

THE WHITE HOUSE

WASHINGTON

December 7, 2018

The Honorable David Ferriero
Archivist of the United States
Washington, D.C. 20408

Dear Mr. Ferriero:

Congratulations to the Information Security Oversight Office (ISOO) for its 40 years of distinguished service to the American people. For four decades, ISOO has made significant contributions to the safety and security of our Nation. The dedication of those serving ISOO has helped ensure appropriate sharing and safeguarding of national security information across government and industry, and improved declassification practices for greater government transparency and accountability.

The team at ISOO should feel tremendous pride in its outstanding work protecting the American people at home and abroad. I am confident ISOO will continue its work advancing issues of critical importance to national security.

Thank you for your exceptional leadership and congratulations on this remarkable achievement.

Sincerely,

A handwritten signature in black ink, appearing to read "Donald Trump", written in a cursive style.
