4 SEPORT OF FROMES

(MISCELLANEGUS) On 17 June 1970, Hanuel NEW AGUILAR was interviewed at the Miami Field Office, Region III, 111th MI Group, Miami, Florida, regarding information HE volunteered concerning an anti-Castro Cuban exile group called Frente Revolucionaria Anti-Communista en Cuba (FRACC) (Anti-Communist Revolutionary Front in Cuba), of which HE claimed to be a leader. AGUILAR, & jeweler employed by Kappy's Jowelry Store, 1423 Washington Avenue, Miami Beach, Florida, who resides at 458 SW 10th Street, Miami, stated in substance as follows:

In approximately 1959, SUBJECT helped form FRACC in Cuba when it became known that the Castro regime was turning Communist. SUBJECT claimed that at that time HE was a member of Castro's Naval Intelligence. HE alleged that HE attempted to obtain help from the American Embassy, but the only help HE received was from a COL Samuel Louis Bouque (phonetic), then the US Military Attache, who made personal donations to FRACC but offered no official help. When SUBJECT could not obtain official aid, HE and the other members of FRACC went underground. Source declined to reveal the names of other persons in FRACC for fear of jeopardizing their security since some members were still in prison in Cuba. In approximately March 1961, SUBJECT escaped from Cuba when HE learned that HE was being investigated for subversive activities. Since coming to the US, HE has been working with about 50 persons living in various parts of the US in order to send aid to members of FRACC in Cuba. SUBJECT declined to reveal the names of these members in the US. As yet, FRACC has only been able to send very small amounts of aid to FRACC at sporadic intervals and through clandestine means. They do not have any stockpiles of arms or material and do not plan to initiate any action without the approval of the US Government. There is no formal organization of FRACC in the US; however, SUBJECT claimed that the FRACC members in the US could be organized and trained in a matter of four or five weeks to send supplies and arms to Cuba. SUBJECT believed that there were approximately 4,000 to 10,000 persons in Cuba who would support FRACC immediately if they had assurance that FRACC did, in fact, have supplies and the support of the US. SUBJECT claimed that HE was in contact with members of FRACC in Cuba (some still in prison and others in high positions within the Cuban military), NFI, who were awaiting support. SUBJECT had no definite military plans but believed that FRACC could overthrow the Castro regime from within, rather than by means of an invasion involving the US, if they had the proper supplies and support. SUBJECT was referred to the Miami Field Office by Roy Hargrave, presently a patient at Palm Springs General Hospital, 1475 W 49th Street, Hialcah, Florida. Through Hargrave, SUBJECT met an individual who claimed to be a Captain _n the US Army Reserves, not further identified, who stated that he could train SUBJECT and the other members of FRACC.

ACENT'S NOTES: The interview of SUBJECT was conducted in the Spanish language. HE appeared to be sincere, truthful and was completely cooperative

(MISCELLANEOUS) On 18 June 1970, Mr. Roy Emory Eargraves, who resides at 9515 SW 95th Avenue, Mizmi, Florida, telephone 226-4646, and who was born 14 February 1940 at Saint Louis, Missouri, was interviewed in his hospital room, 361B, Palm Springs General Hospital, 1475 49th Street, Hialeah, Florida, where he is in convalescence from a ruptured spine. Hargraves, who has known Manuel AGUILAR stated in substance as follows:

Source became interested in becoming a mercenary in 1961. He later came to Hiami and was able to gradually work himself into the ranks of volunteer mercenaries within the area who wanted to go to Cuba to assist in the overthrow of the Castro regime. Hargraves met Gerald Patrick Hemming, whose present address is 2668 Santa Anita Avenue, El Monte, California, telephone 442-3641. Hemming, referred to by Source as "Jerry", is presently the president of a Los Angeles Ironworker's Union but was, at the time, working for a private patrol agency or investigative agency out of Rosemead, California. The owner of the agency Pas FNU Moses. Jerry was the organizing force behind the volunteer military scructures from 1962 to 1964. While working for Herming, Sou se met Felipe Vidal-Santiag who had been the Chief of Maritime Police under Castro and later became to Military Attache to Columbia, South America. Santi' 30 defected to the US in . 360. It was through Santiago, in 1961, that Source met SUBJECT who is also nown as "Minola". According to Santiago, SUBJECT could be trusted, was 1 vel headed but was apt to disobey orders when HE felo that there was something more important to do. Santiago related that SUBJECT had worked for Raul Castro's right-hand man, a seven-foot Negro named Hect:, Aldamas. Following Santiago's defection to the US in 1960, he repeatedly sent money and supplies into Cuba by way of SUBJECT. SUBJECT was the con at man and was sending out reports, but suddenly, without warning, HE lef, the island and came to the US in 1961. HE was not known to lie about any matters, but Santiago believed HIS reports to be somewhat exaggerated.

Prior to working under Castro's administration, SUBJECT had spent nine years as a cell leader against the Batista regime. It was during this period that HE had organized a large group of persons who worked under HIS control. Source could not recall the name of the organization but submitted that the people who worked for HIM then are now some of the top officials in the Castro administration.

SUBJECT approached Source approximately four days ago (15 June 1970) and related that HE had ; plan HE wanted to execute against Cuba. HE stated that HE had the organization and the people and that HE felt certain that HE could make it work. HE stated that HE wanted to take the plan to the "right"

4 MINORT OF FROMES

people in order to obtain US support. HE related to Source that HE was willing to obtain certain items from within Cuba in order to prove HIS worth and ability. HZ proposed to have some of the top officials defect to the US; the defection of the majority of a crew, to include the Captain, of a new KOMAR patrol boat; and the obtainment of the newest jet aircraft supplied to Cuba by the Soviet Union. In return SUBJECT wanted a guarantee that the persons coming out of Cuba would be free to remain active against Castro, as opposed to being sent into exile somewhere in the US. Additionally, SUBJECT wanted to retain the KOMAR for action against Cuba or be supplied with a vessel of similar features with which to operate. SUBJECT related that HE already has an island chosen to use as a base of operations, however, Source could not supply the name or location of the island. SUBJECT retains a strong feeling that if the people who defect to the US, during this demonstration of ability, are left to operate against Castro, then the people inside Cuba will rapidly join the movement. The defection of the KOMAR patrol boat, as well as the jet aircraft, can be accomplished in a matter of a few weeks. SUBJECT is simply waiting for the "green light" from someone in a high position.

As an additional requirement SUBJECT stated that following HIS successful procurement of material and people, HE wanted a guaranteed pipeline of supplies and equipment from HIS base of operations to the guerilla units operating inside Cuba. Proposed methods of infiltrating the material into Cuba were described as beach landings, which would be simplified by the fact that SUBJECT has access to the patrol schedules of Cuban and Russian vessels operating around the Cuban mainland. Additionally, SUBJECT presently has people of the organization poised to sabotage radar installations along the Cuban coastline.

In reference to the organization, allegedly active within Cuba as well as the US, and under the explicit control of SUBJECT, Source mentioned that "cells" were organized throughout Cuba as well as dispersed in the US. SUBJECT has maintained contact with all of the cell leaders by an unknown method. Names of the members could not be furnished; however, Source stated that he visited SUBJECT unannounced and met two individuals whose names he could not recall, however, he believed them to be members of Alpha 66. Source questioned SUBJECT concerning the men and Alpha 66, and SUBJECT stated that HE would not include them in any activity or proposed plans because HE knew that plans of Alpha 66, once formulated, were common knowledge in Cuba hours after the plans are conceived. Source believed the name of one of the individuals was Minola Ray. Source also believed that SUBJECT'S organization had a training area in the Dominican Republic.
