Qc36 was found to have been recorded at a non-standard speed on $\frac{1}{2}$ -track recorder and contained an interfering hum. A copy of **Qc36** was made by playing back **Qc36** on a variable speed recorder adjusting the speed for a natural sound and equalizing the frequency response to enhance intelligibility.

The submitted **Qc36** and two copies made as described above are being sent to Los Angeles under separate cover via registered mail.

A large, stylized handwritten signature in dark ink, likely belonging to a forensic analyst or supervisor, is written across the lower left portion of the page.

Remarks:

It is noted that one portion of Qc36 near the middle of the recording appears to be either part of some prior recording that was not recorded over or part of a recording made over the original recording. The material during this section of the tape appears unrelated to other parts of the tape.

One copy of Qc36 is furnished for dissemination by you to the Los Angeles Police Department.

A determination as to whether any of the recorded material on Qc36 relates to the assassination of Kennedy was not attempted by the Laboratory since it is felt personnel in the Los Angeles Office familiar with the case would be in a better position to make such determination.

Re; STUS PRUSZYNSKI.

Re Los Angeles airtel to Director dated 12/19/69,
 Bureau letter to Legat, Ottawa, dated 2/26/69, and Bureau
 letters to Los Angeles dated 5/6/69 and 6/30/69.

Investigation developed information that PRUSZYNSKI
 was at the Ambassador Hotel when Senator KENNEDY was assaulted.
 He was assigned to the Kennedy Campaign as a reporter for
 Harper and Row Limited, Publishers, London. He made a tape
 recording of the events immediately subsequent to the assault
 which was made available and forwarded to the FBI, Laboratory
 for examination. Due to the poor quality of the original
 recording, the Laboratory reviewed the tape and made a dubbing
 from the original recording in an effort to enhance the
 intelligibility and reduce an interfering hum. The Laboratory
 suggested that the Los Angeles Office review the tape for any
 possible leads.

The Laboratory also provided an extra copy of the
 tape for dissemination to the Los Angeles Police Department.

A review of the recording was made at Los Angeles,
 however, it does not appear that anything pertinent to this
 investigation is contained on the recording.

The efforts conducted by the Laboratory to enhance the intelligibility of the original recording are greatly appreciated, however, a copy of the recording is not being disseminated to the Los Angeles Police Department inasmuch as it does not appear to be pertinent to this investigation.

RE: STUS PRUSZYNSKI.

Reurairtel 7/18/69.

In view of the circumstances surrounding receipt of the tape recording referred to in referenced communication and inasmuch as all other data relative to our investigation into the assassination of Robert F. Kennedy has been made available to the Los Angeles Police Department, a copy of the tape in this instance should likewise be furnished that agency.
