THE AMERICAN HISTORICAL ASSOCIATION (AHA)
COMMITTEE FOR THE STUDY OF WAR DOCUMENTS

GUIDES TO GERMAN RECORDS MICROFILMED AT ALEXANDRIA, VA.

The present guide is the first part of several similar publications to be issued by the American Historical Association's Committee for the Study of War Documents. It is the first index of materials microfilmed under the auspices of the American Historical Association. A previous publication, prepared by Ernst Schwandt, Index of Microfilmed Records of the German Foreign Ministry and the Reich's Chancellery covering the Weimar Period, deposited at the National Archives, (1958, 95 p.), covers records microfilmed by the American, British, and French Governments in the preparation of the series Documents on German Foreign Policy 1918-1945.

An American Committee for the Study of the War Documents was established in 1955 as a private group of scholars interested in documentary research and especially in the microfilming of records of foreign origin kept in American depositories. In 1956 the American Committee became a committee of the American Historical Association. Its present Chairman (1958) is Professor Oron J. Hale, University of Virginia, who was preceded by Dean Reginald H. Phelps, Harvard University, and Professor Lynn M. Case of the University of Pennsylvania. An initial Ford Foundation grant and additional funds provided by the Old Dominion Foundation enabled the Committee to undertake the cataloguing and microfilming of declassified German records in the custody of the Adjutant General's Departmental Records Branch (now the War Records Division II, National Archives, previously Military Records Branch, Federal Records Center, Region 3, General Services Administration) at Alexandria, Va.

The plans for screening and microfilming of these materials were prepared by a Subcommittee on Microfilming under the Chairmanship to the end of 1956 of Professor E. Malcolm Carroll, Duke University, and his successor Dr. Fritz T. Epstein, The Library of Congress. Professor Gerhard L. Weinberg of the University of Kentucky directed the microfilming team in Alexandria in 1956/7 which is now under the supervision of Dr. Dagmar Horna Perman.

The present guide is a collection of descriptions of record groups filmed by the Microfilming Project of the AHA Committee. Because the project is not yet completed, this guide will appear in installments.

The American Historical Association expresses its appreciation for the cooperation given to its Committee for the Study of War Documents by the staffs of the War Records Division II, the National Archives and the U.S. Department of the Army.

Executive Secretary, AHA

PREFACE

This Guide is the first of a series of finding aids describing those declassified seized German records in the custody of Military Records Branch, Federal Records Center, Region 3, General Services Administration, that have been microfilmed by the microfilming Project of the American Committee for the Study of War Documents (now the Committee for the Study of War Documents of the American Historical Association). The Guide contains the complete text of data sheets (or target sheets) identifying records filmed. A copy of the data sheet has been filmed at the beginning of each roll.

The present Guide covers the records of the Reichswirtschaftsministerium and related organizations, especially the Statistisches Reichsamt (Reich Statistical Office) and the Suedosteuropa-Gesellschaft (Southeast Europe Society). With the exception of some newspaper clippings and a few folders of purely routine materials, all the records of this Ministry were microfilmed, the total number of rolls being 147. Materials related to the Ministry may also be found in the records of the Ministry for Armaments and War Production and the German Armed Forces High Command.

The terms "Serial" and "Roll" in this Guide refer to the sequence of the film. The "Item" number is the identification symbol on the original folder within the captured records collection. "Provenance" indicates, where ascertainable, the archival origin of the documents whose description follows. The symbol "FT" means that the folder has been filmed throughout, whereas the symbol "FS" denotes that the folder has been filmed selectively. "1st Frame" gives the frame number of the first page of the folder. Every exposure has been given a frame number consecutively throughout the filming operation. The "Notes" provide a general idea of the nature of the materials but should be taken as hints, not exhaustive descriptions. When the German file number could be ascertained, it has been included. The nature of the records filmed makes it necessary for researchers to check the whole guide since no index has been prepared.

The original records of the Ministry are located in the Military Records Branch, Federal Records Center, Region 3, General Services Administration, under Record Group No. 1004. The microfilm rolls are deposited at the National Archives, Washington 25, D. C., under Microcopy No. T-71. Requests for copies of reels or documents should be addressed to the National Archives and should include "T-71" and roll numbers.

