Close Hold

Laurence,

I'm going to propose to IPS leadership that you make another visit to SA-2 for a final round of quality control after we finish linking the docs to bates stamped docs. This would allow us to go through the docs together and match the entries on the spreadsheet to verify we're all working off the same numbers. I'm also thinking it might be helpful to have a NARA stamp or something on the doc to verify you've seen it, but we can discuss that.

I just wanted to give you a heads-up, but I won't be discussing this with senior leadership until later today. I'll let you know more tomorrow.

Bill

William P. Fischer

SBU (b)(6) – deliberative process (applies to entire chain)

I discussed with John Hackett, and he said to hold off.

I mis-typed. It should be (b)(5)
