

## **BIA Agencies Represented in the Central Classified Files, 1907–1939**

The following Bureau of Indian Affairs (BIA) agencies, jurisdictions, schools, and field units are represented in the series, “Central Classified Files, 1907–1939” (Entry PI-163 121A in Record Group 75; National Archives Identifier [300324](#)). This series is housed at the [National Archives Building in Washington, DC](#) (Archives 1).

For each agency, we list the approximate start and end dates of the records, as well as the number of boxes available (extent). We also include National Archives Identifiers (NAIDs) that lead to the agency’s organization authority record(s) in the [National Archives Catalog](#), if available. At a minimum, the authority records link to catalog descriptions of records created by that agency, which can be helpful for identifying other records of interest. Sometimes the authority records also include a brief administrative history of the agency.

Note that BIA agencies and jurisdictions changed over time, as did the tribes that they served. Records related to a particular tribe might therefore be scattered throughout multiple agencies and area offices in this list. See [Navigating Record Group 75](#) for a list of BIA agencies and the tribes that they served at different points in time. The list is arranged by state and thereunder by tribe.

The BIA usually maintained general policy documents and records related to multiple tribes or jurisdictions under separate headings. For a list of these headings, see page 10 of this document.

For agencies represented in later CCF records, see:

- BIA Agencies Represented in the Central Classified Files, 1940–1957
- BIA Agencies Represented in the Central Classified Files, 1958–1975

For questions related to these records, please email the Archives 1 Reference Branch at [archives1reference@nara.gov](mailto:archives1reference@nara.gov).
