Gary,

Attached is a lightly edited version of the proposed methodology that we will finalize between Laurence and me for the way forward starting tomorrow.

Also attached is the State methodology for your reference.

Today I plan to draft a letter to Peggy that follows the lines of Laurence's methodology and also states that our review is separate from our analysis of the alienation issue initiated by our March 3rd letter.

Please let me know what you think when you can today.

Thanks, Paul

Thanks, also just wanted to let you know I added the 1,200 figure at the bottom of p 3. Just wanted you to have that so Gary's comments could be incorporated into the right version -- or send them to me and I'll do it!

Gary & Paul - I can finalize this version but had one question. On page 1, under Scope, in the sentence:

"According to NARA regulations, personal *records* must be clearly ..."

I think it confuses the issue to call identify personal email as records. We always refer to them as "files" "materials", and in the past "papers", but never records. They are outside the definition of records.

Does this make sense to you?

Yes, it makes sense to me.

On the numbers, they definitely have 1,246 personal emails for us to review.

What do you think of the attached?

I'm neutral. FWIW, the PRA does refer to them as personal records, at 44 USC 2201(3)
