Source on this occasion was shown copies of photos of JAMES EARL RAY (44-1368 MURKIN) and re-alerted concerning this matter. He was not able to furnish any pertinent information in this regard at this time.

Source advised from contacts with friends, neighbors, and association with members of the Negro community in the Philadelphia area, including persons familiar with activity in the area of Philadelphia Benjamin Franklin High School, it has come to his attention there is a Black Power group in existence at Benjamin Franklin High School, Broad and Green Streets, Philadelphia, Pa. He added the group is actively recruiting additional members at the school presently and now numbers about 70 to 80 members. He said it is his understanding the group has not accumulated any weapons or ammunition to date and does not contemplate any violence or injury to others.

Source said the members of the group can be identified easily as they wear buttons with a symbol of the world thereon, over a black letter W. The buttons signifies Black Power.

Source said the group does have a headquarters located near Benjamin Franklin High School which he will attempt

to identify. Leaders of the group are Benjamin Franklin  
High School students JOSEPH SAVAGE, CLYDE WARREN, and  
GARY AUSTIN.

In order to cover the possibility that subject may have died since commission of the crime, the U. S. Census Bureau and Department of Health, Education and Welfare were contacted and they advised that no central records of unidentified deceased are maintained by those agencies. It was suggested that each state may maintain such a record in their Bureau of Vital Statistics or similar agency.

There is no known Federal law requiring the maintenance of such information; and it is possible that if any record of unidentified dead is maintained, it would only be maintained at local police departments, morgues, medical facilities, or the like.

Each office covering state capitals should check to ascertain if such records are maintained, and if so, should check records for the period from 4-5-68, to date, for any information which might possibly identify subject Ray with unidentified deceased person over that period.

If there is no central record repository maintained in the various states or nationally in the case of Mexico and Canada, you should, in connection with your contacts with law enforcement agencies on this case or other Bureau matters, make appropriate inquiries relative to

In order to cover the possibility that subject may have died since commission of the crime, the U. S. Census Bureau and Department of Health, Education and Welfare were contacted and they advised that no central records of unidentified deceased are maintained by those agencies. It was suggested that each state may maintain such a record in their Bureau of Vital Statistics or similar agency.

There is no known Federal law requiring the maintenance of such information; and it is possible that if any record of unidentified dead is maintained, it would only be maintained at local police departments, morgues, medical facilities, or the like.

Each office covering state capitals should check to ascertain if such records are maintained, and if so, should check records for the period from 4-5-68, to date, for any information which might possibly identify subject Ray with unidentified deceased person over that period.

If there is no central record repository maintained in the various states or nationally in the case of Mexico and Canada, you should, in connection with your contacts with law enforcement agencies on this case or other Bureau matters, make appropriate inquiries relative to

For your information and investigative assistance, subject James Earl Ray took a bartending course in Los Angeles, California, during the early part of 1968, and prior to his departing Los Angeles, in March of 1968, he made several telephone calls to country clubs in an effort to obtain employment.

This should be borne in mind in covering leads in connection with this and other cases.
