Legat Minnich called from London at 1:35 p.m. (D.C. time). He advised the extradition request had been formally given to the Foreign Office, London, and delivered to the British Home Office. Minnich states the British authorities hope they can hear the extradition proceedings on June 21st. He pointed out that in the event the extradition proceedings result in the Magistrate ordering Ray extradited, then a 15-day waiting period would occur. This is a mandatory requirement in which the defendant would have a chance to appeal the decision of the Magistrate. The above solely refers to the extradition proceedings.

The other procedure which is under way is the hearing on the English charge that Ray came into the country using false passport and also had a revolver in his possession. In this connection, Minnich states this hearing, which is set for June 18th, may possibly require the presence of ~~George J. Bonebrake~~ George J. Bonebrake, a Latent Fingerprint Examiner assigned to our Identification Division who handled the fingerprint identification in this case. I have advised Trotter with reference to this possibility and the fact Bonebrake may be needed, in which event he would have to make preparations now in order to be ready to depart on very short notice.

The Memphis Office is trying to locate Charles Q. Stephens for the purpose of having him execute an affidavit. He is the individual who was in the rooming house in Memphis occupied by subject Ray at the time of the commission of the offense. It is possible they may desire to have a Laboratory representative appear with reference to some of the evidence relating to the clothing and personal effects which were picked up as evidence in this case. It is recalled that certain of the hairs and fibers which were found on the bedspread matched the hairs and fibers which were found in a sheet which was found in a car in Atlanta abandoned by Ray. I have alerted Mr. Conrad concerning the possibility a Laboratory expert may be needed to proceed to London on short notice.

SUBJECT: MURKIN

This is the case involving the murder of Martin Luther King, Jr.

The attached memorandum is being furnished to Assistant Attorney General Stephen J. Pollak of the Civil Rights Division in view of the fact the Attorney General has stated that he wanted Pollak to divorce himself from other work and to supervise this case. The Attorney General also asked that Pollak be kept advised of pertinent information in this case. The material contained in the attached memorandum has been taken from cablegrams and teletypes, and Pollak is being informed that the information is based on preliminary communications and complete details will be incorporated in reports setting forth results of investigation.

Briefly, material being submitted concerns information that Robert McDouldton has identified himself to the Toronto Police as the "fat man." He claims he found an envelope in a telephone booth and delivered it to Sneyd, the name Ray was using, at the Dundas address and that this was his only connection with the subject. Also included is an itemization of articles found among the effects of Sneyd at the time of his arrest in London including the revolver, camera, transistor radio, and articles of clothing.

Information is also being included that an individual using the name R. W. Trotter telephoned the Pentagon on June 7, 1968, claiming he was the killer of Dr. King and knew the girl in the polka dot dress who was at the scene of the shooting of Senator Kennedy in Los Angeles. Trotter was interviewed and denied making the phone call, and denied having any information concerning the murder of Dr. King or Senator Kennedy. He has a general reputation in Cunningham, Tennessee, his place of residence, of being unreliable, untrustworthy, and an alcoholic.

Rosen to DeLoach memorandum
RE: MURKIN

In addition, the following information is also included: Charles Q. Stephens, the "wino" who was a witness in the rooming house in Memphis when the shooting occurred, has been located in Memphis by FBI Agents; the .38 caliber revolver Ray had in his possession when apprehended in London, has been traced to a man in Birmingham, Alabama, who sold it to an unknown individual answering Ray's description in October, 1967, (Ray was residing in Birmingham at that time); Ralph M. Carpenter, the York Arms Company employee who sold the binoculars to the subject, is confined to a mental institution, however, the physician in attendance stated that it is his opinion that Carpenter is competent when not involved in his current disorder and that it should have no bearing on the previous information he furnished; Ray was in Lisbon, Portugal, May 8 - 17, 1968, and reportedly consorted with local women; Ray is presently being held in Wandsworth Prison under unprecedented security provisions; Scotland Yard is continuing extensive investigation to develop information concerning Ray's activities in London; and that among Ray's effects at the time of his arrest was a memorandum or article setting out detailed description of the theory and specifications regarding silencers for firearms.

ACTION:

This case is continuing to receive high priority and the Department will be kept advised of pertinent facts.

Legat Minnich called from London at 6:40 a.m., (D. C. time) and spoke to extra duty supervisor Louis E. Rhyne. He advised at the request of Assistant Attorney General (AAG) Vinson, he had ascertained from New Scotland Yard that in the British Courts the fingerprint expert needs sixteen points of identification in fingerprint testimony. This information was given to Vinson by Minnich and he, Minnich, suggested this information be furnished latent fingerprint examiner George J. Bonebrake.

Minnich advised that AAG Vinson is leaving London today at 2:30 p.m. (London time) via Pan American Flight #107 and is due to arrive at Dulles Airport approximately 5:15 p.m. (Washington time). Vinson or some other member of the Department or both will fly back to London a day or two before the extradition hearing. It is believed at the present time that this hearing will be held on June 21, 1968. Latent fingerprint examiner Bonebrake was advised of the above information relating to fingerprint testimony.

Dear Sir:

Your letter of June 6th has been received, and I appreciate receiving your communication.

As you are now aware, James Earl Ray, who was sought by this Bureau in connection with the slaying of Martin Luther King, was arrested on June 8th in London, England, and is now awaiting extradition to the United States to face charges of murder in the State of Tennessee.

Sirhan Bishara Sirhan, the accused murderer of Senator Kennedy, is currently in custody of authorities in Los Angeles, California, to face trial on state charges of murder and assault there.

Dear Mr. Hoover

MURKIN

I have just read in today's Los Angeles Times of James Earl Ray's arrest in England. The article was written by Robert L. Jackson, from Washington (a Times Staff Writer)

The article mentioned the fact that it is not known in what way Ray arrived in Canada. — — It is this reason that I write this letter to you.

Three or four (maybe five) days after Martin Luther King was killed, I was in the lobby of the Shel-Mar hotel and saw a man register for a room. Later, I saw pictures of the man that killed King. These pictures didn't register in my mind as being the man that I saw register at the Shel-Mar hotel here in Long Beach. Then one day I saw another picture which had not been shown of Ray before, it was this picture that I recognized as being the man who would register for a room at the Shel-Mar hotel. I then went to the office of the F. B. I. and reported my story described above. About one hour after going to the F. B. I.'s office, I brought
