	MISSILE SYSTEM RECORDS (Table 60-4) (Applicable Air Force-wide)		
1	Rule 3 has been expanded to cover Command Data Buffer (CDB) targeting material. The disposition does not change. Rule 6 is added to cover missile crew logs. The retention of Missile Crew Logs for 6 months is necessary to effectively manage the overall operations of the launch facilities assigned to the Strategic Air Command's nine strategic missile wings composed of 26 squadrons. The form is used to record accountability of missile critical components and record significant events during the tour of duty. Each launch facility at each strategic wing maintains a log.	NN-169-70
