Scope and Content
This series of records includes printed email, memoranda, correspondence from outside organizations, lists, agendas, remarks, talking points, press conference transcripts, and publications such as newsletters, photocopied news articles, policy memoranda, website printouts, and reports. Content covered in the records include domestic policy strategy, personnel planning, budget planning, and welfare reform. Materials also include administrative documents, such as scheduling requests and correspondence with organizations, travel planning documents, and calendars. Records in this series also highlight environmental policy, disaster relief including Hurricane Floyd recovery efforts, clean-up of brownfields and superfund sites, automotive fuel economy standards, and restoration of the Everglades. Additional documents include weekly reports from the Council on Environmental Quality and Environmental Protection Agency. A significant portion of material focuses on the Tennessee Valley Authority, including regulatory and staffing issues. In addition to these topics, there are documents pertaining to pardons, containing lists of pardons granted and denied.

System of Arrangement
This series of records is from Gore Vice Presidential Records: White House Staff Member and Office Files.

Staff Member and Office Files are the textual records created and/or maintained by White House staff members within their individual offices. These files document all levels of administration activity.

Records in this series have been systematically processed and arranged based on the five-digit Oversize Attachment/Identification (OA/ID) box numbers assigned to the records by the White House Office of Records Management during the Clinton Administration. The original order of the records within the boxes as they were received by the White House Office of Records Management has been maintained while arranging, preserving, reviewing, and describing the materials in preparation for making them available to the public.
