random from the population having DQ alpha type 2,4 as detected in specimens K3 and K1, is approximately 6 percent of Caucasians, 8 percent of Blacks and 8 percent of Hispanics.

Based on the DNA DQ alpha results, the source of K3 is excluded as a potential contributor to the DNA detected on specimens Q6F.

There was insufficient DNA for DNA DQ alpha analysis on specimens Q3, Q6E, Q23, Q24 and Q29.

No DNA examinations were conducted on specimens Q6A through Q6D and Q30.

HAIRS AND FIBERS:

Blonde to light brown head hairs of Caucasian origin which are dissimilar to the head hairs in the K2 known head hair sample from Vincent Foster were found in the debris removed from the Q9 T-Shirt, the Q11 through Q11A pants and belt and the Q12 through Q15 socks and shoes. These hairs have been mounted on glass microscope slides and will be preserved for possible future comparisons.

No other hairs which were dissimilar to the known hairs of the deceased and which were suitable for significant comparison purposes were found in the debris from specimens Q4, Q5, Q8 through Q15 or Q31 through Q31C.

Carpet type fibers of various colors were found in the debris from specimens Q4, Q5, Q8, Q10 through Q15, Q31B and Q31C. These colors include white, tan, gray, blue, red and green. These fibers will also be preserved for possible future comparisons. It was also noted that a number of red/dark pink wool fibers were found in the debris from specimens Q9, Q12 through Q15, Q31A and Q31C. The sources of these wool and carpet fibers or their possible significance is unknown to the Laboratory.

No apparent damage, i.e. cuts, tears abraded areas or missing buttons, was noted on the Q4, Q5 or Q8 through Q15 clothing items.

OPTICAL EXAMINATIONS:

The wire frame, dark lens glasses, specimen Q17, are non-prescription Ray-Ban sunglasses. There are subtle indentations on the earpieces, an indication of chewing/biting.

The frames and nose pad appear bent, likely due to damage rather than an intentional adjustment. Due to the type of glasses and the nature of their condition, no physical or visual characteristics of the wearer can be determined.

The second pair of glasses, Sanford Hutton frames, specimen Q18, has tinted prescription lenses:

Right eye	-300 sph +150 x 123 degrees (-150 sph -150 cyl x 33 degrees)
Left eye	-325 or -350 sph +50 x 90 degrees (-275 or -300 sph - 50 cyl x 180 degrees)

The pupillary distance (PD) is 73mm. The lenses are compound, the wearer is nearsighted and has an astigmatism in both eyes. The rose colored lenses were originally grey. The color change is due to sun exposure. Subtle indentations on the earpieces indicate chewing/biting.

The pair of glasses, specimen Q3, has prescription lenses:

Right eye	-125 sph -125 x 20 degrees (-250 sph +125 cyl x 110 degrees)
Left eye	-275 sph - 50 x 175 degrees (-325 sph +50 cyl x 85 degrees)

The PD is 71 mm. The wearer is nearsighted and has an astigmatism in both eyes. Subtle indentations on the earpieces indicate chewing/biting. Also, the earpieces on the Q3 glasses move very easily.

Given the large PD and the prescription of the lenses, the two prescription glasses, specimens Q18 and Q3, could have been worn by the same individual. The small numerical differences regarding the lenses are not significant and could be the result of analytical error when examining the patient, medications taken by the patient concurrent with their examination, analytical error when preparing the lenses or any combination thereof.

MINEROLOGY:

The clothing and the paper on which the clothes were dried, specimens Q4, Q5, Q8 through Q15 and Q31, respectively, did not contain coherent soil. However, a few, small particles of mica were observed in the debris from the clothes the

victim was wearing when he was found by law enforcement authorities, specimens Q8 through Q15, and the drying paper, specimen Q31. The presence of a few, small particles of mica on these specimens is reasonable given the micaceous soil found at the crime scene. Debris recovered from the victim's jacket and tie, specimens Q4 and Q5, found in the victim's car, did not contain like mica.

DOCUMENT:

Indented writing in the wording "VU Parking Ticket" was observed on the back of the Q6b "Ty Tippet" business card.

No other indented writing was observed on specimens Q6, Q16, Q19 through Q22, Q28, and Q29.

PHOTOGRAPHIC:

The 35mm color negatives (Q32) were examined to locate frames for photographic enhancement. The selected frames (5, 6, 7, 8, 9, 10, 17, 18) were printed using Kodak Ultra print paper to produce maximum image detail. Due to the negatives having been underexposed during the photographic process, limited detail could be extracted from each of the selected frames.

KEY EXAMINATIONS:

Specimen Q7 consists of a key ring containing four keys, a plastic tab and a metal tag with the inscription:

THANK YOU
COOK JEEP SALES
Little Rock, Ark.
Ph 374-4848

Examination of the four keys determined they are consistent with the type of keys utilized in door and cabinet locks.

The Q7A key bears the inscription. "U.S. PROPERTY DO NOT DUPLICATE" and has Medeco type cuts. Such cuts indicate that this key was intended for use in high security locks.

The Q7B key is of the type utilized in double bitted cam locks which are used for cabinet drawers, vending machines, lock boxes, etc.

The Q7C and the Q7D keys are conventionally cut keys which are utilized in standard door locks.

FINGERPRINT:

You will be separately advised concerning the results of the requested latent fingerprint examinations.

ADMINISTRATIVE/DISPOSITION:

RFLP DNA examinations are continuing on specimens K3 and Q10 and will take several weeks to complete. You will be advised of the results of those examinations as soon as they are completed.

