Dear Ross:

I have looked into the matter of the "secret file on Amelia Earhart" and the Defense Department reports to me that there is no such file. The Navy reports that there is nothing in their files to indicate that Amelia Earhart was captured by the Japanese and died on Saipan at their hands.

If you want any further information, I would be delighted to discuss it with you.

Best regards,

Pierre Salinger  
Press Secretary to  
the President
