AMELIA & NOONAN RETURN
AFTER PLANE CRASH IN HONOLULU

LIBRARY 15

VOLUME 9 RELEASE 580

Subj. No. 4 (continued)

Perry will have no shelter during the month he expects to take for the voyage and only a barrel of water and two xx boxes of canned food for supplies. And suppose he loses the can-opener overboard? (1 S. TO END)

Subject No. 5.

Horatio Casterbuilt isn't going to let any mean old heat-wave get him down! He's invented a little electric fan that fits right inside his hat, providing ocean breezes minus only the salt in the air. Maybe Horatio could provide for that, too, if he tried. He may also provide himself with a case of premature baldness, if that fan gets in his xxxxxx hair! (OPEN. 2 S. TO END)

Subject No. 6.

The search goes grimly on for Amelia Earhart Putnam and Fred Noonan. Sixty planes scour the South Pacific's trackless wastes for the missing couple. But as hours lengthen into days, and days into weeks, hope is waning. (OPEN. 3 S. TO TITLE)

(5 ft. title)

Here are the highlights in the career of the brave Ladybird now lost in the broad Pacific. In Nineteen thirty-two, she lands at Hanworth, England, in the pouring rain, after her thirteen-hour solo flight across the Atlantic to Londonderry, Ireland. She was the first woman to fly across the Big Pond alone, and England -- the whole world -- applauds. (OPEN 3 S. TO TITLE)

(5 ft. title)

It's back in New York, though, that Amelia receives her greatest demonstration. Ticker-tape and ripped-up telephone books shower Broadway in a heart-felt, heart-warming xxx bedlam of cheers that bear witness to the Big Town's warm affection. (OPEN, 3 S. TO TITLE)

Volume IX Number 580

RUSSIANS IN RECORD HOP OVER POLE

(Pre-Released: Shipped Air Express to All Accounts)

SAN JACINTO, CALIF.—Flying over the North Pole 6,700 miles without a stop from Moscow, three daring Soviet airmen land in an American pasture, cracking all previous records for distance flights. The aviators are in the air more than sixty-two hours and are prevented from landing at San Diego only by dense fog.

DEATH CLAIMS SEN. ROBINSON

WASHINGTON, D. C.—Striking suddenly, death carries off Senator Joseph T. Robinson of Arkansas, Democratic leader and staunch supporter of the New Deal. The statesman's death seriously affects the legislative program of the Administration.

WAR CLOUDS GLOWER IN EAST

PEIPING, CHINA.—Japan rushes thousands of troops to the mainland as fighting once again breaks out in Chinese territory. A bitter struggle is forecast as the Chinese Nationalist Government reviews a strong, new army and the nation clamors for resistance.

CHAMP TROTTERS OFF AGAIN

GOSHEN, N. Y.—Sulkies are all brushed off and shined up, and the trotters start another season of the thrilling old sport at one of the world's finest tracks. Competition is keen as the horses warm up for the classic Hambletonian.

GRANDMA PARADES HER WILES

CONEY ISLAND, N. Y.—The belles of yesteryear get another chance to show what passed for class when grandma was a girl as Steeplechase Park stages its annual Bathing Beauty contest for grandmothers. The loving-cup goes to Mrs. Theresa Caffrey, eighty-one.

EARHART RESCUE HOPE FADES

SIXTY PLANES comb the South Pacific in search of Amelia Earhart Putnam and Capt. Fred Noonan in the greatest manhunt in history. Vivid scenes show the highlights in the public life of the daring aviatrix whose fate remains in doubt.

OLD SPORT TAKES TO WATER

(Exclusive)

ELK LAKE, ORE.—Here's a group of bathing gals who not only go into the water, but take an old farmyard sport in for a swim with them. It's horseshoe pitching, but of course the girls have to use wooden horseshoes or they'd run out of ammunition.

RAFT CARRIES NEW COLUMBUS

CRESCENT CITY, CALIF.—Perry O. Stoughton puts to sea on a flimsy, unprotected raft for what he hopes will be a thousand-mile voyage to San Diego. A tiny sail propels the craft which is furnished with canned food and a barrel of drinking water.

HORATIO BEATS THE MERCURY

(Exclusive)

COYOTE CANYON, ORE.—Horatio Casterbuilt intends to have no brain waves induced by the heat. He rigs up an electric fan in his hat that supplies cooling breezes for his fevered brow. The gadget works from small batteries in Horatio's pocket.
