Bill,

It's a beautiful day here in Carlisle, PA today. Hope your view out the Executive Office Building is lovely as well. I am working on an NLC/ICMA initiative as part of a Homeland Security grant to develop an effective emergency preparedness training curriculum for the uneducated local elected official. I was in your city for a day and a half just two weeks ago at the NLC offices. Met a woman by the name of Quist from DHS. Our next meeting in DC s in mid-September.

[redacted]

Jeremy might have warned you. I have had my picture taken with George HW Bush and Bill Clinton, but not with George W. Is there any way that can happen? I'm not optimistic, but it would be nice to have pictures with the Presidents who were in office during my years as mayor.

More importantly, I am also asking you for the procedure to seek a Presidential Pardon. A constituent (and close personal friend) was unfairly sentenced to a felony. It's a long story and I will gladly detail it once you tell me the process. Any insight you can provide would be grateful. [redacted]

I assume unfortunately your days at the White House are few. In addition to handling the two requests above, I hope you'll let me know where you end up in 2009!!

Hope to hear from you soon,

Respectfully,

Kirk