			RWM/20(c)	FT	398593	February 1943. Also a statistical report on the foreign workers in Germany as of 10 July 1942. Photostats prepared by 7771 Document Center. Duplicates and duplicates of material in RWM/19(a) omitted.	
6	6	Reichswirtschaftsministerium, Abteilung II Bg., Berg-, Hütten-, und Salinenwesen	RWM/22	FT	398739	Statistical table pertaining to RWM/19(a). German manpower mobilization in 1943. Detailed statistics on the conscription of German men by geographical and occupational divisions (geheime Reichssache). Photostats prepared by the 7771 Document Center.	
			RWM/23	FT	398952	An RWM folder on the economic exploitation of Yugoslavia, 1941-44. Most of the material deals with Croatia; some of it concerns German-Italian rivalry there. Photostats prepared by the 7771 Document Center.	
7	7		RWM/24	FT	399137	RWM folder, Verwaltung französischer Steinkohlenbergwerke, 1939-43. Deals primarily with the administration during the war of French owned coal mines in pre-1939 Germany. Also some material on coal mines in the parts of France annexed to Germany in 1940. Photostats prepared by the 7771 Document Center.	
			RWM/26(a)	FT	399343	RWM folder, Erdöl in der Ostmark, Erd. 101, 1944-45. This is a very interesting folder, containing the monthly reports on oil exploration and production in Austria issued by the Oberbergamt für die Ostmark and by the Dienststelle Ostmarköl of the Reichsministerium für Rüstung und Kriegsproduktion. Also included is a Partisanen-Karte (Russland) of 17 November 1941. Photostats prepared by the 7771 Document Center.	
			RWM/26(b)	FT	399511	RWM folder, Berg- Hütten- und Salinenwesen im Königreich Griechenland, A. XXII.1.120., Bd. 3. Exploitation and control of the mineral resources of Greece, 1942. See RWM/9. Photostats prepared by the 7771 Document Center.	
			RWM/27	FT	399744	Continuation of RWM/26(a), 1942-44.	
			RWM/28(a)	FT	399757	A 1944 contractual agreement on oil concessions in Austria, 1944, probably a part of RWM/24. Photostats prepared by the 7771 Document Center. A group of maps and pictures omitted.	
			RWM/28(b)	FT	399975	RWM folder dealing with the revision of the Pfundtner-Neubert handbook on German law in regard to mining in Austria and the Sudetenland, 1940-42. Photostats prepared by the 7771 Document Center.	
			RWM/29	FT	400183	RWM folder, probably from the same files as RWM/28(a), containing documents on the changes in German and Austrian law occasioned by the annexation of Austria, 1938-40. Though some of the documents are of general interest, most of them pertain to the field of mining. Photostats prepared by the 7771 Document Center.	
						RWM folder, Reichseigener Braunkohlenbesitz im Sudetenland, K 506. A folder on the coal mines in Czechoslovakia taken over by the various holding companies such as the Sudetenländische Bergbau AG established by the Hermann Göring Werke, 1941-42. Quite interesting as it contains minutes of the Aufsichtsrat meetings. Also included is information on the fate of the Fetschek holdings. Photostats

14	14	Südosteuropa-Gesellschaft	RWM/115	FT	404841	officials of the Reichswirtschaftsministerium as Frank, Schlotterer, and Ter-Nedden. Three files of the Südosteuropa-Gesellschaft. The first contains the Schlussprotokoll der Besprechungen zwischen dem ungarischen Ausschuss für Wirtschaftsorientierung und der Südosteuropa Gesellschaft über die Richtlinien für die Freigestaltung im ungarisch-deutschen Warenverkehr, 29 June 1943. Joint recommendation to the two governments. The second file contains various geheime documents. The first is a memorandum on the role of the SOEG within the New Order, 1943, with related documents. Very interesting stuff. Then there are some statistical tables on the importance of the Donau- und Alpenreichsgaue, Bayerns, des Protektorats, and Ober- und Niederschlesien for the Greater German economy, 1937-39. Then there is correspondence relating to the change in the position of Geschäftsführer (apparently Augenthaler replaced Heinrichsbauer in 1943). These documents reveal something of the internal controls of the SOEG. There is a vertraulicher Aktenvermerk on the new position of Gesandter Neubacher as Sonderbevollmächtigter Südost of the Auswärtige Amt, 27 October 1943, and his powers and activities. There is a geheime statistical table on German trade with the countries of Southeast Europe, 1937-43. The third file, marked geheim, contains 1. a "Niederschrift über die Besprechung im OKM [Oberkommando der Marine] am 1.4.1943 über die Herstellung der Donaukarte im ausserdeutschen Gebiet." 2. a memorandum, probably written in 1944, on the "Einsatz von Arbeitskräften aus Südosteuropa," in German war industry. 3. Geheime statistics of German exports of industrial products altogether and to Hungary, 1938-43.	
			RWM/116	FT	404940	Südosteuropagesell. file containing two items. First, a vertrauliche Aktennotiz on a conference in September 1942 concerning the Südost-Ausschuss, the Länder-Ausschüsse and Reichsgruppe Industrie representation in them. The second item is a group of geheime statistics on the export trade of Southeast Europe, 1936-38. Duplicates not filmed.	
			RWM/117	FT	404980	Copy No. 14 of Schriften der Südosteuropa-Gesellschaft, Die Industrie im Südosten, "Die Zementindustrie im Südosten," geheim, Vienna, 1944. Analysis and statistics by country: Slovakia, Hungary, Croatia, Serbia, Rumania, Bulgaria, Greece, and Turkey. Worked on in the Münchner Institut für Wirtschafts- und Konjunkturforschung and in the Deutsche Institut für Wirtschaftsforschung, Berlin. The printer's plates for the charts and maps have not been filmed as all the charts and maps are included in this, apparently the archive, copy.

