

RESEARCHER NOTICE

December 12, 2017
(update from original notice)

Work dates are now December 22–January 18

The National Archives at College Park (Archives II) will undergo temporary closures in the Researcher Registration Room 1000 and part of the ground floor security entrance to the research complex between **December 22, 2017** and **January 18, 2018**.

Researcher Registration Room 1000

Room 1000 will have a temporary closure during a re-cabling improvement project. Due to the nature of the work, the project may extend beyond mid-January. The temporary location for researcher orientation and researcher cards will be conducted at a desk in the main ground floor lobby.

Security Entrance to Research Complex

The ground floor security entrance to the research complex will have a temporary and only partial closure. Researchers will have full access to the research rooms but please anticipate longer wait times to enter and exit the research complex. The work will be done at the same time as room 1000.

We will post updates and have status information on the main phone line (301-837-2000) for Archives II. We appreciate your patience.

Please submit questions to Michael Knight, Branch Chief, Research Services, Research Room Operations at 301-837-0475 or Michael.Knight@nara.gov.
