BASE STOCK RECORDS ACCOUNT (Table 67-4)
(Applicable Air Force-wide)

The purpose of this submission is to update the disposition authority for rule 17. The documentation consists of machine produced Air Force Forms 1996, Adjusted Stocks Level. Special levels are reviewed/validated periodically or at least annually. The review is a confirmation by the initiator that the level is still needed in the established quantity to satisfy the requirement described in the original justification. The validation is confirmation by the directing authority that the special level requirement and the authority for the establishment remain valid. The review/validation is a complete renegotiation of the special level. Under the current authority the forms are destroyed after 1 year (1 year after annual cutoff). The new disposition authority will allow the initiating office to destroy the old 1996 upon receipt of the approved current renegotiation. This proposed rule would eliminate the longer holding period and improve the overall maintenance of the documentation.
