On 10/17/68, Mrs. JOHANNA WIDMAN, 8125 Devenir Avenue, advised that she was the person who called the FBI, Los Angeles, identifying herself as Mrs. JEAN JONES. She also stated that she furnished a fictitious phone number to the FBI, Los Angeles. Mrs. WIDMAN stated that there is no one by the name of JEAN JONES, but that she sometimes has mail addressed to her by this name. Mrs. WIDMAN stated that after thinking it over, she had no information concerning the KENNEDY assassination or any conspiracy related to it.

It will be noted that Mrs. WIDMAN is a quiet elderly widow, who appeared to be emotionally upset and could not understand why a representative of the FBI would be contacting her. She was advised that she was being contacted as a result of the telephone call she made to the FBI on 10/16/68.

In view of the above, it is recommended that no further action be taken concerning Mrs. WIDMAN, aka JEAN JONES.

On 10/14/68, Dr. John Holloway, Deputy Medical Examiner, Los Angeles County, California, telephonically contacted the Laboratory at the request of the Chief Medical Examiner for Los Angeles, Dr. Thomas T. Noguchi. Dr. Holloway stated that in a recent conference at the White House relative to this case, President Johnson expressed the desire to Dr. Noguchi to have a Federal laboratory conduct neutron activation analyses on certain items of evidence collected by the Los Angeles, California, Police Department and his office.

Dr. Holloway was inquiring if the FBI Laboratory could examine by neutron activation analysis methods a specimen bullet, foreign metallic deposits on a piece of bone and several biological specimens containing foreign metallic deposits. The purpose of such examinations is to show that the foreign metal deposits originated from a bullet of the same lot as used by assassin Sirhan Bishara Sirhan.

It was explained to Dr. Holloway that it was doubtful that such conclusions could be reached from such analysis and that at best, it might be concluded that the foreign metal smears could have originated from a bullet of similar composition. Our policy of not examining materials previously examined by other laboratories was also defined to Dr. Holloway. Dr. Holloway was not certain as to what examinations had been made but stated he would find out.

Upon conclusion of the discussion, Dr. Holloway advised that he would contact Dr. Noguchi and subsequently make a formal written request setting forth the examinations desired and the extent and nature of prior analyses. Dr. Holloway was advised that upon receipt of such information, the Bureau could then determine whether or not we would consider making any analyses.
