

# INACTIVE - ALL ITEMS SUPERSEDED OR OBSOLETE

## **Schedule Number: NC1-AFU-81-35**

All items in this schedule are inactive. Items are either obsolete or have been superseded by newer NARA approved records schedules.

### Description:

In 1989, Air Force submitted N1-AFU-90-003 to cover all of their temporary items in AFR 12-50, Volume II, Disposition of Air Force Records (dated 1987) under a single job number. The items on this schedule are temporary. It is assumed that the items on this schedule were therefore superseded by N1-AFU-90-003.

(Table 66-6)  
(Applicable Air Force-wide)**

This submission establishes disposition criteria for rules 6.2 and 6.3. These rules cover nondestructive inspection radiographs (NDI). Rule 6.2 was previously submitted and approved under job number NCI-AFU-79-44. The 2-year retention requirement was based on most radiographic inspections of aircraft being accomplished at 2-year intervals or less. This requirement is no longer valid. As a result of recurring and nonrecurring field level radiographic inspections and time compliance technical orders (TCTOs), aircraft radiographic inspections are now required up to four years. Failure to maintain radiographs for four years or until reinspection will result in costly reinspections when past radiographs are required for comparison with new radiographs for trend analysis or when required to verify structural integrity.