The photographs produced during the above-mentioned photographic examinations of specimen Q32 and specimen Q32 were returned to SSA Larry Monroe on May 9, 1994.

Specimens Q60 through Q72, Q73 through Q86 and the negatives, photographs and slides produced from the ALSO SUBMITTED film from Laboratory Number 40414002 S QV QW WP AL and specimens Q101 through Q127 were returned to SSA Colombell on May 3, 1994. You will be separately advised concerning the disposition of the remaining submitted specimens.

This report supplements the FBI Laboratory reports to your office dated April 4, 1997 and May 5, 1997. The results of the trace evidence examinations and the instrumental analyses of the carpet-type fibers are included in this report.

The submitted items will be temporarily retained in the FBI Laboratory until picked up by a representative of your office.

FEDERAL BUREAU OF INVESTIGATION
WASHINGTON, D. C. 20535

Report of Examination

Examiner Name:	Douglas W. Deedrick <i>DD</i>	Date:	July 3, 1997
Unit:	Trace Evidence	Phone No.:	(202) 324-4344
FBI File No.:	29D-LR-35063	Lab No.:	70604003 S UJ JA 70604028 S UJ JA 70605022 S UJ JA 70613021 S UJ 70616011 S UJ

Results of Examinations:

The white carpet-type fibers previously found on the victim's clothing (Q9, Q10, Q11-Q11A, Q12-Q15 and Q31B) exhibit the same microscopic characteristics and optical properties as the K7 specimen (carpet sample from basement of 3207 Cambridge Place) and, accordingly, could have originated from the same source as the K7 fibers.

The white carpet-type fiber previously found on the victim's jacket/tie (Q4-Q5) exhibits the same microscopic characteristics and optical properties as the K22 specimen (driver's side front of the 1989 Grey Accord) and, accordingly, could have originated from the same source as the K22 fibers.

A gold carpet-type fiber previously found on the victim's pants (Q11-Q11A) exhibits the same microscopic characteristics and optical properties as the K10 specimen (carpet sample from the NEC Council Suite) and, accordingly, could have originated from the same source as the K10 fibers.

A gold carpet-type fiber previously found on the victim's pants (Q11-Q11A) exhibits the same microscopic characteristics and optical properties as the K11 specimen (carpet sample from MAGGIE WILLIAM's old office, off NEC Council) and, accordingly, could have originated from the same source as the K11 fibers.

A golden brown carpet-type fiber previously found on the victim's socks/shoes (Q12-Q15) exhibits the same microscopic characteristics and optical properties as the K17 specimen (beige fibers adhering to the wall behind the door to

the hallway in HILLARY CLINTON's office) and, accordingly, could have originated from the same source as the K17 fibers.

The Q8 and Q11-Q11A blue and blue-gray carpet-type fibers, the Q11-Q11A light brown carpet-type fiber, the Q11-Q11A gray carpet-type fiber, the Q12-Q15 pink carpet-type fiber and the Q31B orangish carpet-type fibers could not be associated to the submitted known carpet samples.

The pink wool fibers (14) previously found on the victim's clothing could not be associated to the submitted carpet samples. It should be noted that wool fibers are also found in apparel.

FEDERAL BUREAU OF INVESTIGATION
WASHINGTON, D. C. 20535

Report of Examination

Examiner Name: Ronald E Menold II *RM*

Date: 06/18/97

Unit: Chemistry

Phone No.: (202) 324-4331

FBI File No.: 29D-LR-35063

Lab No.: 40324038 S UJ JA
70604003 S UJ JA

Results of Examinations:

The Q31B specimen (FBI Laboratory Number 40324038) and the K7 specimen (FBI Laboratory Number 70604003) contained white fibers.

The Q31B and K7 specimens were examined using Fourier Transform Infrared Spectroscopy and Pyrolysis-Gas Chromatography/Mass Spectrometry.

Based on the examinations conducted, the Q31B white fibers were composed of nylon 6,6 and are of a consistent composition with the K7 white fibers.

FEDERAL BUREAU OF INVESTIGATION
WASHINGTON, D. C. 20535

Report of Examination

Examiner Name: Ronald E. Menold II *RM* Date: July 03, 1997
Unit: Chemistry Phone No.: (202) 324-4331
FBI File No.: 29D-LR-35063 Lab No.: 40324038 S UJ JA
70604003 S UJ JA
70605022 S UJ JA

Results of Examinations:

The Q4-Q5, Q11-Q11A, Q12-Q15, and K10 specimens (FBI Laboratory Number 40324038), the K11 and K17 specimens (FBI Laboratory Number 70604003), and the K22 specimen (FBI Laboratory Number 70605022) contained fibers.

The Q4-Q5, Q11-Q11A, Q12-Q15, K10, K11, K17, and K22 fibers were examined using Fourier Transform Infrared Spectroscopy and Pyrolysis-Gas Chromatography/Mass Spectrometry.

Based on the examinations conducted, the Q4-Q5 fiber was composed of nylon 6 and is consistent with the K22 fiber composition.

Based on the examinations conducted, a Q11-Q11A fiber was composed of nylon 6,6 and is consistent with the K10 fiber composition.

Based on the examinations conducted, the Q12-Q15 fiber was composed of nylon 6,6 and is consistent with the K17 fiber composition.

Based on the examinations conducted, a Q11-Q11A fiber was composed of nylon 6,6 and is consistent with the K11 fiber composition.