			RWM/138	FT	405702	Item of unknown provenance. Memorandum, "Die Stickstoffindustrie in der UdSSR," 14 July 1941, issued by the Stickstoff-Syndikat G.m.b.H., Abteilung Statistik.	
		Oberkommando der Wehrmacht, Wehrwirtschafts- und Rüstungsamt;	RWM/139	FT	405742	A group of documents, put together sometime after capture, but originating for the most part in the files of the OKW, Wi Rü Amt. They deal primarily with the position of the Generalbevollmächtigte für die Kriegswirtschaft and the relations of the Wi Rü Amt with it and some other offices, 1937-39. The documents are quite important for the origins and role of the office of the Generalbevollmächtigte. Included in the folder is a one page stray item, "Entwurf einer Dienstweisung für das Kriegsamt (K.A.), Zu Nr. 601/30 Pl. wa A-wi," presumably a 1930 plan for the organization of economic mobilization office like the later Wi Rü Amt.

						tion and exploitation of the occupied parts of the USSR. Apparently in 1944 the Reichswirtschaftsministerium lost its files on the various corporations established to deal with the economy in the occupied area, such as Ostland Öl, Stickstoff-Ost, Roges, and the others. (Probably the files had been destroyed in an air raid). The RWM asked all these corporations to send in their basic data: Gesellschaftsvertrag, size of capital, members of the Verwaltungsrat, Geschäftsführer. This file contains the answers of the corporations and thus gives a comprehensive view of the various corporations concerned. The envelopes at the end of the folder were empty when the material was screened. RWM/23/51-53 were probably once part of this document.	
			RWM/145	FT	406058	A folder of unknown provenance containing the "Anlagen zu der Arbeit: Die Durchführung von Zusammenlegungen (Stilllegungen) in der Industrie während des Krieges 1914-1918, Darstellung und Beurteilung, I. Teil," no date. Copies of documents from German World War I official files gathered as an annex to a historical study, nur für den Dienstgebrauch.	
			RWM/147	FT	406157	A folder of the Reichsstelle für Baumwollgarn und -gewebe dealing primarily with the question of getting the cargoes of German ships through the blockade, of 1939-41. Also included are documents of general interest for the German economy in that period.	
16	16	Reichswehr, Waffenamt; RWM/1/1	FT		406512	An item from the files of the waffenamt. A manuscript prepared in 1925 by Gustav Wesemann, "Die Technik und Wirtschaft im Weltkrieg," for General Wurtzbacher in the waffenamt. The manuscript deals with German experience in the matter of introducing new and improved weapons and equipment in world war I and was not intended for publication. There are marginal comments of considerable interest. Only the first 159 pages out of over 200 have been found. Very interesting on the organization and operations of German world war I leadership in the weapons field.

			RWM/1/2	FT	406666	A manuscript of unknown provenance or date, probably 1932, entitled: "Einfluss des Versailler Vertrages sowie der technischen und wirtschaftlichen Entwicklung der deutschen Industrie seit Beendigung des Weltkrieges auf die Kriegswirtschaftlichen Grundlagen Deutschlands. (Nur zu behandeln fabrikatorische und Rohstofflage), welche Folgerungen ergeben sich hieraus für einen zukünftigen Verteidigungskrieg Deutschlands unter den heutigen Verhältnissen." Very interesting on the German economy in the 1920's.

