Subject: VINCENT FOSTER'S VEHICLE

Per our meeting on 3/7/95, a review of U.S. Park Police (USPP) records and interviews was conducted, which revealed the following information regarding the vehicle Foster drove to Ft. Marcy on 7/20/93:

Vehicle: 1988, 4 door, grey, Honda Accord. VIN: JHMCA5630KC074057, Arkansas registration RCN 504. On 7/20/93, the vehicle was registered to Vincent Foster, Jr., 5414 Stonewall Rd., Little Rock, AK.

On 7/20/93, during the initial death scene investigation, the vehicle was searched by USPP Officers Braun, Simonello, Rolla, and possibly others. No briefcase was located in the vehicle by these officers. Photos of the vehicle were taken by Braun (Polaroid) and Simonello (under-exposed 35 mm). There are no photos of a briefcase inside the vehicle. Simonello placed evidence tape over the doors of the vehicle, and initialed the tape. The vehicle was towed from Ft. Marcy to the USPP Anacostia office by Raley's Towing, invoice #44284. The vehicle was parked in an outdoor impoundment lot immediately adjacent to the USPP office. The lot was surrounded by a chain link fence with one gate. The gate was secured with a padlock. The lot was primarily used for forfeited vehicles (drug forfeitures), and is no longer present. The padlock is an M20 lock. There was no controlled distribution of the keys to the padlock; many detectives and technicians had their own keys. There was no access logbook for the lot.

On 7/21/93, at 1:45 pm, Officer E.J. Smith inventoried and photographed the vehicle inside the impoundment lot. The evidence tape was still present on the doors of the vehicle. Smith could recall no briefcase inside of the vehicle. Smith's inventory sheet does not list a briefcase. None of Smith's photographs depict a briefcase. According to Capt. Hume, the vehicle would have been left unlocked while inside of the lot. Any valuables would have been removed from the vehicle.

1-Tuohey  
①-Kavanaugh  
1-Gillis  
1- 29D-LR-35063

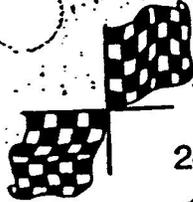

On 7/22/93 at 4:16 pm, Officer Smith returned the keys to the vehicle to the evidence locker.

On 7/27/93 at 9:52 pm, the keys to the vehicle were obtained from the evidence locker by Capt. Charles Hume, the purpose noted on the custody sheet was "to be returned to owner". Capt. Hume stated that he routinely looks through vehicles prior to their release to insure nothing of any evidentiary value was overlooked. Capt Hume did not recall any briefcase inside of the vehicle at this time. He did recall a small canvass bag in the rear seat, which was empty, and some papers in the trunk. He did not recall a pot-holder in the glove compartment.

On 7/28/93 at 2:35 pm, the vehicle was released to Craig Livingstone. The only receipt for the release of the vehicle is the impoundment sheet. There is no list of property which was released with the vehicle.

RESULTS OF INVESTIGATION

On July 21, 1993, I was requested by Sgt. Lawston to process a vehicle which was impounded by this department. The vehicle is presently in the fenced impound lot at CIH-AOF. I arrived at the impound lot at approximately 1415 hours. The vehicle is a 4(four) door HONDA ACCORD. There is only one plate on the rear. The plate is Arkansas RCN 504. There was evidence tape on all doors as well as the hood and trunk. The vehicle was dusted for latent prints and photographed. All items removed from the vehicle will be listed on a Form 43-11.