			RWM/15/1	FT	440518	A document of unknown provenance, date, or author. It is a manuscript entitled "Wirtschaftslage in Deutschland im 1. Vierteljahr 1936." It is based on published sources. The document was apparently written in the spring or summer of 1936 by an individual with Marxist leanings. The memorandum presents a very interesting and useful analysis of the problems into which the German economy had gotten by the year which saw the beginning of the Vierjahresplan.	
			RWM/15/2	FT	440538	A folder of the OKH, Gruppe Ausbildung, containing the Nachweis der Soll- und Ist stärken der Baubeamten (Heer), 1. 						23) dealing with German-Iranian trade under the so-called Leese-Rahmen-Vertrag, a trade agreement signed in March 1936 between the government of Iran and the Ferrostaal A.G. (represented by a Mr. Leese) on behalf of a consortium of German firms. The agreement was to be a means, if not the main means, of German economic and political penetration of Iran, and the documents in these folders show that the individual contracts within the Rahmen-Vertrag (which provided for up to 80 Million RM trade) were signed under great political pressure and in spite of heavy losses to the German firms. The losses were then covered, at least in part, by the German government through the ZAV (Zusatzausfuhrverfahren). The first of the folders (Beiheft 2) concerns the first main contract for rolling stock for the new Transiranian railway, 1937-39.

This group of documents, without date, deals with efforts to study German experience in World War I on the basis of published works and the files of the Preussisches Kriegsministeriums. There are copies of the relevant passages and documents pertaining to the causes and effects of certain shortages on German military operations (tanks, munitions, food). The initial on the one marginal comment ("Mit Dank zurück an Herrn Oberst Jansen") is that of General Thomas, chief of the Wi Rü Amt. The folder also contains a list of historical studies kept in the Archiv of the Reichswehrministerium, Heeres-Ausbildungsabteilung. The folder therefore probably dates from before the establishment of the OKW in February 1938.

			RWM/20/45	FT	597194	A file of miscellaneous information. It contains material on a German effort to assess the economic gains made by the Soviet Union as a result of its occupation of part of Poland in the summer and fall of 1944, material on Slovakia and Switzerland, 1943, and minutes and other documents showing the workings of the Statistisches Reichsamt, 1942-43.	
			RWM/20/78	FT	597424	Volksdeutsche Mittelstelle, "Verzeichnis der Neueingänge, die bis zum 30.4. 1943 eingegangen und bearbeitet sind," Berlin, mimeographed. Evidently material on the economic situation of the Volksdeutsche collected for some sort of periodic reporting. See RWM/20/79.	
			RWM/20/79	FT	597441	This vertrauliche "Verzeichnis der Neueingänge die bis zum 31.5.1943 eingegangen und bearbeitet sind," is clearly a continuation of RWM/20/78.	
			RWM/20/80	FT	597465	Statistisches Reichsamt, Auslandsforschung, "Das Menschenpot. der Mächtegruppen," vertraulich, mimeographed, July 1943. A short but interesting compilation. Duplicate omitted. See RWM/20/81.	
			RWM/20/81	FT	597476	Statistisches Reichsamt, Auslandsforschung, "Das Menschenpotential der Mächtegruppen, Zweite Bearbeitung," vertraulich, mimeographed, March 1944. Very interesting supplement to RWM/20/80. Covers not only numbers of population in total figures but also productivity per worker, age distribution, etc.	
95	95	Statistisches Reichsamt, Abteilung Ausland	RWM/20/86	FT	597484	Material on the oil supplies and industry of the Soviet Union, 1944.	
			RWM/20/87	FT	597509	Part of a publication on the metal mining and processing industries of the USSR, 1943.	
			RWM/20/88	FT	597580	Newspaper clippings on Albania, 1944. Photostats prepared by the 7771 Document Center.	
			RWM/20/102	FT	597651	File of statistics on the Baltic States, Finland and Rumania, 1943.	
			RWM/20/106	FT	597920	File of statistics on the economy of the United States, 1942-44, filmed to show something of what the Germans knew or assumed. Many of the documents are reports from published sources transmitted by the Reichssicherheitshauptamt, Abt. VI Wi.	
			RWM/20/109	FT	598028	Clippings on Manchuria, Hong Kong, Mongolia, Shanghai, 1942-44.

This is probably the descriptive material for RWM/73-89 and 104-107 on T-71, Serials 9 and 13.
97	97		RWM/20/116, 117, 113, 118-139	FT		A series of reports, marked nur für den Dienstgebrauch and containing a section marked geheim, covering German industrial production on a monthly basis. They were issued by the Reichsamt für Wehrwirtschaftliche Planung, later called Abteilung VIII in the Statistisches Reichsamt. The reports are mimeographed and entitled "Monatszahlen über industrielle Produktion." The Geheim section inserted at the front is entitled "Sonderblatt, Produktionszahlen mit besonders geheimem Charakter." Geographic basis is Greater Germany with specific area details recorded. Some of the copies probably come from the files of the OKW, Wi Rü Amt.
